

How to make the Villagers print & play

1. Download the files from the folder corresponding to the paper you're printing on, either "Letter", or "A4".
2. Print ONE COPY of the file named: "villagers_PNP-print-1..."
3. Print TWO COPIES of the file named: "villagers_PNP-print-2..."
4. If you want to play the solo mode, print one copy of "villagers_countess_PNP..."
5. Fold each page across the dotted line in the middle.
6. Using a steel ruler and a sharp knife, cut along the lines on each page, horizontal lines first, then vertical.
7. Fold the cards & place them into bridge size sleeves, measuring 57x89mm (2¼x3½").
8. Get something to use as coins for the game, preferably in at least three denominations (1, 10, 20).
9. Play the game!

How to give us your feedback

One person (probably you if you're reading this) should take the role of the playtest coordinator. You'll be teaching the game, and are responsible for collecting feedback from the other players. This is not mandatory, but is much appreciated, and will really help us fine tune the game.

Each time you play, the playtest coordinator should fill out this Google form:

<https://goo.gl/forms/A40IYA6bAMrIQnt2>

Each player (including you) should fill in the Player Feedback form:

<https://goo.gl/forms/zKQdcnzESbeOkHEA2>

Both of these links, and a link to the print & play files folder itself can be found here:

<https://www.sinisterfish.com/feedback/>

If you need to ask any questions, please post in the Villagers community page on Facebook so that others can benefit from the replies:

<https://www.facebook.com/groups/839465709562626/>

THANKS FOR HELPING US MAKE VILLAGERS THE BEST IT CAN BE!
