### ***MOON2-1 DARKNESS FALLS OVER MORAY***

#### **MOON16 Respect of Ulrik Ragnarsson**

You guided the shipwrecked crew of *The Lightning* to safety and in doing so you have earned the respect of Captain Ulrik Ragnarsson. You then increased his prestige by helping the town of Langmuir. Ulrik's name may open many doors for you in the Moonshae Isles.

Wherever applicable, this favor also counts as a favor with Clan Mac Lyrr.

#### **MOON17 Mercenary at Heart**

You do nothing unless coin is offered to you. This has forever lost you the friendship of Ulrik Ragnarsson. You cannot gain any further favor with Ulrik who now considers you one of his enemies.

#### **MOON18 Memorial Tablet - Fragment #2**

You found a fragment of a sandstone tablet chiseled with ancient runes. The runes, which look like ancient, twisted elven script, are impossible to decipher - some kind of magic thwarts any attempt to read the inscriptions. Perhaps, if you find more fragments of this tablet, the tale behind it will one day be made known.
