Better trained and led than the infantry, the Special Forces Brigades perform light infantry strike missions. Discipline is even harsher than infantry units. They have proven quite successful against Lebanese and PLO forces, but were overwhelmed by the Israelis.

Requires **Infantry** package.

Option: Roughly half of the Special Forces units are airborne capable. Add Parachute 30 (new Total 155/Package 140)

Aim	20	Originally formed by the Palestinian faction of the Baath Party and called As Saiga, this unit was under joint control of the Syrian army and PLO. Massive changes in the late 70s and early 80s have turned the renamed Unit 569 into Assad's personal army that is used primarily against the PLO and Palestinian factions. A primarily mechanized force, they have better training and morale than the Army, from which they are separate.
