

CAPTURE THE COMMAND TENT

You desperately need to capture the enemy command tent in order to be victorious.

SETUP

No ford tokens are placed during setup.

A command tent must be placed, with a 1 VP marker on top of it.

SPECIAL RULES

The 1 VP marker on top of the command tent does not gain VP for the faction, instead it only gives VP when an enemy unit occupies it. A player needs 4 VP to win the game, or needs to destroy all enemy units.

The command tent cannot be destroyed.

OBJECTIVE

Gain 4 VP or destroy all enemy units.
