## THE STORY BEGINS...

As far as accolades go, you've got it all. You've looted, and lost, more treasure than the average adventurer could even imagine. Now you're tired, you're weary and you're a long way from home—and what use is a quest if nobody gets to hear about it?

Your goal is to make it back to The Finishing Post, together, to tell your tale. Your path awaits in the Forest of Fate...

## COMPONENTS

36 Encounters

5 Quests

1 Finishing Post

6 Characters

4 Artefacts

10 Items

12 Abilities

12 Skills

12 Statuses

## THE STORY BOOK

To navigate the Forest you will also need a copy of the Story Book: you cannot play without one. You can access the free digital and printable versions by scanning the QR code on the front of this booklet, or by visiting <https://fate.cards/forest>

We like trees, so we recommend the digital version. It's compatible with all modern computers, tablets and smartphones, and doesn't require an app or an internet connection to use.

# GAME SETUP

## 1 BUILD YOUR CHARACTER

Each player chooses one Character card, and places it face-up in front of them.

Next, locate the two Ability cards matching your Character's colour and choose one. Place your chosen Ability beneath your Character, so that the heart-shaped marker points to the number 10. Return the other Ability to the box.

Tip: Two or three players can enjoy a longer game by choosing two characters each.

## 2 CHOOSE YOUR QUEST

As a group, choose one Quest card and place it face-up in the centre of the table. This is your starting point.

## 3 CLAIM YOUR LOOT

Locate the Artefact or Item specified by your chosen Quest and place it face-up in front of any player. Put the rest of the Items to one side, and return the other Artefacts to the box.

Tip: In Easy mode you may also take a random starting item of your choice, in addition to the loot granted by your chosen Quest.

## 4 PLOT YOUR PATH

Shuffle the Encounter cards and deal them face-down in a winding path, starting from the Quest. You decide the shape! The length of your path is set according to the number of players and the desired difficulty (see table on opposite page).

All Encounters must be placed facing the same direction, matching the orientation of the text on the Quest card.

## 5 THERE'S NO PLACE LIKE HOME

Locate The Finishing Post and place it face-down at the end of the path. This is your end goal.

Once setup is complete, your table should look something like this.

## HOW MANY ENCOUNTERS?

We recommend new players start at Normal, then adjust according to your preferences. Younger players may enjoy Easy mode the best.

	EASY	NORMAL	HARD
2	6 <input type="checkbox"/>	8 <input checked="" type="checkbox"/>	9 <input type="checkbox"/>
3	9 <input type="checkbox"/>	11 <input checked="" type="checkbox"/>	12 <input type="checkbox"/>
4	11 <input type="checkbox"/>	13 <input checked="" type="checkbox"/>	15 <input type="checkbox"/>
5	13 <input type="checkbox"/>	16 <input checked="" type="checkbox"/>	18 <input type="checkbox"/>
6	15 <input type="checkbox"/>	18 <input checked="" type="checkbox"/>	20 <input type="checkbox"/>

# LET'S PLAY

The Forest is a dangerous place to go alone, so you must travel together on your homeward journey. Even so, it is possible that some of you may not make it back. It is possible that none of you will make it back. To stand any chance of survival you must work together, using your Skills and Abilities to stay one step ahead of the Forest.

Each character has two Great Skills, two Good Skills and a unique Ability. Sometimes you'll even gain access to Epic Skills!

Tip: If you haven't already, now would be a good time to get to know the Skills and Abilities of your fellow adventurers. Read them aloud, and listen up!

## GETTING STARTED

Read the Quest aloud to set the scene, then familiarise yourself with your starting loot—you may need it later!

When you're ready, turn over the first Encounter card (the one nearest to the Quest) and read the scenario text aloud to the group.

## RESOLVING ENCOUNTERS

Each Encounter must be met by one of your Characters (using one of their Skills) or by using an item. There is no fixed turn order, so it's up to you to decide who will face each Encounter as it is revealed.

Once you've decided who will face the Encounter that player must then choose which Skill their Character will use.

Tip: To use a Skill the matching symbol must appear on both the Character card and the Encounter card.

Look up the paragraph number on the matching Skill symbol in the Story Book to reveal the outcome. Always use the symbol closest to the card from which you arrived (in this example the party chose Guile, and arrived from the South).

Each outcome is revealed in two parts. After reading the first part, skip to the paragraph number shown beneath your current skill level (Fair, Good, Great or Epic). Beware: once you start reading you cannot change your mind!

## SUCCESS & FAILURE

Your success will depend on your Skill, the difficulty of the current Encounter and no small amount of luck. Always pay attention to your surroundings and use your intuition!

Tip: You may do better to use a Skill that is more suited to the situation at hand, even if it's not your character's strongest.

If you chose wisely you will emerge unharmed. On rare occasions you may do so well that you gain an Item (in that case, simply place it next to your Character for later).

If you fail, you must lose the number of life points noted. When this happens, slide your Ability along to keep track of your current total.

## THE LONG WAY AROUND

You do not have to beat an Encounter in order to proceed, however if you fail (by losing any life points) the rest of the party must then take the long way around. This costs every other Character 1 life point. Note that nobody can lose their final life point in this way.

Tip: Some Abilities and Artefacts can reduce damage, prevent Statuses or avoid taking the long way around.

Once an Encounter has been resolved, leave it face-up and continue along the path to the next.

## ITEMS & ARTEFACTS

You may bypass each Encounter with a specific Item, if you have it, instead of using a Skill.

To use an Item look up the paragraph number provided in the centre of the Encounter card and read it aloud. You may only use each Item once, then it must be set aside. You cannot gain more than one of the same Item.

Artefacts provide powerful one-off abilities but cannot be gained or recharged during your journey, so use them wisely!

## STATUSES

Statuses provide temporary boosts or penalties to your Skills, based on the results of your actions. They can be both good and bad, but you can only have one Status at a time. The outcome text will tell you when to apply a Status (e.g. "Become Confused").

Statuses wear off after three Encounters, regardless of who faced them. To help keep track of how many Encounters are remaining, slide the Status card beneath your Character card as follows:

The Ranger has just become Sluggish, reducing their speed from Great to Good for the next three Encounters.

After the following Encounter is complete, the Ranger slides the Status out by one position (following the guides on the card).

The Ranger does the same again after the next Encounter, moving the Status on to the final position.

After the third Encounter is complete, the Ranger removes the Status completely. They are cured, and back to full speed!

In addition, Statuses are discarded immediately if any of the following conditions are met:

- Your character does not possess the affected Skill
- Your character gains a different Status
- Another character gains the same Status
- Your character uses the affected Skill during an Encounter

Certain Abilities, Items and Artefacts can also be used to remove or apply Statuses throughout your journey.

# ENDING THE GAME

The game ends once everyone has run out of life points, or at least one Character has made it back to The Finishing Post.

## MADE IT HOME?

Congratulations! To find your ending flip The Finishing Post card to reveal the scoring table, then follow the instructions on the card to complete your tale.

The happiness of your ending will depend on how many Characters made it back and how much loot you are carrying on arrival.

Each life point is worth 1 victory point. Each unused Item is worth 5 victory points and an unused Artefact is worth 10 victory points.

Example: If you lost one Character on the way to The Finishing Post, you would use the “Some Survived” column.

If you had 8 life points left between you and still had one unused Item, your score would be 13 ( $8 + 5 = 13$ ), so you would use the “11 - 19 points” row.

Finally, you would turn to paragraph 825 in the Story Book and read your ending aloud.

CONGRATULATIONS, YOU MADE IT HOME!

To find your ultimate fate, add up the party's remaining life points, then add 5 for each unused item and 10 for each unused artefact.

Check Scored: Survived, Lost, Almost Survived, Died, or 20+ (Ultimate Adventure + 20)

Use this score to locate the final outcome on the table below, then look up the corresponding paragraph in the story book.

	ONE SURVIVED	SOME SURVIVED	ALL SURVIVED
POINTS			
1 - 5	530	592	430
6 - 10	309	822	120
11 - 19	781	825	235
20 +	745	938	45

If you don't make it back to The Finishing Post, you don't get an ending! Your story ends in the Forest, where it began.

## RUN OUT OF LIFE POINTS?

For you, the journey is over. You are too weak and must be left behind—but that is not the end of your story.

Tip: To maintain an element of surprise for new players, do not read the next page until somebody has run out of life points.

A CRUEL TWIST OF FATE AWAITS YOU...

# SHADES

Alone and abandoned, you may choose to simply die and leave the game, or you may allow the Forest to capture your soul. The price? You will be turned into a dreaded Shade, out for vengeance on the party that left you behind.

Will you betray your friends for the gift of eternal life?

To become a Shade flip your Ability card to reveal your Shade Ability. Your aim is now to prevent the remaining survivors from escaping the Forest.

Play now progresses as follows: after an Encounter is revealed—but before any discussion takes place—the Shades bet on which Skill they think the party will use next, by placing one of the Skill cards face down on the table.

If there is more than one Shade then they must also agree which Shade Ability to use (only one can be active at any time).

Reveal the hidden Skill card only after the party have made their final decision.

If you anticipated correctly your chosen Shade Ability will come into effect for the current Encounter. If you did not, the Encounter is resolved as normal.

Each additional Shade that enters the game will make your journey that little bit harder, so it's worthwhile doing your best to keep your companions alive for as long as possible!

## INFREQUENTLY ASKED QUESTIONS

This section addresses some of the less common scenarios that might come up during your journey. You don't need to read this before playing, just use it as a reference if required.

### DO I HAVE TO BECOME A SHADE?

No. Becoming a Shade is completely optional, and up to each player.

### CAN THE SHADES CHANGE THEIR BET AFTER SECOND SIGHT IS USED?

No. Second Sight is a vision that happens only in the Shaman's mind. The Shades have no way of knowing what happened, so their bet must remain unchanged for the second attempt.

### CAN HEALING POTIONS OR THE ANCIENT AMULET REVIVE CHARACTERS?

No. The only thing that can revive a fallen Character is the Sorcerer's Arcane Ritual.

### DO STATUSES STACK ALONGSIDE OTHER SKILL MODIFIERS?

Yes. For example, if the Thief is already Energetic (taking their speed from Good to Great) and then the Bard used their Soul-Binding Ballad, the Thief would be able to use Epic speed for that Encounter.

### CAN BOOSTS ALLOW MY CHARACTER TO ACCESS NEW SKILLS?

No. If your Character card does not include a particular Skill, the only thing that can give you access to that Skill is the Champion's Mask.

### WHEN THE BARD IS SOUL-BOUND, HOW MUCH DAMAGE SHOULD THEY TAKE?

A Bard under the effects of the Soul-Binding Ballad will take exactly the same amount of damage as the target. For example, if the target is a Warrior with Thick Skin, the Bard would also benefit from their damage-reducing Ability.

### HOW DO I REVIVE A CHARACTER USING THE ARCANES RITUAL?

The Arcane Ritual works by transferring life from the survivors to the fallen character. The Sorcerer has the final say on when this ability is used, and how much life to take from each survivor.

This must be it, you just know it. You can feel the breeze already, but what's this? There's no exit here, just a pile of bones. You turn to go back, but suddenly find yourself facing a solid wall. The warning at the entrance rings in your ears as you find yourself trapped and alone. (Lose 5 life points, Become Reckless)

37

You've had a fear of water since the accident. Taking no risks, you read aloud the scroll and watch as the waves part ahead of you. It takes no time at all to cross the lake bed on foot, picking up the odd confused fish as you go.

You've heard stories about witches, and they never seem to end well. Despite giving the hag a wide berth she somehow spots you passing quietly behind her, without so much as looking up.

46

"Tell us again!" chants a chorus of tiny voices. You let out a huge yawn. "Isn't it past your bedtime?" The children are causing chaos around the fire, jumping off chairs and fencing with sticks. "Tell us the part with the monsters!" pleads one of the older boys. Just then the landlady interrupts. "Enough! Now off home with the lotta you." As she herds the children towards the door you feel a light pull on your cloak, and look down to see one of the girls smiling at you from ear-to-ear. "When I grow up, I'm going to go on adventures just like you," she says. The End.

47

You pick a tree and start climbing, the rising cloud at your heels. You scramble ever higher until the trunk flexes and sways under your weight. You manage to draw just enough air to remain conscious, but still it burns your lungs. (Lose 4 life points, Become Reckless)

57

Almost there, if you could only reach a little further-splash! You topple over the edge and into the water, head-first. You choke and splutter as you try to clear the inhaled liquid from your lungs, then you realise the gold has vanished. (Lose 3 life points, Become Flustered)

58

He's clearly nervous. He sidles up to the meat and gives it a big sniff. You have to pretend you aren't watching. When he decides it's safe, he tucks in. You decide to leave him to it. Maybe he'll last a little longer out here now, thanks to you.

59

As the branch comes swooping in you swing wildly to meet it, and sever it in one strike. A haunting shriek comes from the tree, along with a sudden onslaught of blows from all directions. (Lose 4 life points)

In seconds you've established a human chain, passing buckets backwards and forwards with adrenaline-fueled efficiency. When the flames are extinguished a huge celebration erupts, and the leader gifts you a ceremonial torch to honour your kindness. (Gain Flaming Torch)

"It'll give you the courage of ten men!" she replies. You look on, unimpressed. She continues: "...and it'll make your advances irresistible." Still, your face is a painting of disappointment. "Seal knife wounds? Let you see in the dark? Oh for heaven's sake just take it, I've still got a whole wagon-load to get rid of." (Gain Healing Potion)

65

You look again at the arrow and notice the high angle at which it has embedded itself. It must have flown quite a distance. Just one of those things, I suppose.

### BLACKWOOD HOLD

The castle lies silent, torches extinguished. You look back over the narrow bridge and watch the last of the minions flee into the Forest, leaderless. You feel the weight of the Dark Prince's mask in your pack and on your mind. At least it's in safe hands, for now.

## CONGRATULATIONS, YOU MADE IT HOME!

To find your ultimate fate, add up the party's remaining life points, then add 5 for each unused item and 10 for each unused artefact.

$$\text{FINAL SCORE} = \text{REMAINING LIFE POINTS} + (\text{UNUSED ITEMS} \times 5) + (\text{UNUSED ARTEFACTS} \times 10)$$

Use this score to locate the final outcome in the table below, then look up the corresponding paragraph in the story book.

	ONE SURVIVED	SOME SURVIVED	ALL SURVIVED
POINTS			
1-5	990	592	430
6-10	309	832	120
11-19	781	825	235
20+	746	938	46

### THE DUNGEON'S MOUTH

Another day, another dungeon. Your knees creak as you steadily make your way back up the stone steps. Your arms and back are sore, and you barely found enough gold to pay for repairs to your equipment. Adventuring really isn't all it's cracked up to be.

Gain a random item to start

### ITZAMATUL TEMPLE

You emerge into the light just as the tunnel collapses, all life finally strangled from the crumbling temple by the encroaching Forest. All doubts you had about the Amulet's powers are swept aside as you look down at the fragile artifact, finally in your grasp.

Gain the Ancient Amulet artefact to start

### MOUNT SHIMON

Black smoke curls up from high on the mountain. It's hard to tell if it's from the volcano, or from the fires you set to destroy the remains of the Necromancer's lair. The stolen staff glows softly in your hands with enough charge for one final spell.

Gain the Staff of Conjuraction artefact to start

### DRAGONHOLM BAY

The townsfolk gather in silent anticipation. When you proudly hold the skull aloft they erupt in celebration, finally free from the tyranny of the great dragon, Natskyelam. You are showered with gifts, none so useful or valuable as your newly-fashioned armor.

## FERRY CROSSING

A wide lake opens out in front of you, introduced by a jetty attached to a precarious floating shack. A ferry appears moored at the far end.

Bypass using Scroll of Passage 37

## TRAPPED

Twang, what was that? A tripwire! Four walls spring up to enclose you, their barbed tops blocking your only means of escape. Somebody must have heard the crash, somebody must be coming...

Bypass using Skeleton Key 819

## THE DARK WEB

Something tickles your face. You flinch and bring your hands up to a fine, sticky thread. On the ground looms a vast, eight-legged shadow...

Bypass using Flaming Torch 886

## THE SWARM

Something large buzzes past your ear. There it is again. You swat at the creature, missing, when your eye catches the house-sized nest hanging no more than an arm's length from your face.

Bypass using Flaming Torch 39

## MAKE A WISH

An abandoned well sits by the side of the road, covered in thick vines. Below the surface lies a shimmering layer of gold coins, though you can't imagine who would have placed them here.

Bypass using Rope 904

## THE SERPENT

Such strange tracks, like no animal you've ever seen. You are jolted by a sudden hissing sound, and spin around to find yourself faced with a giant snake. It must be thirty feet long!

Bypass using Beast Repellent 582

### THE TRAVELLING APOTHECARY

A rickety wagon coming in the opposite direction slows as its driver greets you. "What a weary band, why I have just the thing to put the vigour back into your step!"

Bypass using Gold 914

### THE LATE SHIFT

The road is more regularly used here. Following the worn tracks you find a small outpost, manned by a couple of fresh-faced young guards who seem quite alarmed by your approach. "Halt, who goes there?"

Bypass using Skeleton Key 218

### THE LOST HOUND

Is it your imagination? For the third time you hear the pitter-patter of tiny feet behind you. You turn quickly and come face-to-face with an old stray, sat patiently in the middle of the path with its tail wagging excitedly.

Bypass using Beast Repellent 960

### THE WANDERING OAK

That's strange. Although the wind has dropped, the trees here are still creaking loudly—almost as if talking to one another. Just then a branch takes a swipe at you. You spin to find a knarled, wooden face staring back at you intently.

Bypass using Mysterious Herb 203

### MIDDLE OF THE PACK

You come to a sudden halt, as a snarling eminate from the undergrowth. Out in front of you leaps a vicious wolf, followed by two more behind. Their jaws are dripping and their eyes are fixed menacingly upon you.

Bypass using Flaming Torch 806

### ALL LOCKED UP

Rising up in front of you is a high stone wall, broken only by an ancient iron gate. Rust bites hard at the creaking hinges but the padlock barring your way is surprisingly sturdy. You can see no way around except for a treacherous climb over the waiting spikes.

Bypass using Skeleton Key 631

## FRUITS OF THE FOREST

The ground is stained bright yellow with the pulp of a hundred or more fruits, fallen from the boughs just above your head. They look so round and succulent, and it's so long since you ate...

Bypass using Four-Legged Friend 943

## THE ADDLED LADS

What is that racket? As you round the bend you're greeted by the swinging sign of The Black Chance. Three jolly men sit on a log not far away, bottles firmly in hand. "Eh, why don't youse come and join us for a sing-song?"

Bypass using Mysterious Herb 421

## THE MAIDEN

You hear a faint cry and between the trees can barely make out the figure of a woman, bent over and sobbing. You haven't passed a town in miles, and such a vulnerable, unarmed person has no business being out in these woods alone.

Bypass using Spirit Compass 770

## STAMPEDE

Out of nowhere all the birds around you take flight as the earth emits a low rumble. Putting your ear to the dirt you hear the sound of many hooves, and they seem to be drawing closer.

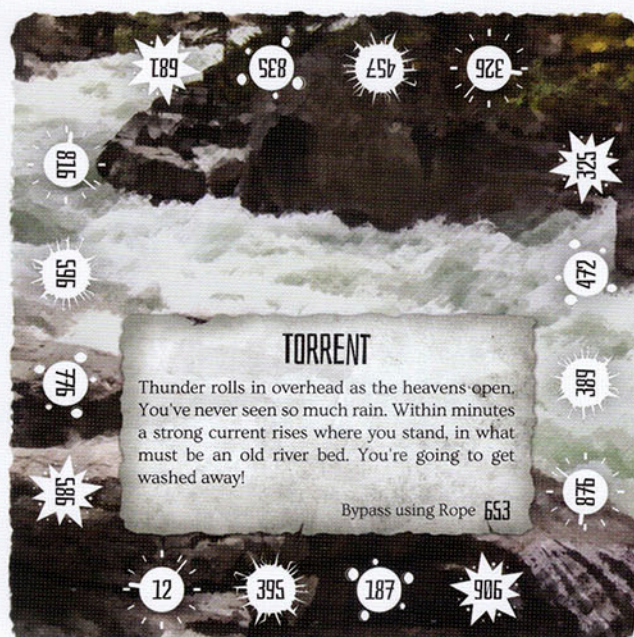

Bypass using Beast Repellent 772

## THE HUNTER

Thwack-twaang! The sound of an arrow striking a tree trunk—but where did it come from? You look all around for the owner but hear only a distant rustle coming from the bushes.

Bypass using Four-Legged Friend 853

## TORRENT

Thunder rolls in overhead as the heavens open. You've never seen so much rain. Within minutes a strong current rises where you stand, in what must be an old river bed. You're going to get washed away!

Bypass using Rope 653

### DON'T LOOK DOWN

The ground drops away in front of you to reveal a deep gorge. The only crossing point is a narrow rope bridge. It looks like nobody has come this way for some time.

Bypass using Rope 114

### COLD-BLOODED KILLER

Reptilian footprints as large as treestumps dot the path ahead. Maybe there is a nest nearby? Suddenly you hear a roar and spin just in time to see the giant lizard, poised for attack.

Bypass using Beast Repellent 144

### RAINING EARTH

Your path takes you far down into a natural gulley, flooded with shallow water. The walls rise up high on either side, blotting out almost all sunlight. You hear a shuffling and look up—it's a rock slide!

Bypass using Four-Legged Friend 722

### A BEAR IN NEED

By the side of the path you encounter a badly wounded bear. It looks as if its leg was caught in a trap, but it somehow managed to break free. You want to help, but you must remember this is a dangerous animal.

Bypass using Mysterious Herb 891

### POISON FOG

An eerie silence comes over you, the only sound the squelching of your feet. It's not until you are hit by the acrid smell that you notice the stifling green cloud rising past your waist...

Bypass using Scroll of Passage 872

### MASTER OF SWORDS

You receive quite a shock when a shadowy figure suddenly drops to the ground in front of you, seemingly out of nowhere. "Aha!" she snaps, "I am the Master of Swords, and I challenge you to a duel."

Bypass using Skeleton Key 524

### HEAD IN THE CLOUDS

The weather is on the turn, and soon a heavy fog descends. You can hardly make out the path in front of you, but the higher ground to your left seems clear. You suspect it will give a better viewpoint to survey the way ahead.

Bypass using Spirit Compass 674

### TROUBLE BREW'N'

Whisks of strange-coloured smoke rise between the trees ahead, and as the vegetation parts you catch sight of a thatched roof. An old crone is sat outside, doing something with a large pot.

Bypass using Mysterious Herb 645

### TAKING A TOLL

A banner flies above a small, stone hut. The wonky chimney is puffing away next to a sign reading "TULL." From the creaking wooden door shuffles an elderly man. "3 gold pieces to pass!" he croaks.

Bypass using Gold 267

### INFERNO

First you smell the smoke, then you see the flames. The village ahead is on fire! The nearest house looks ready to collapse and there are cries coming from a hut further up the road.

Bypass using Four-Legged Friend 689

### LEAP OF FAITH

Your path comes to an abrupt stop at the edge of a narrow ravine. You peer over the edge for a better view, and notice some overhanging tree roots off to one side. They might just be strong enough to swing across.

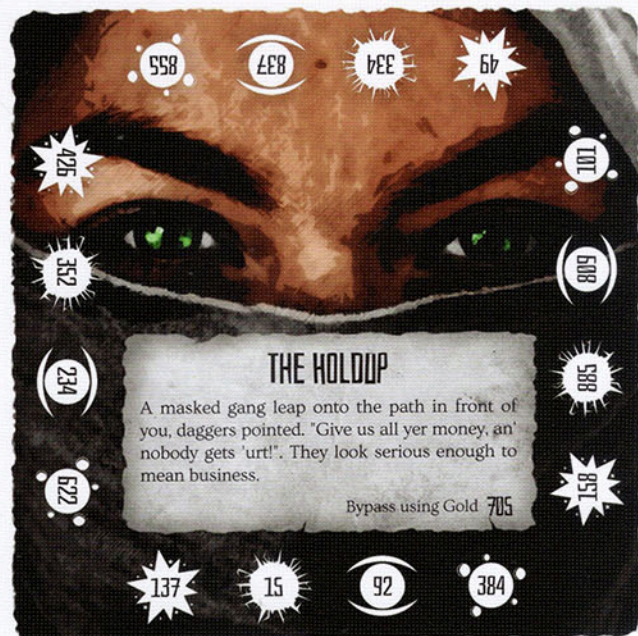

Bypass using Scroll of Passage 951

### OVERGROWN

The path narrows as vegetation closes around you on all sides. Thick, thorny brambles block the way ahead. It looks as if they had sprung up overnight—or perhaps they are still growing?

Bypass using Scroll of Passage 792

**THE HOLDUP**

A masked gang leap onto the path in front of you, daggers pointed. "Give us all yer money, an' nobody gets 'urt!". They look serious enough to mean business.
