London Directory

2nd Edition

"There is no one who knows the higher criminal world of London so well as I do. For years past I have continually been conscious of some power behind the malefactor, some deep organizing power which for ever stands in the way of the law, and throws its shield over the wrong-doer"

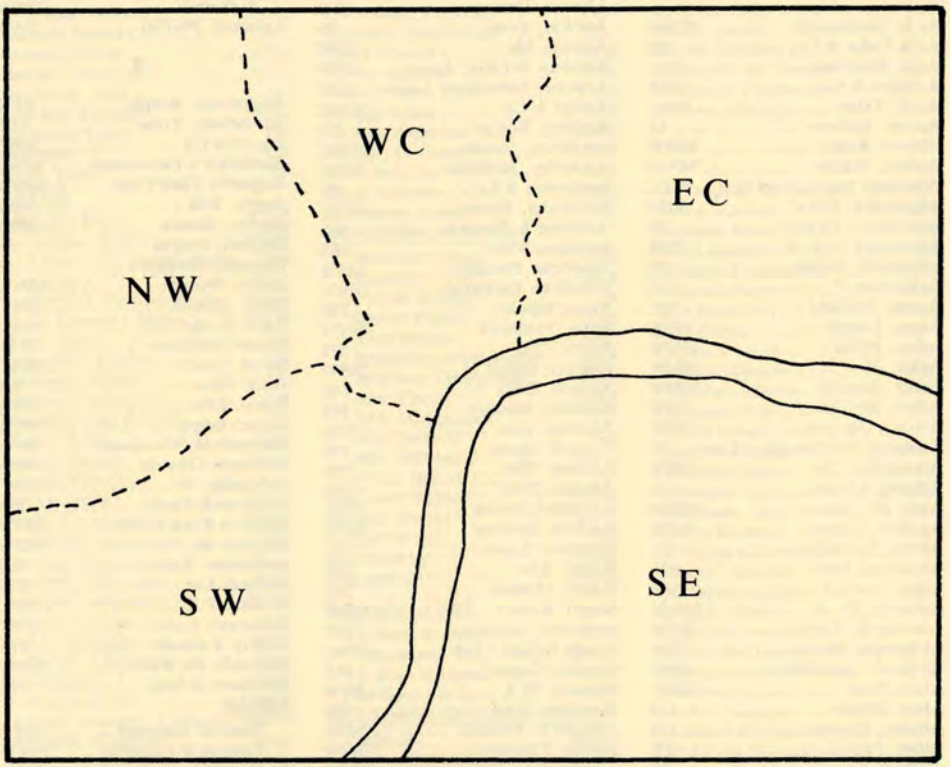
London Directory

The following directory is a listing of most of the characters you will encounter in the cases. The listings are alphabetical by name and category. For example, Charles Attard is listed alphabetically, Attard, Charles, with a location of 12WC, which is his residence. You will also find Charles Attard listed under the category of BARRISTERS with the location of 34 EC. This is the location of Attard's law office.

When you encounter a character in a case and want to look up his **clue point**, turn to that character's alphabetical listing. The location number following the name is the **clue point** under which you will find his clue in the *CLUE BOOK*.

You may, in certain situations, look for clues by using the category listings. For example, you have a case involving poison. You may gather information by visiting the CHEMISTS (7), HOSPITALS (9) or any other location that you might think helpful. Try to approach each case as you would a real one. Use the resources of the city, as Holmes did, the people, the newspapers, the libraries. They are all there. It is up to you to take advantage of them.



LONDON POSTAL DISTRICTS

MAP

Each location given in the *Directory* corresponds to a point on your map. If you look at your map you will see it is divided into five sections corresponding to the London postal districts (see diagram) and are designated as follows:

SE	South East
SW	South West
NW	North West
WC	West Central
EC	East Central

Each location in the *Directory* is indicated by a number followed by one of the five postal district designations. Thus, Charles Attard's residence at **12WC** will be found in the West Central district on the block numbered 12. His law office will be found in East Central London on block 34.

You will also find a number of locations in the *Directory* with the postal district designations **E** (East) and **S** (South). These locations correspond to map locations and **clue points** which will be used in the upcoming ***East End*** supplement, which will also include a map of the East End.
