

Enemy Chocolatier

A Cheapass board game for 2-6 players

Welcome to the
Chocolate Factory.

You and your friends are
hardworking candymen,
struggling to bring joy
and prosperity to your
benefactor: the world's
most powerful and
beloved chocolatier.

But secretly, you yearn
to break free of his
overbearing influence,
create your own magical
world of chocolate, and
ultimately destroy him.

Such is the life of the
Enemy Chocolatier.

Enemy Chocolatier is a strategy board game of chocolate, nuts, and love. Players jockey for control of neighborhoods around the Chocolate Factory, trying to earn points and complete their secret recipes. It's got beautiful, full-color boards and eight cards you can cut up yourself! To play, you'll need about 30 counters for each player, 20 other counters, money, and a way to keep score.
