The art for this coloring book is from two monster art projects on Kickstarter by Inkwell Ideas. We've picked 32 of the least scary looking monsters so it may be given to younger children. (But kids are different, so use your best judgment.) We also picked art that was good for coloring. (Some of the line art was not appropriate for coloring for one reason or another: too much shading, too much detail, etc.)

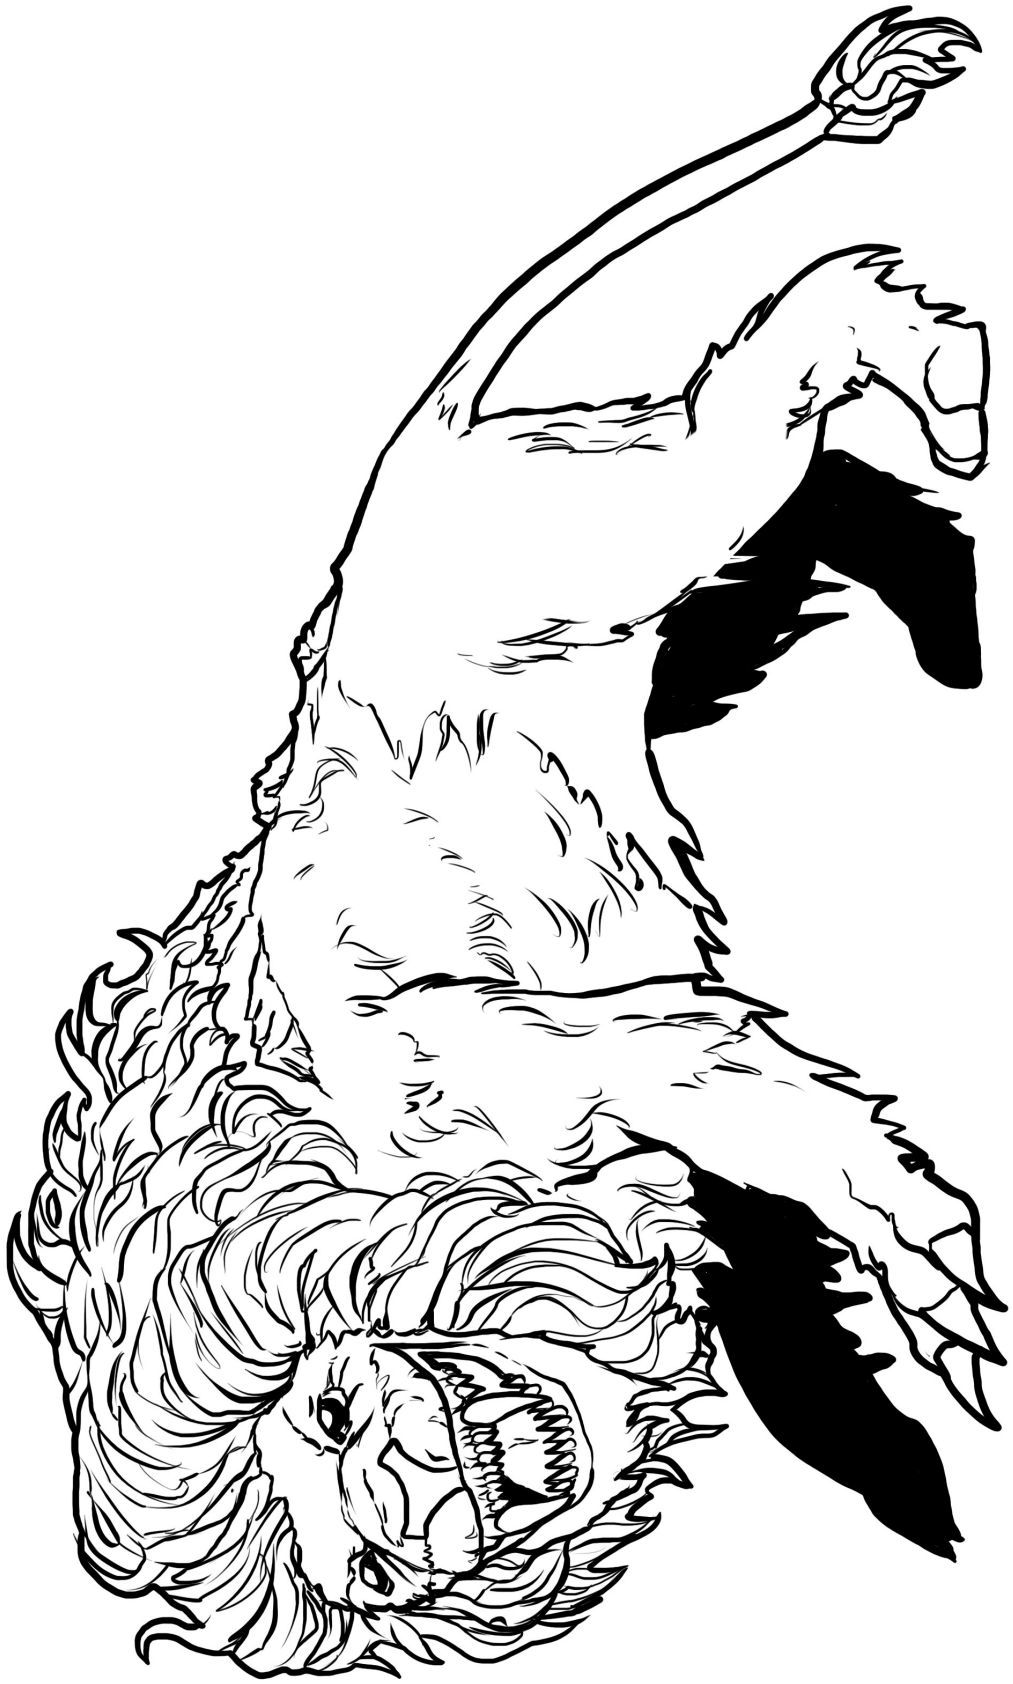

Permission is granted to print copies of the art for personal use only.
