The Avery Template Card Stock is **not required**, but we find it makes printing and separating the cards easier than other methods. \*\* Use US Letter PDF files for Avery Template printing.

**Note:** You may print the cards on the paper stock of your choice.

## Printing Instructions

Maniac Cards define the game's actions. These cards are played to move Victim Cards on The Wall, strategically discourage other Maniacs from capturing Victims, and boost your score.

1) First, print each card deck file from the **Card Fronts** folder.

2) Separate each card deck into groups: Final Girl, Maniac, Plot Twist, Victim.

3) Flip the printed card decks over, insert a card deck group into the printer, and print the corresponding **Card Backs** file for each card deck.

*Note: Printing the Card Backs is optional, you may choose to label them on your own.*

4) Separate the cards individually.

*Note: If you used the Avery Name Badge templates, you can separate the cards by hand, otherwise you will need to use scissors or a paper slicer. A large Maniac knife is not recommended.*
