WARSCROLLS COMPENDIUM

INTRODUCTION

In the war-torn Mortal Realms, the unquiet dead are plentiful indeed. Some have the power to bind the slain to their will, from the most bestial corpse to the most kingly of spectres. Their revenant armies walk abroad

in every realm, grave-cold blades hacking into warm flesh whenever their masters seek dominion over the living. None can rival Nagash, the Great Necromancer – even Sigmar himself has cause to fear his name.

The warscrolls in this compendium allow you to use your Citadel Miniatures collection in fantastical battle, whether telling epic stories set during the Age of Sigmar, or recreating the wars of the world-that-was.

WARSCROLL KEY

- 1. Title:** The name of the model that the warscroll describes.
- 2. Characteristics:** This set of characteristics tells you how fast, powerful and brave the model is, and how effective its weapons are.
- 3. Description:** The description tells you what weapons the model can be armed with, and what upgrades (if any) it can be given. The description will also tell you if the model is fielded on its own as a single model, or as part of a unit. If the model is fielded as part of a unit, then the description will say how many models the unit should have (if you don't have enough models to field a unit, you can still field one unit with as many models as you have available).
- 4. Abilities:** Abilities are things that the model can do during a game that are not covered by the standard game rules.
- 5. Keywords:** All models have a list of keywords. Sometimes a rule will say that it only applies to models that have a specific keyword.
- 6. Damage Table:** Some models have a damage table that is used to determine one or more of the model's characteristics. Look up the number of wounds the model has suffered to find the value of the characteristic in question.

DESCRIPTION

Nagash is a single model. He fights with Zefet-nebtar, the Mortis Blade, and is protected by the black plates of Morikhane, his magical suit of armour. Around him swirl the Nine Books of Nagash, and in one hand he holds Alakanash, the Staff of Power. Even his deathly Gaze can strike down the most powerful of foes. Nagash is accompanied by a host of spirits that fight with Spectral Claws and Daggers.

FLY

Nagash can fly.

ABILITIES

Morikhane: Roll a dice each time Nagash suffers a mortal wound. If the result is a 4 or more, the Black Armour deflects the mortal wound and it is ignored; if the result is 6, the unit that inflicted the mortal wound suffers one in return as the attack is reflected back at them.

The Nine Books of Nagash: The Nine Books of Nagash allow him to cast extra spells in his own hero phase, and unbind extra spells in the enemy hero phase. The number of different spells he can attempt to cast or unbind is shown on the damage table above.

The Staff of Power: Add the modifier listed on the Damage Table to any casting or unbinding rolls for Nagash.

Death Magic Incarnate: If Nagash successfully casts a spell that allows you to set up a new **DEATH** unit, you can double the number of models set up in that unit (if he summoned a **HERO** or a **MONSTER**, you can set up two units instead of one).

Frightful Touch: If the hit roll for an attack made by the spirits' Spectral Claws and Daggers is 6 or more, their frightful touch stills the victim's beating heart, immediately inflicting 1 mortal wound instead of the normal damage.

MAGIC

Nagash is a wizard. He can attempt to cast three different spells in each of your hero phases, and attempt to unbind three spells in each enemy hero phase. In addition, he can attempt to cast or unbind extra spells with the Nine Books of Nagash. He knows the Arcane Bolt, Mystic Shield, Hand of Dust and Soul Stealer spells, as well as any spells known by other **DEATH WIZARDS** on the battlefield.

HAND OF DUST

It is said that the touch of Nagash can wither and age any mortal, turning them to little more than a pile of dusty bones in mere moments. Hand of Dust has a casting value of 8. If successfully cast, pick an enemy model within 3". Then, take a dice and hide it in one of your hands. Hold your hands in front of your opponent and ask them to pick one. If they pick the one holding the dice, their model dodges the attack. If not, the model is turned to dust and is slain!

SOUL STEALER

Levelling Alakanash at the enemy, Nagash can steal their souls for sustenance. Soul Stealer has a casting value of 6. If successfully cast, pick an enemy unit within 24" and roll two dice. If the total score is greater than that unit's Bravery, it suffers D3 mortal wounds. If the total score is at least double that unit's Bravery, it suffers D6 mortal wounds instead. Nagash heals one wound for each mortal wound inflicted on the target.

COMMAND ABILITY

Supreme Lord of Death: Nagash's unbreakable will infuses his army with unknowable power. If Nagash uses this ability then until your next hero phase you can re-roll hit and save rolls of 1 for all **DEATH** units in your army and they do not need to take battleshock tests.

DESCRIPTION

Arkhan the Black is a single model. He fights with Zefet-kar, the Tomb Blade, and rides into battle on the back of Razarak, a dread abyssal mount that strikes down Arkhan's foes with its Ebon Claws. Arkhan also carries Khenash-an, the Staff of Spirits – an arcane artefact that stores the magical energy Arkhan uses to empower his spells. Arkhan is accompanied by a host of spirits that fight with Spectral Claws and Daggers.

FLY

Arkhan the Black can fly.

ABILITIES

Feaster of Souls: Arkhan the Black heals 2 wounds at the end of each combat phase in which he slew any models.

He knows the Arcane Bolt, Mystic Shield and Curse of Years spells. Arkhan also knows the spells of any **DEATH WIZARD** that is within 18" of him.

CURSE OF YEARS

Tracing a spiteful gesture in the air, Arkhan curses the enemy to age at an incredible rate. Curse of Years has a casting value of 6. If successfully cast, pick a visible unit within 18" and roll ten dice. For each roll of 6, that unit suffers a mortal wound and you can roll an extra dice. For each roll of 5 or more on these extra dice, the target suffers another mortal wound and you can roll another dice. Now, for each roll of 4

or more, the target suffers another mortal wound and you can roll another dice. Keep rolling dice in this way, inflicting mortal wounds and reducing the roll needed to cause them by 1 each time, until either no wounds are inflicted or the target unit has been reduced to a pile of corpse-dust!

COMMAND ABILITY

First of the Mortarchs: If Arkhan the Black uses this ability, then all **DEATH WIZARDS** within 18" of him can increase the range of their spells by 6" this phase.

ABILITIES

Feaster of Souls: Mannfred, Mortarch of Night, heals 2 wounds at the end of each combat phase in which he slew any models.

She rides into battle on the back of Nagadron, a dread abyssal mount that strikes down her foes with its Skeletal Claws. Neferata is accompanied by a host of spirits that fight with Spectral Claws and Daggers.

FLY

Neferata can fly.

ABILITIES

Dagger of Jet: The Dagger of Jet saps the vitality and fighting spirit of its victims, leaving them at Neferata's mercy. If a model suffers any wounds from Akmet-har but is not slain, roll a dice at the end of the phase. If the roll is greater than that model's remaining number of wounds, it cannot fight on or defend itself and is contemptuously slain by Neferata.

Feaster of Souls: Neferata, Mortarch of Blood, heals 2 wounds at the end of each combat phase during which she slew any models.

Mortarch of Blood: Each time Neferata slays an enemy **HERO** in the combat phase with either Akmet-har or Aken-seth, she transforms that hero into one of her thralls; you can set up a Vampire Lord within 6" of Neferata. This model is added to your army, but cannot attack in that combat phase.

Frightful Touch: If the hit roll for an attack made by the spirits' Spectral Claws and Daggers is 6 or more, their frightful touch stills the victim's beating heart, immediately inflicting 1 mortal wound instead of the normal damage.

MAGIC

Neferata is a wizard. She can attempt to cast two different spells in each of your hero phases, and attempt to unbind two different spells in each enemy hero phase. She knows the Arcane Bolt, Mystic Shield and Dark Mist spells.

DARK MIST

At her arcane command, tendrils of dark mist coil around Neferata's minions, turning their corporeal forms as insubstantial as smoke. Dark Mist has a casting value of 6. If successfully cast, pick a unit within 18". Until your next hero phase, that unit can fly and ignores the Rend of any weapons that target it.

COMMAND ABILITY

Twilight's Allure: Neferata's beauty is never more apparent than when she marches at the head of a mighty army. If Neferata uses this ability, then until your next hero phase enemy units that are within range (see the damage table) are distracted by her dark majesty – your opponent must subtract 1 from all hit rolls for these units.

March of the Dead: Deathrattle Hordes are implacable in the advance. When a unit from a Deathrattle Horde runs, you can choose to move each model an additional 4" instead of rolling to see how far they can move.

Models from a Charnel Pit Carrion battalion can make one extra attack with each of their melee weapons whilst their unit is within 15" of this piece of scenery.

Unnatural Vigour: Consuming the flesh of the dead prolongs the life of these foul beings, making them all but impossible to kill. If a unit in a Charnel Pit Carrion battalion wipes out an enemy unit in the combat phase, you can add 1 to all save rolls for that unit for the rest of the battle (a unit can only benefit from this ability once per battle).
