

## FLESH-EATER COURTS

# KING VLAGORESCU'S GHOULISH HOST

### ORGANISATION

King Vlagorescu's Ghoulish Host consists of the following units:

- 1 Abhorrant Ghoul King on Terrorgheist
- 1 Varghulf Courtier
- 1 unit of Crypt Ghouls
- 1 unit of Crypt Horrors
- 1 unit of Crypt Flyers

### ABILITIES

**A Banquet Fit for a King:** Grippled by a ravenous hunger, the Ghoulish Host redouble their efforts so they can pile fresh meat on the king's banquet table and begin a great feast. At the end of your hero phase, roll a dice for each unit from this battalion that is within 3" of an enemy unit; on a 6 you can immediately pile in and attack with that unit as if it were the combat phase.

**Martial Excellence:** Well drilled on parade and instilled with iron discipline – to their deluded minds, at least – King Vlagorescu's Ghoulish Host heed the bestial roars of his courtier without a moment's hesitation. In your hero phase, one unit in the Ghoulish Host that is within 10" of their Varghulf Courtier can immediately reform around one of its models. That model must stay where it is, but each other model in the unit can move up to 6" so long as it does not end this move within 3" of the enemy. This unit can still move in the ensuing movement phase as normal.
