* 'Ambassador' can only be entered by nobles who have been appointed by a government.

** Although it is not said explicitly, 'Crusader' can, I believe only be entered by characters who are on a Crusade. Note further that I've replaced the 'Knight' entry and the 'Knight of the Inner Circle' exit with, respectively, 'Knight of the Realm' and 'Grail Knight', as it would be very strange for Bretonnian knights not to be able to become Crusaders.

*** 'Cult acolyte of ...' can only be entered by established cultists of the appropriate Chaos God who have at least one mutation. Note that 'Cult Magus of ...' can only be entered through the appropriate 'Cult Acolyte of ...' career.

**** 'Killer of the Dead' can only be entered by characters who have at least 5 insanity points.

‡ This Symbol denotes a Career that is not further described in these lists.

Note: the 'entries and exits' are done very sloppily in KotG with many non-matches. Example: Grail Knight has an Exit to Faceless, but Faceless has no entry from Grail Knight. In all these cases, I have assumed that the entry/exit is valid if one of the two is in place.
