

LIZARDMAN RULES

All normal rules for fleets apply to the Lizardman Fleet unless otherwise stated.

ADMIRAL AND WIZARD

The leader of a Lizardman fleet is a Slann Lord. This character acts as an admiral and a wizard. To purchasing a Slann you must buy a Master Wizard (100 points) or higher at normal cost. Furthermore you may not purchase another wizard.

Alternatively if you choose to use High Magic from the Citadel Journal The Slann must be a level 3 High Mage (100 points) or higher.

SERPENTS STING BOLT THROWERS

The Serpent's Sting Bolt Throwers act like broadside batteries except they fire fore and aft rather than port and starboard. If it is destroyed the front AND rear bolt throwers have been destroyed. Serpent's Sting Bolt Throwers have a range of 9" and use the normal range ruler provided with the game. They have no saving throw modifiers for range. Their target gets his standard saving throw at any distance. These do not fire grapeshot, and do not give bonuses to the dice roll when defending in a boarding action as cannons do.

BATTLE CANOE

Move: Oars 6"

Weapons: 1 Serpent's Sting firing ahead and behind.

Crew: 2

Points: 3 for 150 points

Battle Honours: 2 each

WARBARGE

Move: Oars 6"

Weapons: 2 Serpent's Stings firing ahead and behind.

Crew: 3

Points: 3 for 200 points

Battle Honours: 3 each

TEMPLE SHIP

Move: Oars 6"

Weapons: 4 Serpent's Sting firing ahead and behind.

Crew: 5

Points: 200 points

Battle Honours: 8

Special Rules

The Templeship's pyramid is a great conductor of magical energy. This is represented in game terms by giving the Slann Mage the ability to re-roll the dice when casting or dispelling as if the card used was from its own college (Note, a Grand Wizard Lord does not get two re-rolls). This ability is lost if the Sanctum is destroyed.

GARGADON

All the normal rules apply to the Gargadon unless otherwise stated

The Gargadon is bought as normal but it is not deployed in the normal manner. Rather than placing the summoning template the Gargadon is deployed with the rest of the fleet in the normal deployment zone.

When moving the Gargadon; ignore all effect when rolling any doubles for movement. However if you roll a double 6 the sea monster may either move twice or attack twice. The Gargadon does not have a lair but instead accompanies the Lizardman fleet. It can never be banished.

Points Cost: 50 points

Move Rate: 2 dice inches

Wounds: 4

To Hit: 4, 5 or 6

Saving Throw: 5 or 6

Battle Honours: 2

Special Attack

The Gargadon attacks the opposing ships structure. This is a 2 dice attack against the target's ship. The attack may only be aimed low with normal saving throws.

AIRPOWER - TERRADONS

Move: 18"

Wounds: 1

Saving Throw: 6

Points: 3 for 75 points

Battle Honours: 1 each

Special Attack

A Terradon's special attack is to drop a rock on its target. Rocks can only be used against targets that are at ground level, not against other Flyers.

First nominate the enemy location that you are aiming at. You may only target high location, unless the target is too small to make the distinction between high and low locations in which case you may target any location.

- 1-2 The rock misses and splashed harmlessly into the sea.
- 3 The rock hits the location immediately in front of the target location. If the target location was the farthest forward part of the ship, the rock splashes harmlessly into the sea.
- 4 The rock hits the location immediately behind the target location. If the target location was the most rearward part of the ship, the rock splashes harmlessly into the sea.
- 5-6 The rock is on target and hits the nominated location.

The location hit by the rock must make a normal saving throw or take 1 point of damage.

Boarding Actions and Close Combat

A Terradon gets 1 dice +1 in boarding actions and close combat, as it has 1 wound

ANTI-FLYER WEAPONS – SALAMANDER PACKS

The packs of Salamanders spit acid at oncoming flyers.

Nominate a Flyer and roll the misfire dice. The number rolled is the number of inches the acid travels. If the Flyer is in range it is automatically hit and must make 3 saving throws, taking 1 wound for each failed throw.

If the dice comes up misfire, the salamanders have gone out of control and rampage through out the ship. Remove one crew counter.
