Fighter weapon attack maneuvers deal damage based on the fighter's level. You also don't have to keep track of upgrading a 1st level maneuver into a 3rd level maneuver, because all the maneuvers function at your level.

You can change which maneuvers you know and have ready whenever you gain a level.

Fighters have flexible attacks called maneuvers; you roll your attack and then choose which maneuver you want the attack to use. You only get to use one maneuver with each attack, so it's usually best to choose maneuvers with a few different triggering rolls.
