ROGUE CLASS FEATURE

момептим

Many of the rogue's powers function only when the rogue has momentum.

You gain momentum by hitting an enemy with an attack.

You lose momentum when you are hit by an attack.

EFFECT

The default is that you can use momentum powers without losing momentum, but a few powers specify that you must spend your momentum to use them. You don't have to use attacks that require momentum against the foe you hit to gain that momentum.

Momentum powers that do not require you to spend your momentum are generally classified as interrupt actions. You can only use one interrupt action a round, which keeps your momentum powers from dominating the battle.

Rogue Class Feature

momentum

HOW DOES MOMENTUM WORK?

Momentum is either on or off. You don't have a certain amount of momentum or multiple momentums; you either have it or you don't. If you would get it when you already have it, you still just have it.

- When you start a battle, you don't have momentum.
- When you hit an enemy with an attack, you gain momentum.
- When an enemy hits you with an attack, you lose your momentum.
- The attacks don't have to do damage; they only need to hit. Similarly, even if it still does damage on a miss, an attack that misses you doesn't cause you to lose momentum.
- Some maneuvers require you to have momentum, or you can't use them.
- Some maneuvers require you to have momentum and to spend it on the maneuver. If you do that, you no longer have momentum.

POWER PROGRESSION

Whenever you level up, you can swap out any number of your rogue powers, taking any number from any of the levels you have access to.

At level 3, rogues gain access to powers of up to $3^{\rm rd}$ level, so those five powers can now include the level 3 powers.

Note that rogue powers don't become obsolete – level 1 powers are still useful at level 10 – so it's not always correct to take all the highest-level powers you can. Look for powers that fit your character concept.

For example, at level 2 you might have: *evasive strike* (1), *deadly thrust* (1), *roll with it* (1), *sure cut* (1), and *tumbling strike* (1). At level 3, you could switch to: *evasive strike* (1), *roll with it* (1), *sure cut* (1), *deflection* (3), and *slick feint* (3).
