SORCERER SPELL LEVEL 7

STOLEN FACES

RANGED SPELLDAILY

Free action to cast, before initiative is rolled

Target: 1d4 + 1 nearby allies

EFFECT

You steal the once-per-battle racial powers of your allies this battle, but you don't get the advantage of your allies' feats or items that improve those powers. Each ally you steal a racial power from can roll an easy save (6+). Success means they get to use their power also this battle. Failure means they can't; you took it fully.

You can't steal racial powers you already possess.

9th LEVEL SPELLLEARNED

You get to use your allies' powers as if you also had any of their feats that improve those powers.

SORCERER SPELL LEVEL 7

TOUCH OF EVIL

CLOSE-QUARTERS SPELLDAILY

Quick action to cast

Special: If you are fighting one or more demons, roll an easy save (6+) at the start of each of your turns. Failure means that you are *confused* that turn.

Target: You

EFFECT

You gain a random demon-style power for the rest of the battle, similar to the abilities demons possess but not identical. Roll a d8 to see which power you gain:

- RESIST ENERGY 16+**
When an attack that deals energy damage targets you, the attacker must roll a natural 16+ on the attack roll or it only deals half damage.
- INFERNAL BATTERY**
Until the end of the battle, you can use a quick action once each round to make recharge rolls for your expended recharge spells. Each time you do so, you take damage equal to half the natural result of your recharge roll.
- BACKLASH**
The first time you are *staggered* this battle, the enemy who *staggered* you becomes *confused* (save ends).

SORCERER SPELL LEVEL 9

BREATH OF THE VOID

CLOSE-QUARTERS SPELLDAILY

BREATH WEAPON

Target: One nearby enemy

Attack: Charisma + Level vs. MD

HIT

2d12 × 10 + Charisma negative energy damage, and the target moves down 2d6 points in initiative order, to a minimum of 1.

MISS

Half damage.

SORCERER SPELL LEVEL 9

CALLING THE BLOOD

CLOSE-QUARTERS SPELLDAILY

Target: You

EFFECT

Randomly select an icon (preferably a sorcerous one). You gain some surprising or bizarre magical effect associated with the power of that icon to assist you. The effect is entirely up to the GM, though the immediate impact of the spell should always be favorable for you.

The long-term consequences of randomly invoking the power of an icon that may be an enemy might not be favorable for you, and should be played for narrative interest by the GM, particularly if the impact of the spell was huge for you.

Since this is a daily spell, sizeable impact is fine, but don't award any extra effect for empowered casting, especially since the spell can be cast effectively out of combat.

SORCERER SPELL LEVEL 7

TOUCH OF EVIL

SPELL USED

DAILY

4 SPELL FRENZY

You enter a spell frenzy (see *Infernal Heritage* talent). If you were already in a spell frenzy, you now roll 3 d20 for each attack and take damage equal to triple the target's level for each roll that misses.

5 FEAR AURA

Enemies engaged with you that have fewer hit points than double your current hit points are *dazed*. They cannot use the escalation die.

6 TELEPORT

1 d3 + 1 times this battle, as a move action, you can teleport anywhere you can see nearby.

7 DEMONIC SPEED

You can take an extra standard action each turn that the escalation die is even. You lose 2 d10 hit points each time you use the extra action.

8 EYE OF THE DEMON

Choose any two features you want. For the rest of this day, all your icon relationships disappear and are replaced by an identical number of conflicted points with a villainous icon (preferably one that is demonic).

SILVER FLAME

CLOSE-QUARTERS SPELL

DAILY

Quick action to cast

EFFECT

Roll your relationship dice that you have with a sorcerous heroic icon.

For each 6 you roll, you gain one 7th level or lower spell from any spellcasting class that you can cast this battle. For each 5 you roll, you gain one 5th level or lower spell from any spellcasting class that you can cast this battle. If the escalation die is 5+, you can swap the escalation die for one of your rolls. If you get no successes, you regain the spell after this battle.

You can acquire one of the new spells the same round you cast this spell. Then select and acquire any other gained spells at the start of your next turn.

You can use your Charisma as the ability score that provides the acquired spells' attack bonuses and damage bonuses (if any). Other ability score references remain unchanged.

As you might expect, each 5 you roll also invokes an icon-related complication or obligation in the tradition of rolling 5s on relationship checks.

SORCERER CLASS FEATURES

ACCESS TO WIZARDRY

Starting at 3rd level, you can take a wizard spell in place of a sorcerer spell. The wizard spell must be two levels lower than the sorcerer spell.

BREATH WEAPON

The *breath weapon* power lasts for a single battle only.

Spells with the *breath weapon* keyword have a chance to be re-used during battle. Each spell lists the chance of re-using it (usually 16+). At the start of each round after you've cast the spell, make the re-use roll. Success indicates that you may re-use that spell as a standard action, for that round only. If you fail the re-use roll, you don't have the option to re-use the spell, but you get another chance at the beginning of the next round. You can have only one *breath weapon* spell active at a time. If you cast a different *breath weapon* spell, the new spell cancels the earlier spell.

Failing a death save cancels any active *breath weapon* spell.

ADVENTURER FEAT

LEARNED

Failing a death save no longer cancels your *breath weapon* spells. Keep rolling the entire battle.

SORCERER CLASS FEATURES

GATHER POWER

GATHER POWER

EFFECT

Once initiative has been rolled and a battle is underway, a sorcerer can spend a standard action to gather magical power, preparing themselves for casting a double-strength spell with their next standard action. Gathering power is loud and very noticeable.

Sorcerers who want to gather power before initiative has been rolled can go through the motions but won't get any benefit from the act.

GATHER POWER

When a sorcerer gathers power, it does not count as casting a spell; you can gather power without taking opportunity attacks.

In addition, because you spend your standard action to gather power, you generate a small magical benefit. This benefit is chaotic rather than perfectly reliable, so you must make a random check to see what benefit you get. Roll a d6 and consult the appropriate table.

If you get a benefit that deals damage to enemies, you can choose the type of damage (cold, fire, lightning, or thunder).

SORCERER CLASS FEATURES

GATHER POWER

SPENDING POWER ON EMPOWERED CASTING

EFFECT

After you have gathered power, you can use your next standard action to cast an empowered sorcerer spell.

Empowered sorcerer spells deal double the damage of a normal sorcerer spell. This means that you double the damage results of the hit or a miss from the single spell. Non-attack spells generally don't improve when cast empowered; use empowered casting for attacks.

If you do not or are not able to use your next standard action to cast a sorcerer attack spell, you lose the power you've gathered. You can use another standard action to gather power again, but the spell you eventually cast will still only do double damage.

You can spend your move actions and quick actions any way you like after you gather power and before casting your next empowered spell.

ONGOING DAMAGE

If you've gathered power for a spell that deals ongoing damage, the ongoing damage is doubled the first time it is dealt, but not on subsequent rounds, if any.

SORCERER CLASS FEATURES

CHAIN

When you attack with a *chain* spell and get a natural even roll, you can roll another attack against a different enemy within range. Keep on rolling attacks as long as you get even rolls and don't run out of new targets. Each enemy can be targeted only once.

DANCING LIGHTS

You can cast the *dancing lights* spell as a standard action. The spell produces a number of varicolored light globes that bloom within 5 to 30 feet of the sorcerer every two to five seconds. The sorcerer has very little control over the exact location or illumination provided by the lights, meaning that they can occasionally be used for dramatic plot purposes.

RANDOM ENERGY

Some sorcerer spells deal damage of a random type. If it matters for the situation, use a d4 to determine which type of damage the spell deals.

BREATH WEAPON

Breath weapon spells add an extra wrinkle. Of course you can gather power the first time you cast a breath weapon spell in a battle.

Later in the fight it's a question of whether you gathered power the turn before a breath weapon spell roll goes your way. You can be all ready with gathered power but roll too low to use the breath weapon spell, forcing you to cast a different spell with the gathered power.

ADVENTURER FEAT

HERITAGE TALENT

Although magic is in the blood of every sorcerer, you have a greater understanding of magic than most sorcerers and even some wizards.

EFFECT

You gain a +2 bonus to a background that involves or suggests magical knowledge or talent, up to your normal maximum background point limit.

You can also use one of your sorcerer spell choices to choose any wizard spell of the same level. You get only one such equal-level wizard spell at a time; all others have to be purchased using the 2-level penalty in the Access to Wizardry class feature described on the corresponding card.

ADVENTURER FEAT

QUICK ACTION

EFFECT

Once per day, as a quick action when the escalation die is 1+, you can enter a spell frenzy until the end of the battle.

While in a spell frenzy, you roll 2 d20 for each of your sorcerer spell attacks. Use the highest die as your attack roll, but track whether the other die hits.

For each die that misses, you take damage equal to double the level of the target of your attack.

SORCERER SPELL PROGRESSION

SPELL PROGRESSION

- There are five spell levels: 1, 3, 5, 7, and 9. The levels correspond to the character level at which you gain access to those spells for the first time.
- You know all of the spells in the rulebook for your class.
- You have a certain number of “spell slots” you can use. The number of spell slots you have of each level is listed on the spell progression table. These numbers are NOT cumulative. You do lose your lower-level slots as you level up. You’re expected to put lower-level spells in higher-level slots.
- After a full heal-up, you fill up your spell slots with spells that you know. Any spell you know can be chosen (only once unless stated otherwise) to fill a slot of its level or a higher level.
- A spell’s effect is based on the level of the slot you put it in. The level of the slot you choose for a spell does not affect your attack rolls with that spell — in other words, you always add your level to your attack rolls, not the level of the spell.
- Unlike weapon attacks, spell damage does NOT improve just because you level up.
- You must actually put the spell in a higher-level slot to get the damage increase listed for the higher-level spell. The ability score modifier added to damage does increase to double at level 5 and to triple at level 8 even if you are casting a spell that happens to be lower level than 5th/8th, but that’s it (not including wizards). The feats you’ve taken for a spell apply to the spell regardless of the spell slot you choose for it.

SORCERER TALENT

UNDEAD RESISTANCE

HERITAGE TALENT

RESISTANCE

When an attack with a damage type you are resistant to targets you, the natural attack roll must equal or exceed your resistance number to deal full damage. If the roll is lower than your resistance, the attack deals half damage.

If you take *ongoing damage* of a type you resist, use the original attack roll to determine whether you take the full amount of ongoing damage or half the amount (rounded down).
