EFFECT

This spell provides you with an effective magical disguise that lasts about ten minutes, making the skill check to avoid unmasking one step easier: easy if it would have been a normal task, normal if it would have been a hard task, and hard if it would have been a ridiculously hard task.

The spell only affects your general appearance, not your size. It can be used to hide your features behind the generic features of another person or race.

You must have touched the person you wish to spy on in the last month.

Scrying as a single standard action won't yield much. Concentrating on the spell for a while with props like a scrying pool or a crystal ball will work better.

9th LEVEL SPELL

You must have touched the person you wish to spy on within the last a year.

WIZARD CANTRIPS

ALARM

STANDARD DURATION

The cantrip creates a minor watch-sprite that can be instructed to scream if someone comes through an area or touches an object. Watch-sprites are notoriously stupid and sleepy, but with the right talking-to they might stay focused for the duration of the spell.

At higher levels, the spell might summon little fanged spirits buzzing back and forth serving as both visual and actual deterrents.

ARCANE MARK

STANDARD DURATION

Difficult perception or magic check to notice

The cantrip creates a magical sigil on an object or person. These sigils are usually plain to see, though a deliberately invisible mark can be made.

It takes a difficult perception or magic check to notice.

WIZARD CANTRIPS

GHOST SOUND

DISTRACTION DC: 15 (adventurer), 20 (champion), 25 (epic)

Wisdom-based skill check against player characters

This spell creates false noises emanating from somewhere nearby. The effect is like an exceptionally good version of throwing your voice, if your voice could create a wide variety of sounds.

Attempted distractions with the cantrip are DC 15 challenges in adventurer environments, higher as you move into champion (DC 20) and epic (DC 25) environments.

If someone is using ghost sound against the PCs, a Wisdom-based skill check can identify the sound as a magical fake.

KNOCK

INTELLIGENCE CHECK VS. ENVIRONMENT'S DC

This cantrip summons a magical servitor three to four times as big as your closed fist that swarms around the door and attempts to punch or push it open (depending on whether you want to be quiet or announce your presence). Success is determined with an Intelligence check against the environment's DC using an appropriate magical background.

This cantrip does nothing to avoid any traps that might exist.

LIGHT

STANDARD DURATION

This cantrip creates a fairly wide and consistent field of light, up to 30 feet in diameter, though it isn't bright enough to dazzle.

WIZARD CANTRIPS

PRESTIDIGITATION

DURATION: ABOUT ONE MINUTE

This cantrip produces magic tricks and small illusions. One casting usually gives you a minute of fun. The magic has nowhere near as much real world force as *mage hand*.

SPARK

TARGET HAS TO BE NEARBY AND IN SIGHT

This is a minor fire creation spell, enough to light a pipe, or a campfire, or even a page or two of an unprotected spellbook. It doesn't work against living beings or against things that couldn't easily be set on fire with a few seconds of steady application of a candle. The target of the *spark* has to be nearby and in sight.

WIZARD CLASS FEATURES

CANTRIPS

See each individual cantrips card for more details.

Every wizard can cast a handful of cantrips each day. You don't have to memorize or choose them beforehand, you just cast them on the fly.

Wizards can cast a number of cantrips equal to their Intelligence modifier each battle. Each cantrip takes a standard action to cast as a ranged spell. Outside of battle, a wizard can cast about three to six cantrips every five minutes. The Cantrip Mastery talent speeds up cantrip casting.

STANDARD DURATION

Adventurer tier:	10–60 minutes, plus 10 minutes per wizard level
Champion tier:	1–6 hours
Epic tier:	2–12 hours

The GM rolls and the wizard becomes aware that their cantrip is about to end a couple minutes before it's done.

WIZARD CLASS FEATURE

RITUAL MAGIC

TO CAST A SPELL AS A RITUAL:

- Choose the spell that will be used and expended by the ritual.
- Tell the GM what you are trying to accomplish and gather necessary ingredients for the ritual.
- Spend 1d4 minutes, quarter-hours, or hours (as determined by the GM) preparing and casting the ritual. You can't cast other spells during this period. A PC taking damage won't necessarily end the ritual, but it will be ruined if a character falls unconscious or launches an attack of their own.
- Make a skill check using one of your magical backgrounds and the ability score the GM deems appropriate. Use the standard DC targets (or a special DC set by the GM), depending on your tier and the results you're hoping for. The higher the level of the spell consumed by the ritual, the greater the effect.

Wizard Cantrips

Cantrip

RANGED

STANDARD ACTION

Cantrip Mastery: quick action

You don't have to memorize or choose a cantrip beforehand, you just cast them on the fly.

You can cast a number of cantrips equal to your Intelligence modifier each battle, or about three to six cantrips every five minutes.

Cantrip Mastery: at-will

STANDARD DURATION

Adventurer tier:

10–60 minutes,
plus 10 minutes per wizard level

Champion tier:

1–6 hours

Epic tier:

2–12 hours

The GM rolls and the wizard becomes aware that their cantrip is about to end a couple minutes before it's done.

Wizard Cantrips

Mage Hand

DURATION: 1 ROUND

This cantrip creates a small telekinetic effect that lasts a round at most. At best it's about half as strong as the wizard's own strongest hand. At worst it's half as strong as the wizard when they're weak from a bad fever.

Mending

DURATION: 1–6 ROUNDS (might require Intelligence check)

This cantrip summons a variety of tiny (hand-sized and smaller) magical sprites who swarm over a chosen broken object attempting to mend it (over the course of 1–6 rounds).

Small-scale repairs like torn wineskins, muddy clothing, a broken handgrip on a sword, and similar repairs that anyone could fix with two to four hours of devoted work gets handled in seconds.

More elaborate repairs to complicated objects might require an Intelligence check, or at the GM's discretion could only be possible if the wizard has taken the *Cantrip Mastery* talent.

Wizard Class Feature

Ritual Casting Results

DETERMINING RESULTS

Choose outcomes that are outgrowths of the spell's normal effects. The effects don't have to play within the usual constraints of the magic system, and they don't have to be taken as a precedent for future rituals.

FAILURE SHOULD FAIL FORWARD

As usual, use the fail forward mechanic.

See page 42 and 192

RITUALS EXPEND THE SPELL

No matter the outcome, the spell is expended until your next full heal-up.

CHAMPION FEAT

LEARNED

You can cast full rituals by using all your actions each round to focus on the ritual for 1d3+1 rounds. As with standard rituals, your fast rituals are not meant to replace combat spells; they're a means of acquiring and improvising wondrous magical effects rather than a means of inflicting damage and conditions.

Wizard Class Features

Cyclic Spells

Spells that have a cyclic usage can always be cast at least once per battle, and are only expended in that battle if they are cast when the escalation die is 0 or odd. In other words, if you cast a cyclic spell like *color spray* or *rebuke* when the escalation die is even, the spell is not expended and can still be cast later in the battle.

Overworld Advantage

Wizardly magic taps into the power of the overworld. While a wizard is in the overworld, their daily spells become recharge 16+ after battle.

Ritual Magic

Wizards can cast their spells as rituals

see page 192

CHAMPION FEAT

CANTRIP MASTERY

TALENT

AT-WILL

Cantrips are at-will spells for you

Quick action to cast

EFFECT

Unlike normal wizards, who use a standard action to cast a *cantrip*, you can cast a *cantrip* as a quick action.

To do something particularly cunning or surprising with one of your *cantrips* where the GM isn't sure whether you could pull off that use of the spell, roll a normal save (11+) to cast the spell the way you envision it.

Additionally, you can expend a 3rd level spell slot or higher to choose one *cantrip* per spell slot you have given up and create a once-per-day related effect with it that is much greater, if you and your GM can agree on a cool effect that suits the *cantrip*.

Wizard Talent

EVOCATION

TALENT

ONCE PER BATTLE

Special: When you cast a spell that targets Physical Defense, before rolling for the number of targets or making the spell's attack roll, you can expend your quick action to *evoke* the spell.

Quick action to evoke the spell

EFFECT

Hit or miss, you'll max out the spell's damage dice. (Except on a natural one, which deals no damage to the target and likely *damages the caster* in some manner.)

CHAMPION FEAT

LEARNED

Whenever you evoke a spell, you can reroll one of the attack rolls if that natural roll was less than or equal to the escalation die. You must take the new result.

Wizard Talent

HIGH ARCANIA

You can choose any daily wizard spell twice.

MEMORIZATION

When you pick your spells, you can choose any daily wizard spell twice (instead of once). This doesn't apply to spells that start as recharge spells.

For example, at 7th level when you have five 7th level spells and four 5th level spells, you could choose *fireball* twice as a 7th level spell, or once as a 7th level spell and once as a 5th level spell; your 3rd level spell slot can't be used for *fireball* because *fireball* starts as a 5th level spell.

COUNTER-MAGIC

You gain a bonus spell: *Counter-magic*. (Use the corresponding talent spell card.)

INVISIBILITY SPELL ENHANCEMENT

The duration of the *Invisibility spell* out of combat is 1 hour instead of 5 minutes.

Wizard Talent

CANTRIP MASTERY

AT-WILL

ADVENTURER FEAT

LEARNED

You can use cantrip-style versions of any wizard spell you have memorized. When you expend a spell, however, you can't make cantrip-style use of it any more. The key is that none of these uses should be combat relevant or deal damage.

The Cantrip Mastery talent is more about enhance the roleplaying and less about combat usefulness.

To use this talent, you must use an additional quick action to cast your spell.

Rename each of your daily and recharge spells. Think up the most over-the-top and extravagant names you can muster. Since these alternate spells are so lengthy, they take an additional quick action to cast. While the regular effects of the spells are the same as the more common versions, they have a small bonus effect appropriate to the situation.

The bonus effect is determined by the GM, or by a collaboration between the GM and the player. It should add to the storytelling power of the situation.

The bonus effect should suit the name of the spell or the way it's delivered, and shouldn't precisely match up with what the spell normally accomplishes.

Wizard Spell Progression

SPELL PROGRESSION

- There are five spell levels: 1, 3, 5, 7, and 9. The levels correspond to the character level at which you gain access to those spells for the first time.
- You know all of the spells in the rulebook for your class.
- You have a certain number of “spell slots” you can use. The number of spell slots you have of each level is listed on the spell progression table. These numbers are NOT cumulative. You do lose your lower-level slots as you level up. You’re expected to put lower-level spells in higher-level slots.
- After a full heal-up, you fill up your spell slots with spells that you know. Any spell you know can be chosen (only once unless stated otherwise) to fill a slot of its level or a higher level.
- A spell’s effect is based on the level of the slot you put it in. The level of the slot you choose for a spell does not affect your attack rolls with that spell — in other words, you always add your level to your attack rolls, not the level of the spell.
- Unlike weapon attacks, spell damage does NOT improve just because you level up.
- You must actually put the spell in a higher-level slot to get the damage increase listed for the higher-level spell. The ability score modifier added to damage does increase to double at level 5 and to triple at level 8 even if you are casting a spell that happens to be lower level than 5th/8th, but that’s it (not including wizards). The feats you’ve taken for a spell apply to the spell regardless of the spell slot you choose for it.
