# RANGED SPELL DAILY Target: One nearby or far away creature Attack: Intelligence + Level vs. PD HIT 4 d 10 acid damage, and 5 ongoing acid damage. MISS 5 ongoing acid damage, and you regain the spell during your next quick rest.

Print on card-stock paper, and cut along the black crop marks (works best with a sharp utility knife or paper/photo trimmer). Fold at the grey dash line, and glue them back-to-back.

You can also laminate the cards using *laminating pouches* in A7 format (card size:  $74 \, \text{mm} \times 105 \, \text{mm}$ ). But then please use normal paper, and don't glue them, because this would kill your lamination!

# Wizard Spell Level I **CHARM PERSON** RANGED SPELL DAILY Target: One nearby creature with 40 hp or fewer Special: This spell cannot be cast during combat or on a target that has rolled initiative to fight. Attack: Intelligence + Level vs. MD The target believes you are their friend until you or your allies take hostile action against them. (Attacking their normal allies is okay.) If you or your allies attack the target or order the target to attack its normal allies, the target can

roll a normal save to break the charm effect during its turn each round.

Special: On a miss, the spell is not detectible by most others unless you miss by 4+ or roll a natural 1, in which case the target and its allies knows what you tried to do and will usually be angry about it.

# Wizard Spell Level I **COLOR SPRAY** CLOSE-QUARTERS SPELL CYCLIC Target: 1d4 nearby enemies in a group Attack: Intelligence + Level vs. MD 2d8 psychic damage, and if the target has 10hp or fewer after the damage, it is weakened until the end of your next turn. champion feat: miss damage equal to your level 4d6 psychic damage, 20 hp or fewer. 5th LEVEL SPELL LEARNED < 6 d8 psychic damage, 30 hp or fewer. 7th LEVEL SPELL LEARNED $10\,d6$ psychic damage, $40\,hp$ or fewer. CHAMPION FEAT On a miss, the spell deals damage equal to your level. The spell now targets 1d4+1 nearby enemies in a group. WEAKENED You take a -4 penalty to attacks and to defenses.

# Wizard Spell Level I **MAGIC MISSILE** REUSABLE SPELL AT-WILL You can re-use an at-will power freely. ADVENTURER FEAT You can choose two targets; roll half the damage dice for one missile and half the damage dice for the other,

targets.

then assign one set of damage dice to each of the two CHAMPION FEAT

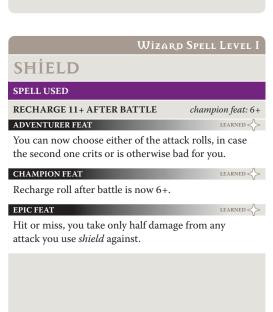

Roll a d20 when you use the spell; if you roll a natural 20, the magic missile crits and deals double damage. (Rolling a 1 is not a fumble; this roll checks only to see if you can crit.)

EPIC FEAT The  $7^{th}$  and  $9^{th}$  level versions of the spell now use d8s as damage dice.

## EFFECT

You can use this spell to get information you shouldn't be able to get, peering in on other people's lives for a short period of time, usually no more than ten minutes at a time. Some areas may be warded at the GM's discretion.

You must have touched the person you wish to spy on in the last month.

Scrying as a single standard action won't yield much. Concentrating on the spell for a while with props like a scrying pool or a crystal ball will work better.

## 9th LEVEL SPELI

LEARNED <

Wizard Cantrips

You must have touched the person you wish to spy on within the last a year.

Wizard Spell Level 7

# ALARM

# STANDARD DURATION

The cantrip creates a minor watch-sprite that can be instructed to scream if someone comes through an area or touches an object. Watch-sprites are notoriously stupid and sleepy, but with the right talking-to they might stay focused for the duration of the spell.

At higher levels, the spell might summon little fanged spirits buzzing back and forth serving as both visual and actual deterrents.

# **ARCATE MARK**

# STANDARD DURATION

# Difficult perception or magic check to notice

The cantrip creates a magical sigil on an object or person. These sigils are usually plain to see, though a deliberately invisible mark can be made.

It takes a difficult perception or magic check to notice.

# Wizard Cantrips

# GHOST SOUND

DISTRACTION DC: 15 (adventurer), 20 (champion), 25 (epic)

# Wisdom-based skill check against player characters

This spell creates false noises emanating from somewhere nearby. The effect is like an exceptionally good version of throwing your voice, if your voice could create a wide variety of sounds.

Attempted distractions with the cantrip are DC15 challenges in adventurer environments, higher as you move into champion (DC20) and epic (DC25) environments.

If someone is using ghost sound against the PCs, a Wisdom-based skill check can identify the sound as a magical fake.

# Wizard Cantrips

# КПОСК

# INTELLIGENCE CHECK VS. ENVIRONMENT'S DC

This cantrip summons a magical servitor three to four times as big as your closed fist that swarms around the door and attempts to punch or push it open (depending on whether you want to be quiet or announce your presence). Success is determined with an Intelligence check against the environment's DC using an appropriate magical background. This cantrip does nothing to avoid any traps that

might exist.

# LİGĦŤ

# STANDARD DURATION

This cantrip creates a fairly wide and consistent field of light, up to 30 feet in diameter, though it isn't bright enough to dazzle.

# Wizard Cantrips

# **MAGE HAND**

# **DURATION: 1 ROUND**

This cantrip creates a small telekinetic effect that lasts a round at most. At best it's about half as strong as the wizard's own strongest hand. At worst it's half as strong as the wizard when they're weak from a bad fever.

# **МЕП**ДІПС

DURATION: 1-6 ROUNDS (might require Intelligence check)

This cantrip summons a variety of tiny (hand-sized and smaller) magical sprites who swarm over a chosen broken object attempting to mend it (over the course of 1-6 rounds).

Small-scale repairs like torn wineskins, muddy clothing, a broken handgrip on a sword, and similar repairs that anyone could fix with two to four hours of devoted work gets handled in seconds.

More elaborate repairs to complicated objects might require an Intelligence check, or at the GM's discretion could only be possible if the wizard has taken the Cantrip Mastery talent.

# Wizard Cantrips

# **PRESTIDIGITATION**

# **DURATION: ABOUT ONE MINUTE**

This cantrip produces magic tricks and small illusions. One casting usually gives you a minute of fun. The magic has nowhere near as much real world force as mage hand.

# SPARK

# TARGET HAS TO BE NEARBY AND IN SIGHT

This is a minor fire creation spell, enough to light a pipe, or a campfire, or even a page or two of an unprotected spellbook. It doesn't work against living beings or against things that couldn't easily be set on fire with a few seconds of steady application of a candle. The target of the *spark* has to be nearby and in sight.

Cantrip Mastery: quick action

You don't have to memorize or choose a cantrip beforehand, you just cast them on the fly.

Cantrip Mastery: at-will

# STANDARD DURATION

Every wizard can cast a handful of cantrips each day. You don't have to memorize or choose them beforehand, you just cast them on the fly.

Wizards can cast a number of cantrips equal to their Intelligence modifier each battle. Each cantrip takes a standard action to cast as a ranged spell. Outside of battle, a wizard can cast about three to six cantrips every five minutes. The Cantrip Mastery talent speeds up cantrip casting.

# STANDARD DURATION

# RİTUAL MAGİC

# TO CAST A SPELL AS A RITUAL:

- Choose the spell that will be used and expended by the ritual.
- Tell the GM what you are trying to accomplish and gather necessary ingredients for the ritual.
- Spend 1d4 minutes, quarter-hours, or hours
   (as determined by the GM) preparing and casting
   the ritual. You can't cast other spells during this
   period. A PC taking damage won't necessarily end
   the ritual, but it will be ruined if a character falls
   unconscious or launches an attack of their own.
- Make a skill check using one of your magical backgrounds and the ability score the GM deems appropriate. Use the standard DC targets (or a special DC set by the GM), depending on your tier and the results you're hoping for. The higher the level of the spell consumed by the ritual, the greater the effect.

# Wizard Class Features

# CYCLIC SPELLS

Spells that have a cyclic usage can always be cast at least once per battle, and are only expended in that battle if they are cast when the escalation die is 0 or odd. In other words, if you cast a cyclic spell like *color spray* or *rebuke* when the escalation die is even, the spell is not expended and can still be cast later in the battle.

# OVERWORLD ADVATTAGE

Wizardly magic taps into the power of the overworld. While a wizard is in the overworld, their daily spells become recharge 16+ after battle.

# RITUAL MAGIC

Wizards can cast their spells as rituals

CHAMPION FEAT

# Wizard Class Feature

# RITUAL CASTING RESULTS

# DETERMINING RESULTS

Choose outcomes that are outgrowths of the spell's normal effects. The effects don't have to play within the usual constraints of the magic system, and they don't have to be taken as a precedent for future rituals.

To use this talent, you must use an additional quick action to cast your spell.

Rename each of your daily and recharge spells. Think up the most over-the-top and extravagant names you can muster. Since these alternate spells are so lengthy, they take an additional quick action to cast. While the regular effects of the spells are the same as the more common versions, they have a small bonus effect appropriate to the situation.

The bonus effect is determined by the GM, or by a collaboration between the GM and the player. It should add to the storytelling power of the situation.

The bonus effect should suit the name of the spell or the way it's delivered, and shouldn't precisely match up with what the spell normally accomplishes.

# Wizard Spell Progression

# SPELL PROGRESSION

- There are five spell levels: 1, 3, 5, 7, and 9. The levels correspond to the character level at which you gain access to those spells for the first time.
- You know all of the spells in the rulebook for your class.
- You have a certain number of "spell slots" you can use. The number of spell slots you have of each level is listed on the spell progression table. These numbers are NOT cumulative. You do lose your lower-level slots as you level up. You're expected to put lower-level spells in higher-level slots.
- After a full heal-up, you fill up your spell slots with spells that you know. Any spell you know can be chosen (only once unless stated oherwise) to fill a slot of its level or a higher level.
- A spell's effect is based on the level of the slot you put it in.
   The level of the slot you choose for a spell does not affect your attack rolls with that spell in other words, you always add your level to your attack rolls, not the level of the spell.
- Unlike weapon attacks, spell damage does NOT improve just because you level up.
- You must actually put the spell in a higher-level slot to get the damage increase listed for the higher-level spell. The ability score modifier added to damage does increase to double at level 5 and to triple at level 8 even if you are casting a spell that happens to be lower level than 5th/8th, but that's it (not including wizards). The feats you've taken for a spell apply to the spell regardless of the spell slot you choose for it.
