# EAST SIDE GAMERS

**MAKING GAMING BETTER EVERY YEAR**  
**DESIGN PAKS 1 - 8 - ZOMBIE PAK 1**

### #93 - KRUSHING KAMPAR

**Kampar, Malaya, January 1, 1942:** After being relentlessly pushed down the peninsula by the pursuing Japanese, the British finally had a chance to reorganize and built a defensive position around the village of Kampar. Lt. General Percival had staked much on the battalion's ability to hold the Japanese and deny them central Malaya. For three days, relentless Japanese attempts to outflank the defenders failed and losses mounted. Calling up fresh troops and armor, and with unopposed air support, the Japanese prepared one last thrust to crush the defenders.

### #94 - CHEWING GRISTLE

**Voronovo, Southeast of Leningrad, September 3, 1942:** The Leningrad area in '42-'43 was a bloodbath even greater than Stalingrad. Soviet troops were thrown into a meat grinder, as the Germans were quite proficient at mowing down large formations of enemy soldiers with the few resources available to them. Still the Russians did major damage and created a big salient in the German line southeast of Leningrad in an effort to relieve the besieged city. However, the Germans conducted offensive operations to pinch off this salient at its base, but became exhausted half way across. Now it was the Russians turn to chop off this salient within their salient.

### #95 - END AT ENIWETOK

**Eniwetok Island, February 20, 1944:** Eniwetok could not be secured on the first day of invasion. The Army units involved were just too cautious because of doctrine. The Marines were brought in to help capture the island. After a hellish night of shelling, friendly fire casualties, and Japanese infiltrations, the second day saw the Marines push the Japanese back into the eye of the hook-shaped islet.

### #96 - LINE BY LINE

**South of Rimini, Italy, September 12, 1944:** The Allies were wearing down the Germans in Northern Italy in a grueling battle of attrition across ridge lines. The British along the Adriatic coast were using their advantage in equipment to good effect. On September 12 they began an offensive to smash through Rimini and reach the Romagna Plain. After the hard fought capture of one ridge, there was always another behind it, all defended well. Tanks and infantry went in first, supported by armored recon and self-propelled artillery.

### #97 - FOOT IN THE DOOR

**Tongeren, Belgium, May 11, 1940:** The German blitzkrieg attempted, and for the most part succeeded, in isolating Belgian forces and preventing their retreat. Near Tongeren, the Germans cut the vital road the Belgians needed to escape encirclement. Realizing the danger the Belgians launched a determined counterattack with their best troops at the road, centered on a prominent sawmill building which had become an excellent location for the German artillery spotters. Capture of the sawmill could prevent frightful casualties caused by the shelling of their retreating columns.

### #98 - NO REST FOR THE ROMANIANS

**Falciu Bridgehead, Romania, July 12, 1941:** For five days the Russians had been hammering the Romanian offensive in the south. Stronger than expected resistance was causing horrendous casualties to the Romanian 4th Army, but progress was being made. Heavy fighting at Falciu to create a bridgehead across the Prut river had paid off, but 5th Corps had suffered huge casualties. With the village cleared and the bridgehead secured, troops were ferried across and the Romanian Guard *Vanatori* Regiment was ready to press the assault again. They were caught off guard when the massive Russian counterattack began. What happened next was 16 hours of the bloodiest fighting either side had yet seen.

### #99 - AN EVEN MATCH

**West of Luneville, France, September 16, 1944:** Having taken the little French village of Luneville two days earlier, 12th Corps paused for a much needed rest just west of the town, in a tree line just 200 yards away from Manteuffel's retreated army. In the early morning mist of the following day, the battle was again to erupt with both sides throwing equal amounts of men and machines into the fray, trying feverishly to gain a few more yards.

### #100 - HOLLIS OF THE HOWARDS

**Crepon', France, June 6, 1944:** The British 50th Division was originally a Territorial formation recruited from the northeast, bearing a distinctive "TT" on their divisional flash for Tyne-Tees. Having seen action in France, the Western Desert and Sicily, the TTs were a natural choice to lead the assault on Gold Beach. Its veteran assault units included the 6th Battalion "The Green Howards", tasked with attacking a battery at Mont Flueury and penetrating inland.

### #101 - BULLSEYE!

**Son, Holland, September 19, 1944:** Scheduled to be transported to the eastern front after completing a refit, Panzer Brigade 107 was instead sent to Holland due to the crisis created by Operation Market Garden. Tasked with "slicing off" the advance of XXX Corps, Major Freiherr von Maltzhan's armor, supported by Grenadier Reg. 1034, edged towards the Bailey bridge 1 kilometer east of the main canal bridge at Son.

### #102 - MORE PITCHERS THAN CATCHERS

**North of Korce, Greece, November 23, 1940:** Within a month of the invasion of Greece it became clear to the Italian Generals the they had bitten off more than they could chew. More troops were hastily called up in Italy and sent across the Adriatic. But in the meantime the Italian army groups had begun a general retreat, sometimes against orders, in an effort to husband their exhausted forces. The Greeks were mostly incapable of cutting off these retreating forces. However here and there a company or battalion would be surrounded and captured. Such was the case with portions of the Italian Julia Division.

A black and white photograph of a Japanese Type 95 Ha-Go light tank in a jungle setting. A soldier is visible in the turret, and the tank's tracks and front armor are prominent.

**AFTERMATH:** Kampar proved to be the strongest British defensive position in the Malayan campaign. Four days of heavy fighting had exhausted the Japanese and for a brief time, they considered re-treating. But by the 2nd of January, with their supply routes being threatened from the south, the British were forced to withdraw.

**Voronovo, Southeast of Leningrad, September 3, 1942:** The Leningrad area in '42-'43 was a bloodbath even greater than Stalingrad. The Russians lost over a million casualties in the sector. The Soviet troops were brave, but had little training and sub-standard leadership. They were thrown into a meat grinder, as the Germans were quite proficient at mowing down large formations of enemy soldiers with the few resources available to them. Still the Russians did major damage and created a big salient in the German line southeast of Leningrad in an effort to relieve the besieged city. However the Germans conducted offensive operations to pinch off this salient at its base, but became exhausted half way across. Now it was the Russians turn to chop off this salient within their salient.

**VICTORY CONDITIONS:** The Russian player wins at Game End if there are no Good Order German MMC on any hill hex and in 2 out of 4 multi-hex stone buildings on board 46

**BALANCE:** Russian - Exchange 1 T-26 for 1 T-70  
German - Exchange 2 4-6-7s for 2 4-6-8s

- 3) Germans may fortify 1 building location.
- 4) AFV crews may not voluntarily abandon vehicles

**AFTERMATH:** The Germans were forced back into the small villages in the area. The Russians unimaginatively heaved troops at them, whatever the casualties. The Germans barely held on. Afterward they wondered to themselves if there would soon be more of the same.

**Eniwetok Island, February 20, 1944:** Eniwetok could not be secured on the first day of invasion. The Army units involved were just too cautious because of doctrine. The Marines were brought in to help capture the island. After a hellish night of shelling, friendly fire casualties, and Japanese infiltrations, the second day saw the Marines push the Japanese back into the eye of the hook-shaped islet.

**VICTORY CONDITIONS:** The American player wins immediately upon controlling the supply dump (hex 37 T10).

**BALANCE: American** - Add 1 FT to OB

**Japanese** - Raise SAN to 4 and add 1 LMG to OB

### SPECIAL RULES:

- 1) EC are Moist with no wind at start. Kindling is NA. PTO rules are in effect including Light Jungle (G 2.1). 34 V5 is a wooden footbridge (B 6.44).
- 2) Hex 37 T10 is the Supply Dump. All Shellhole rules apply.
- 3) At Game End, all Melees are continued until resolved.

**AFTERMATH:** On the "club head" of Eniwetok the Japanese did not have time to construct prepared defenses as they fell back. Determined to fight on, they hastily dumped caches of supplies and these formed focal points of their final defense. As the Marines met increasing resistance they requested tanks. They were not available. So the Marines relied on their excellent small unit training to snuff out the last few nests of Japanese hold outs on the southernly rim of the island. Virtually every one of the 808 Japanese defenders of Eniwetok were killed.

**AFTERMATH:** The Germans had armor of their own, including tough to kill tank destroyers. However they relied mostly on their LATW. The British crested each hill and pounded the next with their tanks and SPA guns. Then the Tommies moved forward. German leadership was suffering from attrition and they were forced to fall back over and over. Eventually the British broke through... only to find new "river lines" to be breached.

**Tongeren, Belgium, May 11, 1940:** The German blitzkrieg attempted, and for the most part succeeded, in isolating Belgian forces and preventing their retreat. Near Tongeren, the Germans cut the vital road the Belgians needed to escape encirclement. Realizing the danger the Belgians launched a determined counterattack with their best troops at the road, centered on a prominent sawmill building which had become an excellent location for the German artillery spotters. Capture of the sawmill could prevent frightful casualties caused by the shelling of their retreating columns.

**VICTORY CONDITIONS:** The Belgian player wins at Game End if they control building C E4.

**BALANCE:** Belgian - Exchange 7-0 leader for an 8-1  
German - Exchange 2 4-6-7 squads for 2 4-6-8's

## SPECIAL RULES:

- 1) EC are moderate with no wind at start.
- 2) All buildings are ground level only. Building C E4 is a 2 level Factory (B 23.74) with Factory Rooftops (B 23.8).
- 3) German ordnance may set up emplaced and concealed on paved roads.
- 4) At Game End, all melees continue until resolved.

**AFTERMATH:** The Belgians were fiercely motivated and threw themselves at the complex with fury. Bullets slammed into splintering lumber, and mortars chopped up hedges. An AA gun half buried at the side of the road caught a platoon off guard and sent bloody arms and legs flying. After muscling their way to the sawmill, one brave squad set a demolition there, rubbing one section and ending German resistance.

**AFTERMATH:** The Battle for the Falcu Bridgehead, by all accounts, was a gruesome affair. The Red Army had thrown everything they had into the battle but the drain of men and machines proved to be great. The Romanians, under enormous pressure, managed to hold but at a cost of some six thousand men. The battle to regain their territory was just foreshadowing the troubles the Romanian army was going to have with the Russians in this war.

**West of Luneville, France, September 16, 1944:** Having taken the little French village of Luneville two days earlier, 12th Corps paused for a much needed rest just west of the town, in a tree line just 200 yards away from Manteuffel's retreated army. In the early morning mist of the following day, the battle was again to erupt with both sides throwing equal amounts of men and machines into the fray, trying feverishly to gain a few more yards.

**VICTORY CONDITIONS:** The player with the most EVP at Game End wins (Germans off the West edge; Americans off the East edge). Ties go to the Germans.

**BALANCE:**

**American** - Exchange a 9-1 leader for a 9-2 and add 1 BAZ 44 to OB

**Germans** - Exchange any 3 4-6-7s for 4-6-8s

**GERMANS set up first • AMERICANS set up second**

2) During set up, all units including AFV's, of both sides, may set up concealed, even in Open Ground.

3) On the first turn, a dr is made to determine which side moves first: Even = Americans, Odd = Germans.

**AFTERMATH:** With both sides almost equally matched the battle proved to be only carnage. Heavy losses were the order of the day for both sides. Only élan and single minded bravery would make the difference. In this far flung corner of the western front, so far from the “real battles” taking place far to the north, the infantry men on both sides wondered what really was gained from their loss.

**Crepon', France, June 6, 1944:** The British 50th Division was originally a Territorial formation recruited from the northeast, bearing a distinctive "TT" on their divisional flash for Tyne-Tees. Having seen action in France, the Western Desert and Sicily, the TTs were a natural choice to lead the assault on Gold Beach. Its veteran assault units included the 6th Battalion "The Green Howards", tasked with attacking a battery at Mont Fluery and penetrating inland.

**VICTORY CONDITIONS:** The British win immediately at the end of any Game Turn by possessing or eliminating the German INF gun, granted there are no Good Order German MMC in any 4 of the 5 stone buildings. Germans win by avoiding the British VCs.

**BALANCE:** German - Add 1 Fortified Building location to OB  
British - Remove 1 Wire from German OB

x3

## SPECIAL RULES:

- 1) EC are Moist with a mild breeze from the West at start. Kindling is NA. Place overlay X12 on F7-F8.
- 2) German INF gun sets up concealed on board, and may be Emplaced. All Trenches and Wire must set up on board.
- 3) German Reserves enter one squad, each turn indicated.
- 4) German and British ordnance are considered Elite for Ammunition Depletion purposes (C8.2).

**AFTERMATH:** Company Sergeant Major Stan Hollis and The Green Howards hit Gold Beach on D-Day as planned. After charging and eliminating a pesky machine gun nest, Hollis discovered the battery on Mont Fluery already beaten into submission by the pre-landing bombardment. D Company then advanced inland to Crepon', where an assault on a concealed German infantry gun left two Bren gunners wounded and exposed. Despite a wound to the face, Hollis rescued his comrades and earned the only VC awarded for Valor on D-Day.

**Son, Holland, September 19, 1944:** Scheduled to be transported to the eastern front after completing a refit, Panzer Brigade 107 was instead sent to Holland due to the crisis created by Operation Market Garden. Tasked with "slicing off" the advance of XXX Corps, Major Freiherr von Maltzhan's armor, supported by Grenadier Reg. 1034, edged towards the Bailey bridge 1 kilometer east of the main canal bridge at Son.

**VICTORY CONDITIONS:** The Germans win at the end of any game turn they have 2 or more non-broken, non-crew MMC on the bridge and/or the North side of the canal.

**BALANCE:**

**American** - Add 1 7-4-7 to OB

**Germans** - Replace 9-1 leader with a 9-2

	23
38	

**N**

Only hexrows A-P on board 23 and R-GG on board 38 are playable.

GERMANS set up first • AMERICANS move first

									x2		

**SPECIAL RULES:**

- 1) EC are Moist with no wind at start. Kindling is NA.
- 2) Ground conditions are soft (D 8.21), with all AFV's paying an additional MP for each non-road hex side crossed.
- 3) Place overlays as followed: **B1** 23 F2, **B2** 23 G3-4, **OG1** 38 AA1. Building 23 E3 has ground and 1st levels only, w/inherent stairwells (B 23.22). Hex 23 F3 has a 2nd level Steeple (B 31.2).
- 4) The river on board 23 is impassible except via hex 23 H4 which contains a Pontoon bridge (B 6.41). Bridge 23 P7 does not exist.
- 5) The Americans may set up one MMC and any SMC/SW stacked with them HIP. Jeeps may not be scrounged.
- 6) The German StuG III G (L) is equipped with schuzeren.
- 7) German and American ordnance are considered Elite for Ammunition Depletion purposes (C8.2).

**AFTERMATH:** The attack made solid progress initially as the German armor fired round after round into the buildings containing the Americans command post. Crossing the canal would be another story. As the Panther reached the tow path leading to the Bailey bridge it was knocked out by a lucky shot from an American 57L anti tank gun just recently brought up by a supporting infantry battalion. Bazooka fire flamed another AFV and separated the German infantry from their tank support. Now pinned down on the east side of the canal, the grenadiers disengaged as darkness fell.

**North of Korce, Greece, November 23, 1940:** Within a month of the invasion of Greece it became clear to the Italian Generals they had bitten off more than they could chew. More troops were hastily called up in Italy and sent across the Adriatic. But in the meantime the Italian army groups had begun a general retreat, sometimes against orders, in an effort to husband their exhausted forces. The Greeks were mostly incapable of cutting off these retreating forces. However here and there a company or battalion would be surrounded and captured. Such was the case with portions of the Italian Julia Division.

**VICTORY CONDITIONS:** The Greek player wins at Game End if they can fire on road 58 GG5-EE6, 61 P6 with an 8 FP IFT attack (point blank N/A). The Italian player wins by avoiding the Greek VC or immediately upon exiting 10 EVP off hex 61 P6.

**BALANCE:** **Italians** - Exchange 3 3-4-6s for 3 4-3-7s  
**Greeks** - Add 1 4-3-7 squad to OB

**N**  
Only hexrows A-P on board 61 and hexrows R-GG on board 58 are playable

**ITALIANS set up first • GREEKS move first**

**Remnants of the Julia Alpine Division** set up on road hexes 58 FF5, EE5, EE6 and DD6:

**(ELR 3) (SAN 3)**

3-4-6	2-2-7	8-1	7-0	6+1	2-5	65*	M10	TL 37
x11								**

**Elements of TSDM, 9th Infantry Division** enter on Turn 1 or any Turns thereafter on the North or West edge(s):

**(ELR 3) (SAN 3)**

G	Cr			(it)
4-3-7	1-2-7	8-0	7-0	MTR
x6	x2			45*2-13

## SPECIAL RULES:

- 1) EC are Moderate with no wind at start. Kindling is NA.
- 2) Italian INF gun must start game in Tow (C 10.1).
- 3) Greeks do not suffer captured weapons penalties for the Italian MTR's. Only crews may fire these MTR's.

**AFTERMATH:** Not enough Greek troops were able to get behind the Italians. The gaps in the Italian rear could not be plugged, and into these holes soldiers poured. Lacking heavy weapons, the Greeks were forced to use captured Italian equipment, which very few of them were trained to use. And so the bulk of the Italian army escaped into Albania to be met by reinforcements that finally stopped the Greek counterattack.
