QUICK START FOUIPMENT MENU

for ASTONISHING SWORDSMEN & SORCERERS OF HYPERBOREA™

By Ben Ball

This document is intended to help speed the purchase of equipment for beginning characters in Astonishing Swordsmen \mathcal{C} Sorcerers of HyperboreaTM. The player rolls for starting money as usual ($3d6 \times 10$ gp) and then chooses packs from the menu as desired and according to the needs of a particular character class. Guidance is provided as to which classes might find a particular pack useful. Money not spent on packs can be spent on other equipment from the rulebook as usual. Following the packs are lists of **Gimmicks** (cheap items that could have creative uses) and **Big Ticket Items** (expensive purchases that help soak up excess gold) which can aid in outfitting a character. At the end of the menu, premade starting lists (valued at roughly 110 gp each) are given for every class and subclass; players can take these and begin adventuring immediately.
