

1 Choose a playbook. Playbooks represents the PC's reputation in the underworld, their **special abilities**, and how they advance.

2 Choose a root. Detail your choice with a notes regarding a more in-depth explanation. *For example, Tipper, now hiding from the law, finding sanctuary with other Glitches.*

3 Choose a background. Detail your choice with your specific history. *For example, Labor: canary who manually moves the low-tech solar panels, quit – couldn't make a decent living.*

4 Assign three action dots. No action may begin with a **rating** higher than **2** during character creation. *(After creation, action ratings may advance up to 3. When you unlock the Mastery advance for your crew, you can advance actions up to rating 4.)*

5 Assign one action dot for cybernetics. Connect your **cybernetics** with a sense of the PC's purpose. Why are they a Glitch? What's the story behind their cybernetic enhancement(s)?

6 Choose a special ability. They're in the column in the middle of the character sheet. If you can't decide, choose the first **ability** on the list. It's placed there as a good first option.

7 Choose a close friend and a rival. Mark the one who is a close friend, long-time ally, family relation, or lover (the upward-pointing triangle). Mark one who is a rival, enemy, scorned lover, betrayed partner, etc. (the downward-pointing triangle). Briefly detail these relationships.

8 Choose your vice. Pick your preferred type of **vice**, detail it with a short description, and indicate the name and location of your **vice** purveyor

9 Record your name, pronouns, alias, and look. Choose a name, an alias (if you use one), and jot down a few words to describe your look. Examples are provided on the preceding page.

LOADOUT

Players have access to all of the **items** on their PC's character sheet; how many **items** they can use on a **score** depends on their **load**. Each player decides their PC's **load** at the start of a score. During the **score**, a player can say their PC has an **item** on hand by checking the **item's** box—up to a number of items equal to the chosen **load**.

⊙ **1-3 LOAD: Light.** You're faster, less conspicuous; you blend in with citizens.

⊙ **4/5 LOAD: Normal.** You look like you're packing, ready for trouble.

⊙ **6 LOAD: Heavy.** You're slower. You look like an operative on a mission.

⊙ **7-9 LOAD: Encumbered.** You're overburdened and can't do anything except move very slowly.

Some **special abilities** (like the Cleaner crew's Rigging) increase the **load** limits.

Some items count as two items for **load** (they have two connected boxes). *Items in italics don't count toward your load.*

Items in bold on a playbook automatically add +1 HEAT when used. They leave residue, draw more attention, or are simply more easily traceable. They're more powerful, but come at a cost.

You don't need to select specific items now. You choose items as you need them during scores.

LENS

A RESILIENT TRACKER AND SNIPER

SPECIAL ABILITIES

- **Deadeye:** You can **push yourself** to do one of the following: *make a ranged attack at an extreme distance beyond what's normal for the weapon—use the environment to attempt a trick shot without penalty.*
- **Focused:** You may expend your **special armor** to resist a consequence of surprise or mental **harm** (fear, confusion, losing track of someone), or to **push yourself** for ranged combat or tracking.
- **Hunter Drone:** Your drone is specially engineered. It gains **potency** when tracking a target and gains a new module: *camouflaged, contact lens-linked, or breakneck speed.* Take this ability again to choose an additional drone module.
- **Scout:** When you **gather info** to locate a target, you get **+1 effect**. When you hide in a prepared position or use camouflage, take **+1d** to rolls avoiding detection.
- **Perseverance:** From hard won experience or custom tech, you can subsist in areas otherwise uninhabitable. You only take **trauma** when you take **stress** beyond your last **stress box**, not when you fill it.
- **Tough As Nails:** Penalties from **harm** are one level less severe (though level 4 **harm** is still fatal).
- **Systemic Relocation:** When you use a long-range weapon from cover to **Trace** a target on the same **scale** as you, add your **Wreck** skill. If it is on a larger scale than you, also take **+1effect**.
- **Veteran:** Choose a special ability from another source.

STANDARD ITEMS

A BLADE OR TWO: You have a simple fighting knife. Swords, a kiridashi, a skeleton knife, a neck knife, hunting knife, kunai, karambit, or a heavy butcher's cleaver. [1 LOAD]

AN IMPROVISED WEAPON: There will always be something around you can use as a weapon. Could be a rope, a shovel, a length of chain, steel-toed boots. Something plausibly around you. [1 LOAD]

A LARGE WEAPON: A weapon meant to be held in two hands: rifles, compound bows, assault rifles, shotguns, machine guns. [2 LOAD]

DISPOSABLE PISTOLS: Generally printed and extremely low quality. They're made to shoot a round or two reliably before breaking or jamming. On the upside, they are so commonplace they are near impossible to trace—especially after they're broken into components. [1 LOAD]

RELOAD: This applies to any powered weapon. When your weapon jams or runs empty, a reload costs you 1 JOULE and 1 load. [1 LOAD]

EWD: Early Warning Devices are hooked into Shelter 1's technology that alerts citizens to get somewhere safe when an Act of God is near their vicinity. Without wearing one, you probably won't know when one is going to hit. [1 LOAD]

SCREEN: Used when you are caught out in the sun, or need to move through sunlight without cover. Good for about a day. When injected, it creates a purple-ish film over the user's skin. [1 LOAD]

OBSCURES: Commonly used by many in the Green Zone, they conceal the upper portion of a face, and are generally made in a variety of styles—from different contours of the face, to eye colors, and facial expression changes. [0 LOAD]

A RECHARGE: Spend 2 load and 1 JOULE to use a Recharge. You may spend 1 JOULE for every additional recovery roll from the Recharge; essentially increasing the cocktail's quality. But if you roll a 1 JOULE on any die, you take an additional level 1 harm "nanoshock," which must be healed by someone who can interface with your nanites and repair them, such as a street-doc. [2 LOAD]

ARMOR: is typically bullet-proof woven fabric in whatever clothing you are wearing. It is discreet, so the wearer won't be identified as part of the underworld. It can take one hit. [2 LOAD]

•HEAVY: In addition to armor, you can have additional bullet proof wear that is not discreet. This is tactical gear, typically military grade, which covers every inch of you without obstructing your movements. [1 LOAD in addition to the 2 LOAD of normal armor]

INFILTRATION GEAR: A set of cryptolock-picks. A pry-bar, technology that helps bypass security measures like glass, infrared detection, noise, etc. [1 LOAD]

HACKING GEAR / INTERFACE: An interface such as a laptop or tablet loaded with pertinent software and necessary cables and connectors. It can look like whatever you please, fitting your specific technology preferences. [1 LOAD]

SPECIALIZED TECH: Advances in technology were primarily to take on Acts of God, so you can assume there is something out there to combat any severe weather—even if it is untested experimental technology. [1 LOAD]

SUBTERFUGE SUPPLIES: A reasonable makeup kit. Some smart-paper ready to be forged. Fake jewelry. Alterations to your clothing that can change your look. [1 LOAD]

PORTABLE LIGHT SOURCE: Any reasonable tech that can project light into an area. It is handsfree and will navigate to where you want it, with a screen with which to view it. [1 LOAD]

DEMOLITION TOOLS: A sledgehammer or drill; shaped charges, or some other kind of explosives. [2 LOAD]

MODIFICATION TOOLS: Reasonable things you'd need to fix or modify the components of something you're working on. Soldering or welding tools, screwdrivers, a wrench, etc. [1 LOAD]

COMMUNICATIONS: Your crew has technology that allows everyone to communicate across distance. [0 LOAD]

EDGE ITEMS

FINE HAND WEAPON: A finely crafted one-handed melee weapon of your choice. *Is it perfectly weighted just for you? Is the weapon of your own make and specifications, and more exotic and improved compared to a standard blade or two?* [1 LOAD]

FINE HEAVY WEAPON: A finely crafted two-handed melee weapon of your choice. *Is this a sword, katana, great blade, or something else customized for you?* [2 LOAD]

AIR-BURST AMMO: Allow for your next couple shots aimed at a specific enemy to be special ammo with a small explosive that goes off just before reaching the target. *Every time you use this ammo, take +1 Heat immediately.* [1 LOAD]

FINE SUNJET: A finely crafted Sunjet capable of slicing through most armor. *Every time you use this ammo, take +1 Heat immediately* [1 LOAD]

FINE CQC TRAINING: Extremely good close-quarters-combat training. [0 LOAD]

FAINT ITEMS

LUXURY ITEM: An open ended item; whatever you need to bolster the persona you're embodying. Alcohol, water, tea, spices, chocolate, etc. [0-3 LOAD]

CONCEALED PALM PISTOL: A small firearm with a weak charge, easily concealed in a sleeve or waistcoat; it can easily accommodate a sleeper round, for instance. [1 LOAD]

SLEEPER ROUND: One customized round that fits into a gun, but is not a bullet; it injects a compound that rapidly puts the target to sleep for about an hour. [1 LOAD]

BLUEPRINTS/DOCUMENTS: A smart-paper folio of useful architectural drawings and city plans or forged documents that could pass a cursory inspection. [0 LOAD]

FINE COVER IDENTITY: Documentation, planted stories, rumors, and false relationships sufficient to pass as a different person. However, it does not change the signature of your nanites (which identify you as a Glitch, off the grid). [0 LOAD]

FUSE ITEMS

FINE CAMO WEAR: Whatever you're wearing has properties that make it blend in with your surroundings, helping you stay unseen and unnoticed. [1 LOAD]

FINE DISGUISE KIT: You've assembled a few things to help alter your appearance; special makeup, props that change your gait, tailored clothes, etc. [1 LOAD]

MUTING TECH: A small device that may be attached to a piece of clothing to completely remove all sound that comes from it for about 30 minutes per charge. [1 LOAD]

TWO FINE BLADES: Two blades, defined by you, crafted specifically for you. *In what way are they different than other blades?* [1 LOAD]

FINE CRYPTOLOCK-PICKS: Cryptolock-picks are dummy keys used to hack code and gain access to restricted spaces. [0 LOAD]

HAUNT ITEMS

CUSTOM FLICKER WEAR: Personal wear that is laced or accented with Flicker wear that allows you to become temporarily invisible. [1 LOAD]

A CERAMIC BLADE OR TWO: More savvy places have tech and people who check for weapons and blades, but a ceramic ones usually pass scrutiny. [1 LOAD]

FINE HACKING GEAR: This kind of gear is highly illegal and generally put together by the user. [1 LOAD]

MOISTWARE: Used to transfer all forms of data but is only readable with infused water coded to a specific temperature and chemical makeup (such as tea). [1 LOAD]

CUSTOMIZED NANITES: You've further hacked your nanites. While most Glitches can only go off the grid, you can put yourself back on to appear like a legitimate citizen. [0 LOAD]

AUGMENTED REALITY HEADSET: Allows you to visualize data in a cyberspace environment of your choosing. *This is Haunt technology. What does cyberspace look like, what do you look like in it? This grants more effect on Survey and Study rolls, when applicable (searching for information while Hacking, for instance).* [0 LOAD]

LENS ITEMS

FINELY CRAFTED HANDGUN: More accurate and made with better materials than a disposable pistol, this handgun is better quality [1 LOAD]

PERISH AMMO: Black market, military tech. Once embedded into something organic, the bullet breaks down into a rapid-acting enzyme which dissolves all living matter into carbon particulates. *Every time you use this ammo, take +1 Heat immediately.* [1 LOAD]

FINE LONG RANGE RIFLE: Highly accurate, telescopic sight that allows for long-distance vision. *Did you assemble the pieces of it yourself, or did a fine crafter of arms make it for you?* [2 LOAD]

CUSTOM DRONE: Your drone is controlled by you and anticipates your actions. *Cohort: Hunter. What does your drone look like? Did you name it? How intelligent is it?* [1 LOAD]

FINE SCOPE: Highly accurate, telescopic sight that allows for long-distance vision. *Collapsible. Attaches to a rifle. Gives more effect.* [0 LOAD]

QUIRK ITEMS

FINE DRYWARE SUIT: When your face is covered by the suit, it acts as a rebreather (30 minute max). *When combating an Act of God, you may have increased effect.* [2 LOAD]

FINE TEAR TRAIL HELMET: This site is fitted with technology that can detect traces of moisture, *Detects anything with water and moisture, feeding back how much and where. Can show lifeforms, detect poisons, and other substances, etc.* [1 LOAD]

DIFFUSION ROUNDS: Military tech that rapidly breaks down organic matter and converts it into water. Originally used on various types of Acts of God to render them less effective. *Every time you use this ammo, take +1 Heat immediately.* [1 LOAD]

FINE WATER KNIFE: The knife itself is composed of an unknown substance that disables nanotech, while also preserving the short-term memory stored by the nanites in the blood stream. *The nanites stop transmitting their location and stop regenerating the body for approximately 48 hours.* [1 LOAD]

MOISTWARE: Used to transfer all forms of data but is only readable with infused water coded to a specific temperature and chemical makeup (such as tea). [1 LOAD]

GATEWAY MAP: When people leave Shelter 1, they are scanned and tagged by Sentinels. With the Green Zone already taking on too many climate refugees, it becomes increasingly hard to enter, especially with these tags. This gateway map provides you a path circumventing the Sentinel check. *What route have you unearthed or been given?* [1 LOAD]

TORQUE ITEMS

MAG PISTOL: Uses different technology than most weapons. Leverages powerful magnets to fire an almost completely silent projectile. [1 LOAD]

FINE MODIFICATION TOOLS: Modification tools of better make and quality than normal. *Did you Modify them yourself?* [1 LOAD]

FINE DEMOLITION TOOLS: A sledgehammer or drill, shaped charges, or some other kind of explosives. [2 LOAD]

MEDICAL SUPPLIES: Injectors, syringes, gauze, or smart, near future tech used for injuries. *Gives you more effect or +1d on healing treatment rolls, as the GM judges.* [1 LOAD]

SPARE PARTS: Data cables, chip-boards, pieces of metal and scrap. Whatever you reasonably need to repair something damaged. *Gives you more effect when crafting, as the GM judges.* [1 LOAD]

EMP GRENADE: A grenade built to disrupt or damage electronic equipment in the immediate vicinity. [1 LOAD]

ON MULTIPLE PLAYBOOKS:

MULTI-SPECTRUM CONTACTS/GOGGLES/ SHADES: They come with a built in low-tech range of spectral bands available (infrared, night vision). Grants more effect on **SURVEY** and **STUDY** rolls. **Fine quality** expands the spectrum beyond the limitations of just infrared and night vision. [0 LOAD]

CREW CREATION/COHORTS

1 Choose a crew type. The crew type determines the PCs' collective purpose, their special abilities, and how they advance.

The crew begins at **Tier 0**, with strong hold and **0 REP**, and starts with **2 Joules**.

2 Choose an initial reputation and **BASE**. Choose how other underworld factions see the crew: *Ambitious—Brutal—Daring—Honorable—Professional—Savvy—Subtle—Strange*. Look at the map and pick a spot for the crew's base. Describe the **base**.

3 Establish your hunting grounds. Pick an area on the map for the crew's **hunting grounds**. Decide how to deal with the **faction** that **claims** that area.

⊙ **Pay them 1 Joule**.

⊙ **Pay them 2 Joules**. Get +1 status.

⊙ **Pay nothing**. Get -1 status.

4 Choose a special ability. In addition to the **starting ability** the crew already has at the very top of the middle column of the sheet, choose a **special ability**. If players can't decide, they should choose the one listed below the **starting ability** on the list. It's there as a good first option.

5 Assign crew upgrades. The crew has two **upgrades** pre-selected. Choose two more. If the crew has a **cohort**, create them using the cohort creation procedure. Write down the following **faction status** changes as a result of the crew's **upgrades**:

⊙ **One faction helped you get an upgrade**. Take +1 status with them. Or spend **1 Joule** for +2 status instead.

⊙ **One faction was harmed when you got an upgrade**. Take -2 status with them. Or spend **1 Joule** for -1 status instead.

6 Choose a favorite contact. Mark the one who is a close friend, long-time ally, or partner in crime. Write down the following **faction status** changes related to your **contact**:

⊙ **One faction is friendly with your contact**. Take +1 status with them.

⊙ **One faction is unfriendly with your contact**. Take -1 status with them.

The players can choose to increase the intensity of the factions' relationship with the **contact** and take +2 and -2 status, instead.

COHORTS

A **cohort** is a **gang** or an **expert** who works for your crew. To recruit a new cohort, spend **two upgrades** and create them using the process below.

CREATING A GANG

Choose a **gang type** from the list below:

⊙ **BOOSTERS**: Killers, brawlers, and enforcers.

⊙ **MONITORS**: (Street) doctors, hackers, scientists, and mechanics.

⊙ **BOOKS**: Con artists, spies, private investigators, and fixers.

⊙ **ROVERS**: Getaway drivers, sourcers, and scavengers.

⊙ **RUNNERS**: Lookouts, infiltrators, data couriers, and thieves.

A gang has **scale** and **quality** equal to your current crew **Tier**. It increases in **scale** and **quality** when your crew moves up in **Tier**.

CREATING AN EXPERT

Record the expert's **type** (their specific area of expertise). They might be a *Doctor*, an *Investigator*, a *thief*, a *killer*, a *Spy*, etc.

An expert has **quality** equal to your current crew **Tier +1**. Their **scale** is always zero (1 person). Your experts increase in **quality** when your crew moves up in **Tier**.

EDGES & FLAWS

When you create a **COHORT**, give them one or two **edges** and an equal number of **flaws**. Talk with the GM about creating your own if these don't fit exactly what you're going for. Occasionally there will be an NPC in the fiction for some time that becomes a **COHORT** and the definitions may not conform to what's established.

Edges

⊙ **FEARSOME**: The cohort is terrifying in aspect and reputation.

⊙ **INDEPENDENT**: The cohort can be trusted to make good decisions and act on their own initiative in the absence of direct orders.

⊙ **LOYAL**: The cohort can't be bribed or turned against you.

⊙ **TENACIOUS**: The cohort won't be deterred from a task.

Flaws

⊙ **PRINCIPLED**: The cohort has an ethic or values that it won't betray.

⊙ **SAVAGE**: The cohort is excessively violent and cruel.

⊙ **UNRELIABLE**: The cohort isn't always available, due to other obligations, stupefaction from their vices, etc.

⊙ **WILD**: The cohort is drunken, debauched, and loud-mouthed.

MODIFYING A COHORT

You can add an **additional type** to a **gang** or **expert** by spending two **crew upgrades**. When a **COHORT** performs actions for which its types apply, it uses its full **quality rating**. Otherwise, its **quality** is zero. A given **COHORT** can have up to two **types**.

FUEL

Airships need **fuel**. Comets start out with **2 fuel**. Each downtime a crew of Comets consumes **1 fuel** (2 if it has the costly **flaw**) to keep it operational. They get more **fuel** with their **special ability** *Solarpunk*, detailed on page 124.

Depending on fictional circumstances, a GM might apply this need for **fuel** to other situations. It is assumed airships use different **fuel** than other methods of transportation; a more costly upkeep is applied to air travel than other vehicles.

SPECIAL ABILITIES

Military Grade: You have devised tech to destroy Acts of God. Take **3 stress** to use this tech to destroy an Act of God after overcoming it as an obstacle.

- **Lethal:** Each PC may add **+1 action rating** to **Trace**, **Ghost** or **Combat** (up to a max rating of 3).
- **Back Door:** Your activities are hidden from the notice of corporate law. You don't take extra **heat** when killing is involved on a **score**.
- **No Trace:** When you keep an operation quiet or make it look like an accident, you get half the **rep** value of the target (round up) instead of **0**. When you end **downtime** with **0 heat**, take **+1 rep**.
- **Patron:** When you advance your **Tier**, it costs half the Joules it normally would. *Who is your patron? Why do they help you?*
- **Predators:** When you use stealth or subterfuge to commit murder, take **+1d** to the **engagement roll**.
- **Underground Haven:** You have a home away from home: a nightclub, vice den, or similar. It has the same **qualities** as your **base**. When you **gather information** in your haven, you get **+1 result level**.
- **Loyal To A Fault:** When a crew member **Controls** a **cohort** in **combat**, they continue to fight when they would otherwise break (they're not taken out when they suffer level 3 **harm**).
- ● ● **Veteran:** Choose a special ability from another crew.

 - **Natural Element:** When you use an Act of God as cover on a **score**, take **+1d** to your **engagement roll** and **-1 heat** after the **score**.
 - **Park Rats:** Your airship contains a jumble of stolen items. When you roll to **acquire an asset**, take **+1d**.
 - **Exosuits:** You devised your own kind of **armor**—effective in low orbit jumps as well as **combat**. Only marking your first use of **armor** counts toward your **load** on a **score**. **Heavy armor** is free.
 - **Tempting Fate:** When you execute a score by leaping from an aircraft you may choose to start with a **risky position** and instead spend each **engagement roll** die during the **score** to take **+1d** to a roll.
 - **Slippery:** When you roll **entanglements**, roll twice and keep the one you want. When you **reduce heat** on the crew, take **+1d**.
 - **Synchronized:** When you perform a **group action**, you may count multiple **6s** from different rolls as a **critical success**.
 - • • **Veteran:** Choose a **special ability** from another crew.

CREW XP

At the end of each session, for each item below, mark XP (in your playbook or attribute) or mark 2 XP if it occurred multiple times.

- » Execute a successful extraction, espionage, sabotage, or theft operation
- » Contend with challenges above your station
- » Bolster your crew's reputation or develop a new one
- » Express the goals, drives, inner conflict, or essential nature of the crew

SPECIAL ABILITIES

Chasing The Storm: You have devised a method to extract Acts of God into a raw form you can then convert into an illicit substance. Take **3 stress** to use this method on an Act of God after you have surmounted it as an obstacle.

- **Machinations Of Men:** You know when and where the solar panels shed light on the streets of Shelter 1. Take **-1 heat** in **downtime** and **+1d** to **gather info** when being in dark corners is beneficial.
- **Marked:** Everyone in the crew has a tattoo, piercing, or some other kind of discernible marking. Each PC may add **+1 action rating** to **Control**, **Network**, or **Sway** (up to a max rating of 3).
- **The Good Stuff:** Your merchandise is exquisite. The **product quality** is equal to your **Tier+2**. When you deal with a crew or **faction**, the GM will tell you who among them is hooked on your **product** (one, a few, many, or all).
- **Scapegoat:** When a PC would be incarcerated, you can instead send an **Elite cohort**.
- **The Game:** When anyone in the crew gets taken in for interrogation or questioning, you also roll to see how much **heat** you lose.
- **Hooked:** Your gang members use your product. Add the *savage*, *unreliable*, or *wild* **flaw** to your gang to give them **+1 quality**.
- **Accord:** Up to three **+3 statuses** with **factions** count as **Turf**.
- ● ● **Veteran:** Choose a special ability from another crew.

 HACK THE PLANET **CREW SHEET** **REFORM**

Every time a member of your crew is incarcerated they have a chance to gain a claim.

- **Allied Claims:** An ally on the inside arranges for their **faction** to grant you a boon. Take a **claim** for your crew from a different crew type. *You can't take Turf with this claim.*
- **Cell Block Control:** The crew has a cell block under their total control—guards and all. PCs never take **trauma** from **incarceration**.
- **Guard Payoff:** You claim several guards on your payroll. Take **+1d** to your **Tier roll** when a member of your crew is **incarcerated**.
- **Hardcase:** Your reputation as a tough inmate bolsters your crew's image. When your crew advances **Tier**, it costs **2** fewer **Joules** than it normally would.
- **Parole Influence:** Political pressures of various sorts can be applied to the Corporate Council and Auditors who oversee sentences for crimes. With this claim, you're always able to arrange for a shorter stay at **Reform**—as if your **wanted level** was **1** lower. So, if your **wanted level** was **3** when you went to **Reform**, you'd spend only several months behind bars (equivalent to level **2**) instead of a full year.
- **Smuggling:** You arrange smuggling channels inside. You have **+2 load** while **incarcerated** (starting from zero as a prisoner). If you take this **claim** twice, you'll have **4 load** while you're serving time. Also, you may choose to carry **Joules** in place of **load** for purposes of bribes or **acquiring assets** while in **Reform**. You may reset the items in your **Reform loadout** whenever your crew has **downtime**.

INCARCERATION ROLL

 1d for each PC **TIER** level.

CRITICAL: You make a name for yourself inside. You gain **+3 REP** for your crew, **1 Reform claim** and **+1 faction status** with a **faction** that you assisted while you served your time.

6: You do your time well. Your crew gains **1 Reform claim** and **+1 faction status** with a **faction** that you assisted while you served your time.

4/5: You keep your head down and do your time without incident.

1•3: It's horrific. You suffer a level of **TRAUMA** from the experience.

[illegible]

CREW UPGRADES

- ◉ **AIRSHIP:** The PCs possess an airship they can use for scores. It consumes **1 fuel** per **downtime** phase (unless it has the costly **flaw**). The crew chooses its unique **edges** and **flaws**, similar to **COHORTS** (see the next pages). **Upgrades** can be spent on the following: give it **armor** (max **2**); give it cargo capacity; remove a **flaw** from it, or give it an additional **edge**.
- ◉ **COHORTS:** A **COHORT** is a **gang** or a single **expert COHORT** who works for the crew. To recruit a new **COHORT**, spend **2 upgrades** and create them using the very next pages.
- ◉ **CYCLES:** The PCs all have futuristic cycles (think *Akira*!). The crew chooses their cycle's unique **edges** and **flaws**, similar to **COHORTS** (see the next pages). **Upgrades** can be spent on the following: give the cycles **armor** (max **2**); give them cargo capacity; remove a **flaw** from them, or give them an additional **edge**.
- ◉ **CONVOY:** The PCs all have a vehicle in a convoy (think *Heavy Weather* or *Twister*). The convoy comes with unique **edges** and **flaws**, similar to **COHORTS** (see the next pages). **Upgrades** can be spent on the following: give the vehicles in the convoy **armor** (max **2**); give them cargo capacity; remove a **flaw** from the vehicles, or give them an additional **edge**.
- ◉ **HIDDEN BASE:** Your **base** has a secret location and is disguised to hide it from view. If your **base** is discovered, use **2 downtime activities** and pay **JOULES** equal to your **TIER** to relocate it and hide it once again.
- ◉ **MASTERY:** Your crew has access to **master level training**. You may advance your PCs' **action ratings** to **4** (until you unlock this **upgrade**, PC **action ratings** are capped at **3**). This costs **4 upgrade** boxes to unlock.
- ◉ **QUALITY:** Each **upgrade** improves the **quality rating** of all the PCs' items of that type beyond the **quality** established by the crew's **TIER** and **fine items**. You can improve the **quality** of **Gear**, **Specialized Tech**, **Subterfuge Supplies**, **Tools**, and **Weapons**. So, if you are **Tier 0** with *fine Cryptolock-picks (+1)* and the *Quality upgrade for gear (+1)*, you could contend equally with a **Tier 2** *quality crypto-lock*.
- ◉ **QUARTERS:** Your **base** includes living quarters for your crew. Without this **upgrade**, each PC sleeps elsewhere (which makes them vulnerable). *Perhaps leading others to your base from your comings and goings.*
- ◉ **SECURE BASE:** Your **base** has crypto-lock protection, alarms, and surveillance to thwart intruders. A **second upgrade** improves the defenses to include protection against hacking and other means of probing. *You might roll your crew's Tier if these measures are ever put to the test to see how well they thwart the intruder.*
- ◉ **SHIP:** To the east of Shelter 1 and the Green Zone are docks where some keep ships. You have a ship and a dock there, and a small shack with supplies you would need. A **second upgrade** gives the ship **armor** and more cargo capacity. Any additional boxes provide additional **armor**.
- ◉ **SPINNER:** You've got a serviceable car that is either retrofitted with eco-friendly tech, or a newer model that comes premade like that. A **second upgrade** **armors** it, allows for cargo, and adds **flight** capability. Any additional boxes provide additional **armor**.
- ◉ **TRAINING:** If you have a **Training upgrade**, you earn **2 xp** (instead of **1**) when you **train** a given **xp track** during **downtime** (**INSIGHT**, **PROWESS**, **RESOLVE**, **STRESS** or **Playbook**). This **upgrade** helps you **advance** more quickly. See **Advancement**, page 42. *If you have **Insight Training**, when you train **Insight** during downtime, you mark 2 xp on the **Insight track** (instead of just 1). If you have **Playbook Training**, you mark 2 xp on your **playbook xp track** when you train.*
- ◉ **Vault:** Your **base** has a secure **vault**, increasing your storage capacity for **JOULES** to **8**. A second **upgrade** increases your capacity to **16**. A separate part of your vault can be used as a holding cell.
- ◉ **WORKSHOP:** Your **base** has a **workshop** appointed for tools for modifying and tinkering, as well as some smart-paper books and (basic) schematics, and perhaps maps community members have drawn. You may accomplish **long-term projects** with these **assets** without leaving your **base**.

RULES REFERENCE

ACTION ROLL

⬡ 1d for each **ACTION** rating dot.

⬢ +1d if you have **ASSISTANCE**.

⬢ +1d if you **PUSH** yourself -OR- you accept a **RIPPLE**.

CONTROLLED
YOU ACT ON YOUR TERMS. YOU EXPLOIT A DOMINANT ADVANTAGE.

CRITICAL: You do it with **increased effect**.

6: You do it.

4/5: You hesitate. Withdraw and try a different approach, or else do it with a minor consequence: a minor **complication** occurs, you have **reduced effect**, you suffer **lesser harm**, you end up in a **risky** position.

1-3: You falter. Press on by seizing a **risky** opportunity, or withdraw and try a different approach.

RISKY
YOU GO HEAD TO HEAD. YOU ACT UNDER FIRE. YOU TAKE A CHANCE.

CRITICAL: You do it with **increased effect**.

6: You do it.

4/5: You do it, but there's a **consequence**: you suffer **harm**, a **complication** occurs, you have **reduced effect**, you end up in a **desperate** position.

1-3: Things go badly. You suffer **harm**, a **complication** occurs, you end up in a **desperate** position, you **lose this opportunity**.

DESPERATE
YOU OVERREACH YOUR CAPABILITIES. YOU'RE IN SERIOUS TROUBLE.

CRITICAL: You do it with **increased effect**.

6: You do it.

4/5: You do it, but there's a **consequence**: you suffer **severe harm**, a **serious complication** occurs, you have **reduced effect**.

1-3: It's the worst outcome. You suffer **severe harm**, a **serious complication** occurs, you **lose this opportunity** for action.

RESISTANCE ROLL

⬡ 1d for each **ATTRIBUTE** rating.

You **reduce** or **avoid** the effects of the **consequence** (GM chooses).

Suffer **6 STRESS** minus the highest die result.

CRITICAL: Clear **1 STRESS**.

TEAMWORK

When PCs work together, the characters have access to four special **teamwork maneuvers**. They're listed at the bottom of the character playbook sheets as a reminder to players. The four maneuvers are:

⊙ **Assist** another PC who's rolling an action.

⊙ **Lead a group action**.

⊙ **Set up** a character who will follow through on your action.

⊙ **Protect** a teammate.

ACTION ROLL

1. The player states their **goal** for the action.

2. The player chooses the **action rating**.

3. The GM sets the **position** for the roll.

4. The GM sets the **effect level** for the **action**.

5. Add **bonus dice**.

6. **The player rolls the dice** and the GM interprets the result.

ACTIONS

⊙ When you **COMBAT**, you engage a target with the intent to do harm in close proximity, within your reach.

⊙ When you **CONTROL**, you are trying to get your way with a person or technology. You might intimidate, threaten, or manipulate a person.

⊙ When you **FINESSE**, you employ dexterous manipulation or subtle misdirection.

⊙ When you **GHOST**, you navigate to a destination or execute an action without detection.

⊙ When you **HACK**, you circumvent security measures in software. You'll need an Interface and Hacking Gear if there's no way to interact with something that could be hacked.

⊙ When you **MODIFY** something, you physically alter it to achieve your goal.

⊙ When you **NETWORK**, you socialize with friends and contacts.

⊙ When you **STUDY**, you scrutinize details or interpret evidence.

⊙ When you **SURVEY**, you observe the situation and anticipate outcomes.

⊙ When you **SWAY**, you influence them with empathy, charm, charisma, and intellect—usually earnestly. Most importantly: your intentions are generally good. You are not trying to manipulate them into a situation that would hinder or hurt them.

RIPPLES

The GM—or any other player—can offer the player making the **action roll** a **bonus die** if they accept the proposed **Ripple**. Common **Ripples** include:

⊙ Collateral damage, unintended **harm**.

⊙ Sacrifice **JOULES** or an item.

⊙ Betray a friend or loved one.

⊙ Offend or anger a **faction**.

⊙ Start and/or tick a troublesome **clock**.

⊙ Add **HEAT** to the crew from evidence or witnesses.

⊙ Suffer **harm**.

RULES REFERENCE

1.REP

After a **score**, the PCs take stock of their income from the operation. A successful score generates both **REP** and **JOULES**.

The crew earns **2 REP** per score by default. If the target of the score is higher **TIER** than you, take **+1 REP per TIER higher**. If the target of the score is lower **TIER**, you get **-1 REP per TIER lower** (minimum zero).

2.JOULES

The crew earns **JOULES** based on the nature of the operation and/or any loot they seized:

- ⊙ **2 JOULES**: A minor job; a week's wages. Standard efficiency Joules.
- ⊙ **4 JOULES**: A small job; a fine weapon. A weekly income for a small business. A fine piece of art. A set of luxury clothes.
- ⊙ **6 JOULES**: A standard score; customized, specialized tech. Perhaps a unique configuration to the sheathe of the Joule and heavier, meaning more efficient.
- ⊙ **8 JOULES**: A big score; a good monthly take for a small business. A small smart-safe with valuables inside. A very rare luxury commodity.
- ⊙ **10+ JOULES**: A major score; liquidating a significant asset—a spinner, a cycle, ownership of a small property.

3.HEAT

The city is full of prying eyes and informants. Anything the players do might be witnessed, and there's always evidence left behind. The crew acquires **HEAT** as they commit crimes to reflect this. After a **score** or conflict with an opponent, the crew takes **HEAT** according to the nature of the operation:

- ⊙ **0 HEAT**: Smooth & quiet; low exposure.
- ⊙ **2 HEAT**: Contained; standard exposure.
- ⊙ **4 HEAT**: Loud & chaotic; high exposure.
- ⊙ **6 HEAT**: Wild; devastating exposure.

Add **+1 HEAT** for a high-profile or well-connected target. Add **+1 HEAT** if the situation happened on hostile **turf**. Add **+1 HEAT** if you're at war with another **faction**. Add **+2 HEAT** if killing was involved (whether the crew did the killing or not—bodies draw attention).

4.DOWNTIME

Between scores, your crew spends time at their liberty, attending to personal needs and side projects. These are called **downtime activities** (see the list at right). During a downtime phase, each PC has time for **two downtime activities**. *When you're at war, each PC has time for only one.*

ACQUIRE ASSET

Roll the crew's **TIER**. The result indicates the **quality** of the asset:

- ⊙ **CRITICAL: TIER +2.**
- ⊙ **6: TIER +1.**
- ⊙ **4/5: TIER.**
- ⊙ **1-3: TIER -1.**

Some items require a minimum quality result to acquire. To raise the result beyond critical, you may spend 2 JOULES per +1 TIER bonus.

LONG-TERM PROJECT

Work on a **long-term project**, if you have the means.

Mark segments on the clock according to your result:

- ⊙ **CRITICAL**: Five ticks.
- ⊙ **6**: Three ticks.
- ⊙ **4/5**: Two ticks.
- ⊙ **1-3**: One tick.

RECOVER

Get **treatment** or use a **Recharge** to tick your **healing clock** (like a **long-term project**). Every die counts toward filling the **clock** when **recovering**. *When you fill a clock, each harm is reduced by one level.*

REDUCE HEAT

Say how you reduce **HEAT** on the crew and roll your action. Reduce **HEAT** according to the result level:

- ⊙ **CRITICAL**: Clear five **HEAT**.
- ⊙ **6**: Clear three **HEAT**.
- ⊙ **4/5**: Clear two **HEAT**.
- ⊙ **1-3**: Clear one **HEAT**.

TRAIN

Mark **1 xp** (in an **ATTRIBUTE**, your **playbook**, or your **STRESS track**). Add **+1 xp** if you have the appropriate crew **upgrade**. *You may train a given xp track once per downtime.*

VICE

Visit your **VICE** purveyor to relieve **STRESS**. Roll dice equal to your **LOWEST ATTRIBUTE**. Clear **STRESS** equal to your highest die result. If you clear more **STRESS levels** than you had marked, you **overindulge** (see below). *If you do not or cannot indulge your VICE during downtime, you take STRESS equal to your TRAUMA.*

INSTALL CYBERNETICS

Visit a street-doc to install additional **cybernetics** on your person. Each cybernetic costs **5 JOULES** and **1 STRESS** multiplied by the number of additional **cybernetics** (your second additional **cybernetic** costs **10 JOULES** and **2 STRESS**). Mark the **ability rating** reserved for **cybernetics** (far left column) that reflects what you have installed (limit of **1** per **ability rating**).

OVERINDULGE.

You make a bad call because of your vice—in acquiring it or while under its influence. What did you do? Choose one:

- ⊙ **ATTRACT TROUBLE**: Select or roll an additional **entanglement**.
- ⊙ **BRAG** bout your exploits. **+2 HEAT**.
- ⊙ **LOST**: Play a different character until this one returns from their bender.
- ⊙ **TAPPED**: Your current purveyor cuts you off. Find a new source for your vice.

ENTANGLEMENTS

After **payoff** and **HEAT** are determined, the GM generates an **entanglement** for the crew using the lists below. Find the column that matches the crew's current **HEAT** level. Then roll a number of dice equal to their **WANTED LEVEL**, and use the result of the roll to select which sort of entanglement manifests. *If **WANTED LEVEL** is zero, roll two dice and keep the lowest result.*

Entanglements manifest before the PCs have a chance to avoid them. When an **entanglement** comes into play, the GM describes what the situation looks like. The PCs then deal with the **entanglement** from that point—they can't intercept or defuse it before it happens.

Entanglements abstract the background complexities of the PCs' lives to generate trouble for them. **Entanglements** are the cost of doing business in the underworld—a good crew learns to roll with the punches and pick their battles.

HEAT 0-3		HEAT 4/5		HEAT 6+	
1-3	Gang Trouble or The Usual Suspects	1-3	Community Trouble or Questioning	1-3	Flipped or Interrogation
4/5	Rivals or Sabotage	4/5	Reprisals or Deal	4/5	The Past Comes Calling or Show of Force
6	Cooperation	6	Show of Force	6	Arrest

ARREST

An Auditor presents evidence to the Corporate Council to begin prosecuting of the crew. The Council sends Sentinels to arrest you (a gang at least equal in scale to your wanted level). Pay them off with **JOULES** equal to your **WANTED LEVEL** +3, hand someone over for arrest (this clears your **HEAT**), or try to evade capture.

COOPERATION

A **+3 status faction** asks you for a favor. Agree to do it, or forfeit **1 REP** per **TIER** of the friendly faction, or lose **1 status** with them. If you don't have a **+3 faction status**, you avoid entanglements right now.

COMMUNITY TROUBLE

A Glitch heard whispers of the scores you've pulled off and tracked you down (create a new faction for the crew if needed). They propose a score linked to problems in the Green Zone. Help them out and receive **+3 status** with them after the score or take **-2 REP**.

DEAL

A liaison or outsourcer for a Corporation proposes an extremely lucrative score. They'll pay double the normal amount for the score—but any **HEAT** you take in **payoff** instead drops your **REP**, doubled! Glitches don't like working with sellouts. If the players don't do it, the GM starts a clock regarding the next steps this agent might take in the future.

FLIPPED

One of the PCs' rivals arranges for one of the crew's contacts, patrons, clients, or a group of customers to switch allegiances due to the **HEAT** on the PCs. They're loyal to another faction now.

GANG TROUBLE

One of the PCs' gangs (or other **COHORTS**) causes trouble due to their Flaw(s). The PCs can lose face (forfeit **REP** equal to your **TIER** +1), make an example of one of the gang members, or face reprisals from the wronged party.

INTERROGATION

The Sentinels round up one of the PCs to question them about the crew's crimes. How did they manage to capture you? Either pay them off with **3 JOULES**, or they beat up the PC (level **2 harm**) and the PC tells them what they want to know (**+3 HEAT**). The PC can **resist** each of those **consequences** separately.

QUESTIONING

Sentinels grab an NPC member of the crew or one of the crew's contacts to question them about the crew's crimes. Who do they think is most vulnerable? Make a **fortune roll** to see how much they talk (**1-3: +2 HEAT, 4/5: +1 HEAT**), or pay **2 JOULES** to make it go away.

REPRISALS

An enemy faction makes a move against you (or a friend, contact, or **vice** purveyor). Pay them (**1 REP** and **1 JOULE**) per **TIER** of the enemy as an apology, allow them to mess with you or yours, or fight back and show them who's boss.

RIVALS

A neutral faction throws their weight around. They threaten you, a friend, a contact, or one of your **vice** purveyors. Pay them (**1 REP** or **1 JOULE**) per **TIER** of the rival, or stand up to them and lose **1 status** with them.

SHOW OF FORCE

A faction with whom you have a negative status makes a play against your holdings. Give them **1 claim** or go to **war** (drop to **-3 status**). If you have no claims, lose **1 hold** instead.

THE PAST COMES CALLING

A complication from a PC's **root** or **background** is dredged up. A Tracer discovers evidence of a Tipper (start a clock as their investigation progresses); a Sentinel or Auditor "taxes" any refugees **1 JOULE** each, pay or deal with them another way; a connection is drawn between Auditors or Sentinels and a crew member, increasing the **WANTED LEVEL** by **1**.

THE USUAL SUSPECTS

The Sentinels grab someone in the crew's periphery. One player volunteers a friend or **vice** purveyor as the person most likely to be taken. Make a **fortune roll** to find out if they resist questioning (**1-3: +2 HEAT, 4/5: level 2 harm**), or pay them off with **1 JOULE**.

OUTSIDE OF SHELTER 1

No one is truly outside of the reach of corporations, even when ranging outside of the walls of Shelter 1. **Entanglements** involving Sentinels, Auditors, and Tracers still apply outside. Most factions have allies or enemies in Shelter 1. While Safety does not have the same resources it might within the Shelter, its presence exists outside of it.

GM GOALS

Play to find out what happens.
Relay an honest fiction.
Make The Reach a living,
breathing thing.

GM PRINCIPLES

Be a fan of the PCs.
Start and end with the fiction.
Highlight and explore cyberpunk
and climate fiction through play.
Make stratification of class and
climate change pervasive.
Address the characters.
Address the players.
Consider the risk.
Hold on lightly.

GM ACTIONS

When things are getting started:
⊙ **What's your goal?**
⊙ **What plan did you make?**
(and what's the detail?)

And when things are underway:
⊙ **How do you do that?** (which
action do you use?)
⊙ **What's your goal?** (what's the
effect?)

Ask questions.
Provide opportunities and follow the
players lead.
Cut to the action.
Telegraph trouble before it strikes.
Make them use their stuff.
Initiate action with an NPC.
Tell them the consequences and ask.
Follow through.
Tick a clock.
Offer a Ripple.
Think off-screen.

- ⊙ **Suki**, host at **Abbreviated Grief**, found by navigating to the lowest point in all of Shelter 1. Some people recorded themselves in order to leave behind an interactive simulacrum. Here, you speak to the dead.

FLASHBACK STRESS COSTS

0 STRESS for a normal action for which you had easy opportunity.

1 STRESS for a complex action or unlikely opportunity.

2+ STRESS for an elaborate action which involved several special opportunities or contingencies.

INSIGHT	PROWESS	RESOLVE
Trace	Finesse	Hack
Study	Ghost	Control
Survey	Combat	Network
Modify	Wreck	Sway

CONSEQUENCES

Complication (Tick a clock, 1-3 segments. Or a new **obstacle** or **threat** appears.)

You have **reduced effect**.

You suffer **harm** (1-3).

You **lose your opportunity**.

You end up in a **worse position**.

EFFECT

How does the effect manifest?

If there's a clock for your obstacle,
tick segments equal to the effect level.

1. LIMITED: How is the effect diminished?

What significant obstacle remains?

2. STANDARD: How does the expected effect
manifest? What's left to do, if anything?

3. GREAT: How is the effect increased? What
extra benefit manifests?

EFFECT FACTORS

FORTUNE ROLL

🎲 1d for each **TRAIT** rating.

⬆️ +1d for a **MAJOR ADVANTAGE**.

⬇️ -1d for a **MAJOR DRAWBACK**.

CRITICAL: Exceptional outcome /
Great effect.

6: Good outcome / Standard effect.

4/5: Mixed outcome / Limited
effect.

RANGERS

MILITARY SCIENTISTS COLLECTING GENES

SPECIAL ABILITIES

Gene Harvesters: You are armed with the technology required to extract **Materia** from organisms changed by Acts of God. Take **3 stress** to extract one sample of **Materia** from a captured organism and unlock its **Genotype**.

- **Integrate:** Any member of the crew may use a **Modify action** to spend a **Materia** adding an unlocked **Genotype** to an organism. The patient risks gaining the special **trauma**: *Tumorous*.
- **Gene Market:** You have a buyer who will give you **Joules** for **Materia**.
- **Injectors:** Crew members can spend a **Materia** to gain any unlocked **Genotype** for a single **score**.
- **Elite Training:** Each PC may add **+1 Action Rating** to **Survey**, **Combat**, or **Control** (up to a max rating of 3).
- **Feel Good Gains:** Each member of your crew gains an **additional Vice**: *Personal Growth*. When you gain new **Genotypes** or **cybernetics**, you count as having **indulged** this **vice** without risk of **overindulgence**.
- **Farming:** After a **Materia** has been extracted from an organism, **long-term projects** may extract additional **Materia** from the same organism.
- **Tactical:** When you set out on an Assault, Capture, or Transport operation, **armor** doesn't count toward your **load** and you take **+1d** to the **engagement roll**.
- ● **Veteran:** Choose a special ability from another crew.

CREW XP

At the end of each session, for each item below, mark XP (in your playbook or attribute) or mark 2 XP if it occurred multiple times.

- » *Obtain a new biological specimen. (Instead of claims, you have Research into different genotypes. Instead of turf, you have Data on those genotypes published to the pirate 'net.)*
- » *Contend with challenges above your station*
- » *Bolster your crew's reputation or develop a new one*
- » *Express the goals, drives, inner conflict, or essential nature of the crew*

SAPPERS

REVOLUTIONARIES AND WRECKERS

SPECIAL ABILITIES

The Coming Storm: With technical savvy, misdirection, and perfect timing you know how to make your enemies vulnerable to Acts of God. Take **3 stress** to make an Act of God another **faction's** problem after you have surmounted it as an obstacle. Mark the Act of God as an **asset** that you can use for your next **score**.

- **Cunning:** Each PC may add **+1 action rating** to **Modify**, **Network** or **Wreck** (up to a max rating of 3).
- **Syndrome:** When you successfully execute a kidnapping, you may choose to start a **long-term project** to convert the hostage to your cause. When you roll to advance this clock, take **+1d**.
- **Big Ba-Da-Boom:** When you use sabotage or explosives to disrupt a **faction**, gain **+1d** to the **engagement roll**.
- **True Believers:** All of your **cohorts** gain the **Dedicated edge**. If they already have **Dedicated**, they get another **edge** of your choice.
- **Proxy Warfare:** Choose a friendly **Tier 4 faction** as your clandestine patron. Take **+1 Status** with them whenever you succeed in a **score** against another **Tier 4** or **5 faction**. Take **-1 Status** with your patron **faction** to immediately gain an **asset** with a **quality** of your **Tier+1**. Take another **-1 Status** to increase the **quality** by an additional **+1**.
- **Propaganda Offensive:** You know how to get people on side and swap large populations. The **effect** of your first **2 turf claims** is **doubled**.
- **Domino Theory:** Gain **+1d** on **engagement rolls** when attempting to **reduce** a **faction's hold**. When you successfully **reduce** the **hold** of another **faction**, their **allied factions** also take **reduced hold**.

- ● ● **Veteran:** Choose a special ability from another crew.

CREW XP

At the end of each session, for each item below, mark XP (in your playbook or attribute) or mark 2 XP if it occurred multiple times.

- » *Execute a successful propaganda, sabotage, tactical strike, or agitation operation*
- » *Contend with challenges above your station*
- » *Advance your cause or intervene to stop oppression*
- » *Express the goals, drives, inner conflict, or essential nature of the crew*

STORM SPEAKERS

A COVEN OF STORM WITCHES

SPECIAL ABILITIES

Storm Speak: You have devised a method of predicting the Acts of God by embedding all kinds of sensory tech in your bodies. Take **3 stress** to use this specialized method to locate a nearby Act of God.

- **Sigils:** You find other worshippers of the storms from sigils invisible to all but your modified vision. When you locate a storm worshiper **faction** (perhaps in the *Tidelands*), your sigils give you **+3 status** with the **faction**. You may count the *Tidelands* as **turf**, so long as your **status** does not **lower**.
- **Upload:** You may temporarily upload your mind into a storm's network with other Storm Speakers for synchronization. When you perform a **group action** in the storm, you may count multiple **6s** from different rolls as a **critical**.
- **Psychokinesis:** To observers, it looks like the Storm Speakers are moving things with their minds but they actually use magnetic tech embedded in their bodies and advanced physics. When close to a storm, take **+2d** to manipulating objects with this technology.
- **Sensitive:** Your bodies are modded out even further, helping you read living creatures. Additionally, each crew member takes **+1 action rating** to **Control**, **Network**, or **Sway**.
- **Vengeance:** When wronged, you reap your vengeance threefold. Take **+2d** to **combat** rolls related to seeking vengeance.
- **Of The Earth:** With tech that heightens senses, you can seek out shelter in any wild place. Take **+1d** when avoiding detection within familiar wilds (**turf**).
- **Meditate:** You can lead yourself and others through a guided meditation that helps the mind and body **recover**. Take **+1d** to **healing rolls** during **downtime** and **-1 stress** the next time you **push yourself** in an **action roll**.
- • • **Veteran:** Choose a special ability from another crew.

CREW XP

At the end of each session, for each item below, mark XP (in your playbook or attribute) or mark 2 XP if it occurred multiple times.

- » Foretell the destruction an Act of God will reap upon someone/a group and help to make it happen
- » Exert their superiority above humans who don't understand storms like they do
- » *Contend with challenges above your station*
- » *Express the goals, drives, inner conflict, or essential nature of the crew*
