UNICORNS

Check out iheartprintandplay.blogspot.com for more free print and play material.

The unicorns can be used as mounts. Mounts have an additional cut and fold that you can make in order to place a smaller miniature on it.
Step 1: Fold the mount in half along the central dashed gray line. Cut down the short, vertical, solid black line at the top of the miniature.
Step 2: Fold in along both dashed gray lines running from the cut you just made. The top cross-section of the miniature should now look like an "M" from the side of the miniature that you just folded. This section now forms a platform that you can set other miniatures on. Mount up!
