The Runguest Collectors Checklist

Well met and welcome to the Collectors Checklist!

This is the RuneQuest Collectors Checklist, your first aid when collecting RuneQuest material.

I made this checklist for myself to keep track of what RPG products I own. Many times was I in the position to photocopy ("Xerox") a module or booklet that the owner didn't wish to sell. So gradually my collection expanded with not only genuine products but also with photocopies. Since the coming of the officially digitized classic products (ESD's) and hundreds of homemade scans it is even harder to keep track of what product you own in what format. With the Collectors Checklist you will be able to sort your whole collection, no matter what the format is!

The checklist is devided into several sections:

Stock \mathcal{N}_{2} : The item's publishing code

SubCode: When an item belongs to a specific group of items it carries this code

Title: The product's title (dah!)

Copy: Check this if you have the original item

Xerox: Check this if you have a copy (Xeroxcopy for instance) of the original item

ESD: Check this if you have an official digital copy of the original item Scan: Check this if you have a homemade scan of the original item

HINT: you can even write down the number when you own more than one copy of a product;)

Feel free to copy/share/print this list. More Collectors Checklists can be found at our new website:

Have a nice day!

Richard
