Subject: Invulnerability

Excerpt from Field Report: “Don't you gentlemen know what a serious problem lead poisoning is in these old buildings?”

Note: Remark by Captain Marvel, after blocking a hail of bullets with his body and apprehending a pair of gangsters in one of Fawcett City's older sections.

MEMO

Subject: Natural Armor

MEMO

Subject: Resurrection

Classified Ultra Secret: Eyes Only:
Investigation of the “Kingdom Come” Incident.

Summary follows:

Captain Atom was fatally stabbed by the Parasite, the blow tearing open his protective metal skin. The resulting nuclear blast had a lethal diameter of a thousand miles. Fatality rate was 100 percent within the center 500 miles. While the actual incident occurred at an undisclosed date decades in the future and has thus been determined to be a possible future event, the factors involved are present in modern day. If Captain Atom is dangerous in the future, he is dangerous today.
