Introduction

Keeping track of initiative in games using the d20 System can get complicated. Every GM has a method that he or she favors, but which sometimes lacks versatility or utility. Initiative Cards provide GMs with an easy way to keep track of initiative and a handy reference for all the sorts of information a GM sometimes needs during a game session.

There are two different types of Initiative Cards: character cards and monster cards. Character cards contain information about the player characters and the occasional non-player character. You can use these cards for familiars as well. Monster cards contain information about monsters (though it's best to use character cards for monsters that have class levels). You can use these cards for most animal companions as well.

The monster cards in *Initiative Cards: Monster Set I* provide GMs with over 350 preprinted monster cards for fantasy d20 System roleplaying games. All of the necessary information has already been filled in—all the GM needs to do is print as many of each card as he needs, and use them over and over again.

Initiative Cards in Play

Before beginning play, print and fill out as many character cards as you need for the player characters, and print as many monster cards as you need for the monsters. If all the monsters you need aren't in Monster Set I, use the blank monster cards provided. You can also use the blank character cards for any NPCs you might need.

When combat begins, ask the players to roll initiative while you roll initiative for any opponents and non-player characters. Set aside any cards for characters or creatures that are surprised. One by one, go around the table and ask each player for his or her character's initiative result. Write their initiative numbers down in the space marked "INIT" on the cards. Then do the same for all the initiative rolls you make. Use a pencil—you'll be erasing and rewriting these numbers fairly often.

Then simply begin at the top of the stack, moving each card to the bottom when that character or creature has concluded its turn. When you once again reach the first card in the initiative order, if anyone has not yet rolled initiative, ask them to roll for initiative now.

Then jot down their initiative numbers, and place their cards in the proper place in the initiative order.

If a character or creature delays, or readies an action, turn that Initiative Card sideways, with the "Delay/Ready" box showing. If a character or creature falls unconscious, simply turn the card sideways facing the other direction, with the word "Unconscious" visible.

Monster Cards

Use monster cards for monsters that don't have classes and levels. You can use one card to represent multiple monsters of the same type (one card to stand for three ogres, for example), or you can use individual cards for individual monsters. All of the completed cards in *Initiative Cards: Monster Set 1* are monster cards.

NAME: This is the monster's name. You can use one card to represent a number of identical monsters, or use separate cards for each according to your own preferences.

ALIGN: This is the monster's alignment. Knowing the monster's alignment could be important for spells that key off of a character's alignment, such as *protection from evil*.

INIT: Leave this space blank at first. When combat begins, use it to record the character's initiative roll.

Delay or Ready: Turning the card so this space is showing indicates the character is delaying or has readied an action.

AC: This is the monster's armor class, including base AC, AC for touch attacks (TCH)—attacks that disregard armor—and AC for attacks when the character is flatfooted (FLT).

There is also a box in which you can mark any temporary changes to the monster's AC (TMP) that occur during the course of the game.

FORT, REF, and WILL: This is where you can find the monster's Fortitude, Reflex, and Will saving throws.

SPD: The monster's base movement is indicated here. Alternate movement modes, such as flying speed or swimming speed, are recorded here as well.

VIS: This area notes any special vision modes the character might have, such as low-light vision, darkvision, or blindsight, as well as the vision mode's range, if applicable.

GRAP: The monster's grapple bonus appears here.

Skills: The monster's skills and total skill modifiers (skill rank + ability modifier + miscellaneous modifiers) are listed here. Unlike those on Character Cards, the skills listed here vary from monster to monster.

Attacks: The monster's attacks appear here. The information listed includes Attack (#) (the method of attack, such as "Bite," "Claw (2)," or "Sword"); Bonus (the attack modifier); Type (the type of damage: "P" for piercing, "B" for bludgeoning, and "S" for slashing); and Damage (the damage caused by the attack). On these pre-filled cards, attack entries that are not indented are primary attacks, while indented entries are secondary attacks used with the primary attack above.

HP: Use this space to keep track of the monster's hit points.

Special/Notes: Use this space to record any temporary effects on the monster, such as spells or the special attacks of other monsters, and to keep track of the duration of such effects. The information in these fields can be highly condensed—please refer to "Reading the Cards," below, for more information on this space.

Unconscious: Turning the card so this space is showing indicates the monster is unconscious.

Character Cards

Use character cards for player characters, non-player characters, familiars, and monsters that have classes and levels. A sheet of blank character cards is included at the end of the monster card set for your convenience.

NAME: Record the character's name here.

ALIGN/RACE: Record the character's alignment and race here. The former may be useful for spells that work off of a character's alignment, such as *protection from good*; the latter is useful for spells, effects, and situations that take the character's race into consideration. If you're using the character card to represent a familiar, record the animal's species (cat, hawk, rat, weasel, etc.) here.

INIT: Leave this space blank at first. When combat begins, use it to record the character's initiative roll.

AC: Record the character's base armor class here, including AC for touch attacks (TCH)—attacks that disregard armor—and for attacks when the character is flatfooted (FLT).

There is also a box in which you can mark any temporary changes to the character's AC (TMP) that occur during the course of the game.

CLS/LVL: Record the character's classes and levels here. If the character has several classes, you might want to use abbreviations: Brb for Barbarian, Clr for Cleric, or Wiz for Wizard, for example.

Delay or Ready: Turning the card so this space is showing indicates the character is delaying or has readied an action.

STR, DEX, CON, INT, WIS, and CHA: Record the character's ability scores and ability modifiers here.

FORT, REF, and WILL:

Record the character's Fortitude, Reflex, and Will saving throws here.

SPD: Record the character's base movement here.

VIS: Record any special vision modes the character might have, such as low-light vision, darkvision, or blindsight. If the vision mode has a range, make sure you note that, such as "Dark 60."

Skills: Record the total skill modifiers (skill rank + ability modifier + miscellaneous modifiers) here. This area lists only those skills for which the GM should regularly make skill checks on the player's

behalf (see *DMG* v3.5, Chapter 1, Determining Outcomes). In addition to their use for recording skills that are not already included, the blank skill spaces can be used to record other score-based information, such as Spell Resistance.

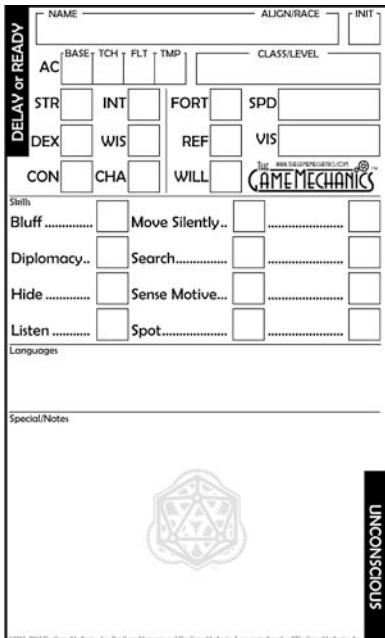

Languages: Record the languages the character knows here. This could come in handy when the characters encounter speech or writing in a language other than Common. (You can check which of the characters might understand without having to ask the players which languages each character knows.)

Special/Notes: Use this space to record any temporary effects on the character, such as spells or the special attacks of monsters, and to keep track of the duration of such effects.

Unconscious: Turning the card so this space is showing indicates that the character is unconscious.

Reading the Cards

First, remember that Initiative Cards are not supposed to replace the *MM* or any other sourcebook. They are meant to organize combat and reduce the need to refer to check

sourcebooks during play, but are not meant for independent use.

The Special/Notes field on the card contains shorthand for the skills and abilities most commonly used during combat, and are not a complete record of the monster. For example, consider the night hag. This monster's Special/Notes field has the following:

Evil, extraplanar traits; nat wpns mag for DR; DR 10/cold iron & mag; imm fire, cold, charm, sleep, fear; SR 25.

Feat: Mount Cbt.

Disease (Ex): See MM.

Spell-Like Abilities: At will—det chaos, det evil, det good, det law, det magic, mag missile, pmorph (self only), ray enfeeble (DC 12), sleep (DC 12). CL 8. At will—etherealness (w/ heartstone). CL 16.

Possessions: Heartstone (auto cure disease, +2 on all saves, see MM).

The night hag's "evil traits" note indicates that it has the evil subtype. While this means the creature overcomes damage reduction as if its natural weapons and any weapons it wields were evil-aligned, the full details are not spelled out in the limited space of the card. Damage resistance, spell resistance, and a number of other common d20 terms are also abbreviated in this summary of creature's traits.

The night hag also has the Alertness feat, but it is unnecessary to list it since the creature's scores are adjusted accordingly and Alertness does not otherwise affect combat.

The night hag's disease has an incubation period of one day. It's noted so the GM can track characters who have become diseased, but the

details of the disease are unimportant during a standard combat, so they are not included.

Initiative Cards in play

The creature's spell-like abilities are all abbreviated as well. The spell and ability abbreviations match those used in Wizards of the Coast products and are usually obvious, but the MM can be referenced if there is any confusion. Limits or changes to a common spell are detailed parenthetically, as are save DCs for resisting the effects of the ability.

The only possessions listed are those with stats or effects not included elsewhere on the card. Magic armor would be included in AC calculations, for example. The night hag's *heartstone* is listed because it has abilities that may affect combat.

In some cases, a complex creature (such as a dragon) will require additional card space to detail all of its abilities. Such creatures are noted by the presence of "MORE>>" in the lower right corner of the Special/Notes field. The remaining information is contained in a special card near the end of the set.

Dragon Cards

Initiative Cards: Monster Set 1 contains a number of monster cards for dragons. These unique creatures were created by the staff at The Game Mechanics, and are not found in any other sourcebook. To use these cards, you should download the complete stat blocks for these dragons from the Freebies section of The Game Mechanics' website (<http://www.thegamemechanics.com/>).

Example of Play

A combat begins in Rich's game—the characters encounter a group of five orcs led by an ogre, who also has a black bear for a pet. Rich tells the players to roll initiative for their characters, while he rolls for the monsters. Since Rich has already printed out the monster cards for the orcs, ogre, and bear in advance, all he has to do is pull out the cards, check the initiative modifiers, and roll 1d20 each for each. For convenience, Rich is using a single initiative roll for all five orcs. This also lets him track them using just one card. The orcs get a total of 14, the ogre gets a 19, and the bear gets only a 2. Rich puts these in order, from highest to lowest: the ogre, the orcs, and the bear.

The players tell Rich what they rolled for initiative: Wendy, playing Kessa, gets a 9; Joanna, playing Alwyn, gets a 23; Alex, playing Tyrian, gets a 24; and JD, playing Cromagh, gets a 13. As the players tell Rich their initiatives, he puts them in place, so the final initiative order looks like this: Tyrian (24), Alwyn (23), the ogre (19), the orcs (14), Cromagh (13), Kessa (9), and finally the bear (2).

MONSTER SET ONE

Tyrian, the monk, doesn't want to charge into the midst of the enemy, so he delays. Rich turns Tyrian's card 90 degrees to the right, leaving the "Delay or Ready" indicator showing. He then moves Tyrian's card to the back, behind the card for the bear. A character can't delay past the end of the round, so this reminds Rich to make sure that Tyrian takes his action before the end of the round.

Next up is Alwyn, the rogue, who attacks with her bow, but misses. Rich moves her card to the back of the stack, after Tyrian's. Then comes the ogre, who charges Cromagh, the barbarian. The ogre's attack only has to beat Cromagh's flat-footed Armor Class, since Cromagh hasn't acted yet.

The orcs attack next, and Rich decides that the three in front wade into battle, while the two in the back ready actions to fire arrows at anyone who starts casting spells. Since Rich is only using one card for all of the orcs, he resolves the attacks for the three who entered melee, then pencils in a "2" on their card, and turns it to the right—indicating that two of the orcs have readied actions. Then he puts it at the bottom of the stack, after Alwyn. Although they're technically no longer acting on the same initiative, Rich decides that, in the next round, the three orcs in melee will simply delay until the other two orcs act, thus putting them back on the same initiative.

Next, Cromagh attacks the ogre, and deals 12 points of damage. Rich records this on the ogre's card, under "Hit Points." Then Kessa acts, casting a spell, and the two orcs use their readied actions to fire arrows at her. Rich moves the orcs' card back up front, on top of Kessa's card. After they're done with their attacks, he moves them back to the back of the stack, facing the right way up again.. This is their new place in the initiative order. Then Kessa resolves her action, and goes to the back of the stack.

Now Alex decides that Tyrian will act, and so Rich moves Tyrian's card back up to the front. Tyrian runs to where the two orc archers are standing and uses his unarmed attack to inflict a stunning 14 points of damage! This is 5 more hit points than this particular orc has, so Rich just puts an X through that orc's hit point column on the card.

Then the bear attacks and absolutely savages Alwyn, dealing 30 points of damage. Alwyn only has 25 hits points, so she's at -5 hit points. Rich turns Alwyn's card 90 degrees to the left, showing the part of the card that reads "Unconscious." Since the bear was the last to act, and Tyrian's card has moved again, the next card up is Alwyn. Since she's unconscious, Alwyn has to check to see if she stabilizes. Once that's done, Rich proceeds to the ogre's next action.

OPEN GAME LICENSE Version 1.0a

The following text is the property of Wizards of the Coast, Inc. and is Copyright 2000 Wizards of the Coast, Inc ("Wizards"). All Rights Reserved.

1. Definitions: (a) "Contributors" means the copyright and/or trademark owners who have contributed Open Game Content; (b) "Derivative Material" means copyrighted material including derivative works and translations (including into other computer languages), notation, modification, correction, addition, extension, upgrade, improvement, compilation, abridgment or other form in which an existing work may be recast, transformed or adapted; (c) "Distribute" means to reproduce, license, rent, lease, sell, broadcast, publicly display, transmit or otherwise distribute; (d) "Open Game Content" means the game mechanic and includes the methods, procedures, processes and routines to the extent such content does not embody the Product Identity and is an enhancement over the prior art and any additional content clearly identified as Open Game Content by the Contributor, and means any work covered by this License, including translations and derivative works under copyright law, but specifically excludes Product Identity. (e) "Product Identity" means product and product line names, logos and identifying marks including trade dress; artifacts; creatures characters; stories, storylines, plots, thematic elements, dialogue, incidents, language, artwork, symbols, designs, depictions, likenesses, formats, poses, concepts, themes and graphic, photographic and other visual or audio representations; names and descriptions of characters, spells, enchantments, personal abilities, teams, personas, likenesses and special abilities; places, locations, environments, creatures, equipment, magical or supernatural abilities or effects, logos, symbols, or graphic designs; and any other trademark or registered trademark clearly identified as Product identity by the owner of the Product Identity, and which specifically excludes the Open Game Content; (f) "Trademark" means the logos, names, mark, sign, motto, designs that are used by a Contributor to identify itself or its products or the associated products contributed to the Open Game License by the Contributor (g) "Use", "Used" or "Using" means to use, Distribute, copy, edit, format, modify, translate and otherwise create Derivative Material of Open Game Content. (h) "You" or "Your" means the licensee in terms of this agreement.
2. The License: This License applies to any Open Game Content that contains a notice indicating that the Open Game Content may only be Used under and in terms of this License. You must affix such a notice to any Open Game Content that you Use. No terms may be added to or subtracted from this License except as described by the License itself. No other terms or conditions may be applied to any Open Game Content distributed using this License.
3. Offer and Acceptance: By Using the Open Game Content You indicate Your acceptance of the terms of this License.
4. Grant and Consideration: In consideration for agreeing to use this License, the Contributors grant You a perpetual, worldwide, royalty-free, non-exclusive license with the exact terms of this License to Use, the Open Game Content.
5. Representation of Authority to Contribute: If You are contributing original material as Open Game Content, You represent that Your Contributions are Your original creation and/or You have sufficient rights to grant the rights conveyed by this License.
6. Notice of License Copyright: You must update the COPYRIGHT NOTICE portion of this License to include the exact text of the COPYRIGHT NOTICE of any Open Game Content You are copying, modifying or distributing, and You must add the title, the copyright date, and the copyright holder's name to the COPYRIGHT NOTICE of any original Open Game Content you Distribute.
7. Use of Product Identity: You agree not to Use any Product Identity, including as an indication as to compatibility, except as expressly licensed in another, independent Agreement with the owner of each element of that Product Identity. You agree not to indicate compatibility or co-adaptability with any Trademark or Registered Trademark in conjunction with a work containing Open Game Content except as expressly licensed in another, independent Agreement with the owner of such Trademark or Registered Trademark. The use of any Product Identity in Open Game Content does not constitute a challenge to the ownership of that Product Identity. The owner of any Product Identity used in Open Game Content shall retain all rights, title and interest in and to that Product Identity.
8. Identification: If you distribute Open Game Content You must clearly indicate which portions of the work that you are distributing are Open Game Content.
9. Updating the License: Wizards or its designated Agents may publish updated versions of this License. You may use any authorized version of this License to copy, modify and distribute any Open Game Content originally distributed under any version of this License.
10. Copy of this License: You MUST include a copy of this License with every copy of the Open Game Content You Distribute.
11. Use of Contributor Credits: You may not market or advertise the Open Game Content using the name of any Contributor unless You have written permission from the Contributor to do so.
12. Inability to Comply: If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Open Game Content due to statute, judicial order, or governmental regulation then You may not Use any Open Game Material so affected.
13. Termination: This License will terminate automatically if You fail to comply with all terms herein and fail to cure such breach within 30 days of becoming aware of the breach. All sublicenses shall survive the termination of this License.
14. Reformation: If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable.
