

MONSTER TOKENS—SET #5

Dungeon

Sometimes it is easier to play out D&D battles using miniatures on a battle mat. If you do not collect miniatures, you can use these tokens to represent monsters. All of the monsters below are from adventures appearing in this issue. To use, cut carefully along the dotted lines. When a monster is slain, flip over the token. Color photocopy this page to make multiple monsters of the same type. Permission is granted to photocopy these monster tokens for home game use only.
