SUPER GENIUS
GAMES

To assemble figures:

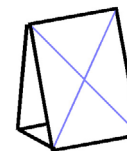

1. Cut along outside edges of figure.

2. Fold along horizontal lines, using a straight edge, to form the front, back and end flaps.

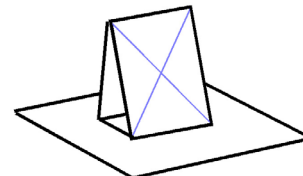

3. Overlap and glue or tape the end flaps together, forming a standing triangle shape.

Optional:

4. For bigger figures, follow steps 1 through 3, then cut a base 2"x2" out of cardstock or other firm surface and glue or tape figure to center of square to indicate the space it occupies on a 1" square grid map.
