## BRED FOR BATTLE

Grizzled veterans of countless campaigns, brutish barbarians spilling out from the hinterlands, peerless champions fighting for a noble cause, or hard-bitten mercenaries who have seen it all: these character concepts describe just a few of the possible types of warriors one might find in the *Shadow of the Demon Lord*. Although warriors might have many different expressions and stories, they all are exceptionally capable with arms and armor in battle. As their experience grows, so too does their durability and dependability. At the outset, warriors distinguish themselves by the weapons they wield and the armor they wear, but not until they move onto other paths do they truly come into their own. Until now.

*Bred for Battle* builds on the warrior novice path presented in the main rulebook by providing new customization options for combat-focused characters. These options offer more variety in technique, reflecting the nature of a warrior's training and providing inspiration for future development. As with all *Paths of Shadow* installments, everything in *Bred for Battle* is optional, so check with your Game Master before putting these ideas to use.

# BECOMING A WARRIOR

Monsters overran your home community and you helped fight them off. You served in an army as a conscript or found a place in a noble's entourage as a guard. Or maybe you just stepped up and fought an enemy when you and your companions first came together. Such experiences, professions, or background can all suggest the warrior when you would choose a novice path.

Becoming a warrior grants you durability, the toughness you need to take abuse and keep on fighting. Warrior talents also reflect your growing capability with weaponry, helping you strike with more accuracy and force. These talents let you excel on the battlefield, whether you lead the charge or hang back and pepper your enemies with arrows.

How you gained these skills and talents depends on you and the story you want to tell. The following training options offer you ways to customize your warrior character, while also explaining what happened after your starting adventure to prepare you for the adventures to come. Each option describes the key event that led to your adopting this training; you can either choose the event or let the die decide. Some options provide talents different from what warriors would ordinarily receive; replacing those offered by the standard warrior path, making each option almost a separate novice path.

## ARMIGER

Shortly after you completed your first adventure, you took up with a knight to serve as his or her squire. The knight saw to your training, teaching you how to fight with lance and sword, how to wear armor, and how to care for a steed. But most important of all were the lessons about how to conduct yourself, how to be worthy of the title of knight and the responsibilities such a station carries. You've completed your training and have won the right to wear heraldry, but it's up to you to decide for whom you fight or whether you travel the lands, looking for wrongs to right and monsters to slay.

### ARMIGER EVENTS

d6	Event
1	The knight was cruel and impatient. You despised this person and ran away when you had the chance.
2	A monster killed your knight. After you buried him or her, you took what you could and now carry on in his or her name.
3	You respected and even loved your knight. You took great pride in being chosen as his or her squire.
4	You were to be executed for a crime you did or did not commit, but a knight intervened on your behalf and took you on as a squire.
5	The knight you served was poor, a drunkard, little more than a sellsword. You learned what you could, but eventually abandoned him or her when you realized you could learn nothing more.
6	You accompanied your knight on many adventures and eventually earned his or her confidence, enough to release you.

## BARBARIAN

You might have come from one of the many tribal groups found on the Empire's edges in those places that have yet to be civilized, or you could be wild and violent, never quite fitting in with the other people living in your community. Either way, people see you as a barbarian, one who eschews civilization's trappings and embraces the primal nature of reality. Your skills and talents evolve not from formal training but from necessity. You fight to survive, provide for yourself, and destroy anyone or anything that threatens you.

## BARBARIAN EVENTS

d6	Event
1	Fed up and disgusted, you abandoned the civilized world to live as a hermit for a time. The hardships you endured made you stronger and tougher.
2	A member of a Woad tribe found you, injured and near death, and nursed you to health. You remained with these people for a time and learned their ways.
3	Your people have always lived in the wilderness and, after your most recent exploit, you returned to them.
4	Monsters destroyed your community, forcing you and other survivors to live off the land in the wilds.
5	Uncouth, temperamental, and prone to flying off the handle without warning, your brutish nature has nothing to do with where you come from and everything to do with your personality.
6	You were taken by slavers and forced to work in the mines, fields, or elsewhere. Your time in chains stripped you of civility, reducing you to a wild and murderous creature.

This talent is cumulative with Combat Expertise, but you must choose a different target for each additional attack you make.

**Improved Furious Recovery** You can use Furious Recovery twice between rests.

## BRAWLER

Although many lands frown on blood sport, the audiences' appetite for carnage can never be sated. From the arenas of Qif, City of Blood, to the blood-soaked pits found in the Pirate Isles, men and women are thrown into battle against a myriad of killers, from brutal warriors who have gone mad from the violence to baited bears, lashing out from blind rage. Surviving these contests takes skill and determination, qualities you have in abundance. You might have been forced to fight or chose this life; either way, these harrowing battles taught you everything you need to know to survive in combat.

## BRAWLER EVENTS

1	Slavers captured you, and you had to fight in the pits or die. You won your freedom after several contests demonstrated your fury and skill.
2	You sought glory in the arenas of Qif and won acclaim for your exploits.
3	Tormented by the horrors you have already endured, you descended into the fighting pits to put your past behind you.
4	After one of your relatives died in the fighting pits, you decided to get vengeance by following in his or her steps.

This talent is cumulative with Combat Expertise, but you must choose a different target for each additional attack you make.

## ENFORCER

You learned early on that a threat means nothing unless you can make good on it. Fear and pain have become your weapons. You exude menace, the threat written in your eyes and in the way you carry yourself. Your mere appearance lets others know it's dangerous to cross your path, and when they do, you don't waste time mincing words. You strike hard and fast, so that when you land a blow, it hurts.

## ENFORCER EVENTS

d6	Event

2	After a gang of ruffians started causing trouble in your community, you took matters into your own hands. You tracked them down and dished out some street justice.
3	A moneylender hired you to collect debts, using force when necessary.
4	You joined the Watch and enforced the laws of your community by whatever means you felt were necessary.
5	You made ends meet by robbing people on the streets of your community. You found they would part with their coin when you applied a little pressure.
6	You found work as a torturer for the Inquisition, a noble, or some other person in a position of authority. You could always extract confessions from your victims.

# GALLANT

Speed, agility, and precision are the hallmarks of the gallant's style. Where some warriors build their strength to heft heavy weapons in a fight, you opt to outmaneuver your enemies, striking them from many different directions and always staying just out of their reach. Your precise strikes whittle down your opponents until they finally succumb to their injuries.

## GALLANT EVENTS

d6	Event
1	You studied with a fencing master to learn the art of swordplay.
2	You hired on with a ship's crew and went on a long voyage, during which time you learned to fight with a myriad of swift weapons.

4	You found a place in a noble's entourage and learned to use the weapons favored by your peers.
5	Being agile, the gallant's fighting style came to you naturally, and your skill with swift weapons represents an outgrowth of your existing talents.

This talent is cumulative with Combat Expertise, but you must choose a different target for each additional attack you make.

**Swift Recovery** On your turn, you can use a triggered action to use your Nimble Recovery talent. In addition, you can use Nimble Recovery an extra time between rests.

## HUNTER

Whether you grew up on the frontiers, where hunting remains a necessary part of survival, or honed your abilities tracking down criminals to face justice, your training helps you find your prey and bring it down with ease. When on the hunt, you know how to move without betraying your position and where best to hide to escape notice. You learn patience and can keep still for long hours before striking. Unlike other warriors, your weapon training focuses on those used in your trade: the spear for fighting bears and boars, bows for bringing down game from a distance, and knives and daggers to protect you when all else fails.

## HUNTER EVENTS

d6	Event
1	You retreated to the wilderness to grapple with the experiences you have had so far. Living off the land helped you develop your hunting skills.
2	After an enemy slipped out of your grasp, you committed several weeks to tracking that person down and bringing him or her to justice.
3	You tracked down and slew a monster that was harassing your community.
4	When a company of soldiers passed through your town, you joined up to scout for them. Your experience taught you much about keeping your eyes open and staying out of view.
5	Foul creatures swept through your community. You helped to fight them off but, seeing the situation as hopeless, you led the survivors through the wilds to safety.

# MONK

Monasteries dot the continent, built by religious or philosophical institutions to protect sacred writings and relics, and offering a place of retreat for those seeking wisdom. Life in these places tends to be simple, with opportunities for introspection and reflection on the soul. Labor ensures the monks living there keep themselves fit and able, but some places teach combat training, revealing ways to turn fists and feet into weapons. Many who complete this training go on to become mystics in hopes of harnessing their inner power.

## MONK EVENTS

d6	Event
1	You sheltered at a monastery to recover from the horrors and hardships you have endured. There, between bouts of meditation, you trained your body to become a living weapon.
2	You sought out a famous martial artist and earned a place as his or her student.
3	You joined a society of friars, where you brewed beer, tended the gardens, and learned how to brawl.
4	You searched for a lost monastery, climbing the one thousand steps, only to find the place abandoned. You studied the sacred scrolls and learned the monks' methods from your research.
5	You abandoned the world to live as a hermit for a time. In your isolation, you trained your body to resist the hardships and learned how to defend yourself as a result.
6	You were raised in a monastery and returned to complete your training. Having done so, you are now ready to return to the world and, if possible, leave it better than you found it.

When your nation called for soldiers, you answered. You might have helped to fight pirates or jotun raiding the coastlines, defended against the undead spilling out from the Desolation or the Kingdom of Skulls, or stood shoulder to shoulder with others against the orc invasion. Joining an army taught you how to fight and the discipline you need to hold the line even when the situation turns grim. You watched out for your fellows, who in turn had your back and guarded your flanks. ## SPELLGUARD

Realizing your aptitude with magic, you followed an unconventional path in which you learned both to fight and to cast spells. This demanding effort required you to divide your time between your studies and the rigorous drilling to impress on you the maneuvers and techniques you needed to survive on the battlefield. You likely had two instructors, one to coax forth your magical capabilities and another to hammer you into shape. When you completed your training, you had built the foundation of your style, and now you see the path forward to grow your power and capabilities.

# VETERAN

The struggles and dangers you overcame drove home the idea that you have to fight to survive in this perilous world. You spent some time traveling, battling, and learning from your opponents. You likely gained a few scars along the way, having found yourself in tight spots, but you persevered and fought your way free, until you became the seasoned warrior you are today. You have few illusions left about what it means to fight. You know what to do, and when the battle starts, you do your job and you do it well.

they wear, but not until they move onto other
