

Blockade Heavy Marine Vehicle

Branson Hagerty (Blackjack's Shadowrun Page <http://shadowrun.html.com/users/blackjack/>) Posted March 24, 1997

It has torpedoes. Need I say more?

Handling: 5

Speed: 20/60

Body: 8

Armor: 15

Signature: 2

Autopilot: 2

Cost: 675,000

Seating: Twin bucket seats + 2 side bench

Economy: 10km per liter

Fuel: 1,000 liters (IC)

Options: Standard model equipped with 2 forward-fixed hardpoints, 1 rear-fixed firmpoint, and 2 forward firing mini-torpedo tubes. For torpedoes use Saab-Saaker AAM stats, adding 5,000 to the cost. Maximum torpedo load is 3 per tube. Also includes environment seal, Sensors 2, full rigger gear, and 4 whitelight lamps. Can operate in waters a minimum of 1 meter deep.

>>>>>A floating brick, this vehicle's good for one thing: Stopping boats. If they get past the Blockade, it's all over. This thing just can't catch up.<<<<<<

-One Eye'd Sally (22:12:42/03-21-58)

>>>>>Yeah, but the torpedoes can.<<<<<<

-Manatee (23:32:12/03-21-58)

>>>>>Don't try taking this thing out into really rough waters. Sure, it's nice having a boat that can operate in a mud-puddle, but this also means it has almost no vertical stability support. Waves tosses it around like a shoe-box.<<<<<<

-Blub (02:12:43/03-22-58)
