

Local Aid

"I am Rahlon, best tracker on this fragment."

Play this card to gain the aid of the fragment you are on. The precise type of aid is up to the GM.

Daring Escape

"Hey, I think this panel's loose . . ."

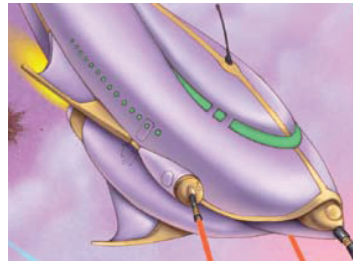

Play this card after being captured. You find some way of escaping the enemy's clutches, though not without some trials and tribulations.

Fancy Flying

"I am a leaf on the wind. Watch how I soar."

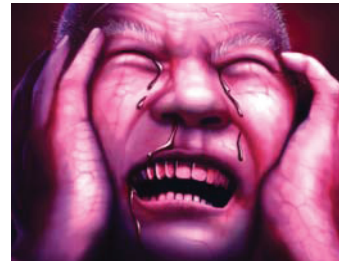

Gain a +2 on all Piloting rolls this scene. However, you go Out of Control whenever you roll a 1 on your Skill die.

Weak Point

"Aim for the exhaust port!"

Play when fighting a larger rocketship. You find a weakness on it, which you can target with a Called Shot at -6. This completely bypasses the rocketship's Armor.

Inner Focus

"Close your eyes, and open your mind . . ."

You enter a focused state, and get +2 on all Psionics rolls. Keep this as long as you don't move. Other than using your powers, you may only perform Tricks and Tests of Will while in this state.

Furious Fists

"It'll take more than the lot of you to put us down!"

For the rest of this scene, you get a bonus to your Fighting rolls equal to the number of foes you are in close combat with, to a max of +4.
