December 3, 2010 [CHAMELEON CLASS SURVEY SHIP]

Chameleon Class Specifications

Production Data:	
Originu	

Origin: Planets	United Federation of
Class and Type: Survey ship	Chameleon Class
Year Launched:	2242
Hull Data:	
Structure:	15
Size/Decks:	3/2
Length/Height/Beam:	32/10/10 Meters
Complement:	2
Operational Data:	
Transporters: Emergency	1 Standard, 1
Cargo Units:	40
Shuttlebay:	NA
Shuttlecraft:	NA
Tractor Beams:	1 FV, 1A
Separation System:	None
Sensor System:	Class 3 [+2/D]
Operations System:	Class 3 [0]
Life Support:	Class 3 [0]

Propulsion System:

Impulse Engines:	SBE [.5c] [0D]
Warp Drive:	PB8 [Warp, 4/5/6]
Tactical Data:	
Phaser Arrays:	Type III [X2/B]
Penetration:	2/2/2/0/0 [A]
Deflector Shield:	Class 2A [B]
Protection Threshold:	13/3
Miscellaneous Data:	
Manoeuvre Modifiers:	+1C, +3H, +2T
Traits: [Deflector Shield]	Hardened System
Atmospheric capable	

History:

The Chameleon Class survey ship was designed for planetary survey missions. Starfleet's strategy tended to be to drop dozens of these vessels to scan every inch of the planet surface. The Chameleon was produced in such numbers that it was inevitable that they would find their way into the civilian market. Her one warp nacelle generates a stable enough warp field allowing for fast travel. Whilst the initial releases had no weaponry many smaller companies released after market garage kits allowing the ship to be armed with an array of phasers.

Chameleon Class based on a FASA design
