memorandum to: Franz Joseph Designs
from: Col. Robert Argon, Director
Security Control/MFHQ
date: 15 April 1973
subject: MF Security Docket #075140
enclosure: one (1) copy of subject docket

1. Pursuant to yourinquiry we are enclosing one (1) copy of subject docket without restrictions. The security classification has been removed, and there is no longer any official interest in the matter.

2. The printed 'message' was: "ALERT.....ALERT.....UNITED FEDERATION FLEET HEADQUARTERS MASTER LIBRARY COMPUTER.....TO.....LIBRARY COMPUTER .....ALL FEDERATION STARSHIPS ON SPECIAL SERVICE.....STARDATE 3113..... SUBJECT.....TRANSMISSION OF UPDATED TECHNICAL MANUAL MASTER DATA SECTIONS .....00:00:00.....00:00:02 .....BEGIN TRANSMISSION....."

3. The message and the 'data sheets' which followed were found in the memory banks of the master computer at Security Control, Omaha MFB, and were accidentally discovered in 1970 during a print-out run, while the computer was being interrogated for another reason. A top security lid was immediately clamped on the matter while an investigation was launched to attempt to identify the source of the unusual transmission. Neither the message or the data could be traced to any known country, or alliance, in the World. All of the terminology, uniforms, weaponry, and other material was completely foriegn to the terminology, uniforms, weaponry, and other material known to be in existence at that time.

4. The investigation was terminated with a final determination that the whole affair had been a hoax. That the 'unusual' material had been inserted into the computer as a prank. And the file was closed, while a search was initiated to find the person, or persons, responsible for this breach of Security Control. To date this effort has been fruitless.

STARDATE 3150.10

to: All Divisions concerned
Star Fleet Command

1. Pursuant to the matter of the unauthorized transmission of SFAF material (viz: SFHQ/Mastercom Computer Data) into the Master Computer at Security Control, Omaha MFB, Earth, Sol System as of stardate 3113, the Special Review Board examined the following pertinent documentation:

(a) report of Capt. James T. Kirk, commanding, U.S.S. Enterprise;
(b) report of Lt. Cmdr. Spock, First Officer, U.S.S. Enterprise;
(c) report of the investigation by the Special Review Commission;
(d) report of the historical events sequential review of the data banks of Mastercom/SFHQ;

2. The Special Review Board has now concluded its determination. It finds: (1) that both Capt. James T. Kirk and Lt. Cmdr. Spock cannot be faulted for the matter since it occurred in the routine computer-to-computer transmission, which operates independently of the SFAF Communications Systems or human supervision; and: (2) that it occurred as the result of an unpredicted, and unforeseen gravitational space-warp which is now known to be a natural phenomenon within the galaxy; and (3) that it was a purely random matter which occurred without human intervention and therefore is considered to be a natural accidental occurrence in the sequential train of historical events.

3. The Special Review Board further finds that in the event the material now stored in the data banks of the Master Computer at Security Control, Omaha MFB, should become known in that time period, it would be advisable to review whatever material is included in that storage to: (a) delete any technology which is not known to Earth's technology in that time period, in order to preserve the Prime Directive's doctrine of non-intervention; and: (b) to correct any material which is determined to be "safe" but which was distorted in tne transmission.

4. Therefore, the Planetary Relations Division of Star Fleet Command is hereby assigned the task of this final determination in the event it should become necessary, and all Divisions shall support this effort as required. The Planetary Relations Division shall also prepare a final report upon the conclusion of any actions they may take, for submission to the Federation Council.

WE THE INTELLIGENT LIFE-FORMS OF THE
UNITED FEDERATION OF PLANETS DETERMINED

TO SAVE SUCCEEDING GENERATIONS FROM THE SCOURGE OF INTRA-GALACTIC WAR WHICH HAS BROUGHT UNTOLD HORROR AND SUFFERING TO OUR PLANETARY SOCIAL SYSTEMS, AND

TO REAFFIRM FAITH IN THE FUNDAMENTAL INTELLIGENT LIFE-FORM RIGHTS, IN THE DIGNITY AND WORTH OF THE INTELLIGENT LIFE-FORM PERSON, TO THE EQUAL RIGHTS OF MALE AND FEMALE AND OF PLANETARY SOCIAL SYSTEMS LARGE AND SMALL, AND

TO ESTABLISH CONDITIONS UNDER WHICH JUSTICE AND MUTUAL RESPECT FOR THE OBLIGATIONS ARISING FROM TREATIES AND OTHER SOURCES OF INTERPLANETARY LAW CAN BE MAINTAINED, AND

TO PROMOTE SOCIAL PROGRESS AND BETTER STANDARDS OF LIFE IN LARGER FREEDOM,

AND TO THESE ENDS

TO PRACTISE BENEVOLENT TOLERANCE AND LIVE TOGETHER IN PEACE WITH ONE ANOTHER AS GOOD NEIGHBORS, AND

TO UNITE OUR STRENGTH TO MAINTAIN INTRA-GALACTIC PEACE AND SECURITY, AND

TO ENSURE BY THE ACCEPTANCE OF PRINCIPLES AND THE INSTITUTION OF METHODS THAT ARMED FORCE SHALL NOT BE USED EXCEPT IN THE COMMON DEFENSE, AND

TO EMPLOY INTRA-GALACTIC MACHINERY FOR THE PROMOTION OF THE ECONOMIC AND SOCIAL ADVANCEMENT OF ALL INTELLIGENT LIFE-FORMS,

THE TONAL PATTERN IS MODAL DIA-TONIC RATHER THAN CHROMATIC AND REQUIRES A HIGH DEGREE OF SKILL TO PERFORM IN THIS REGISTRATION.

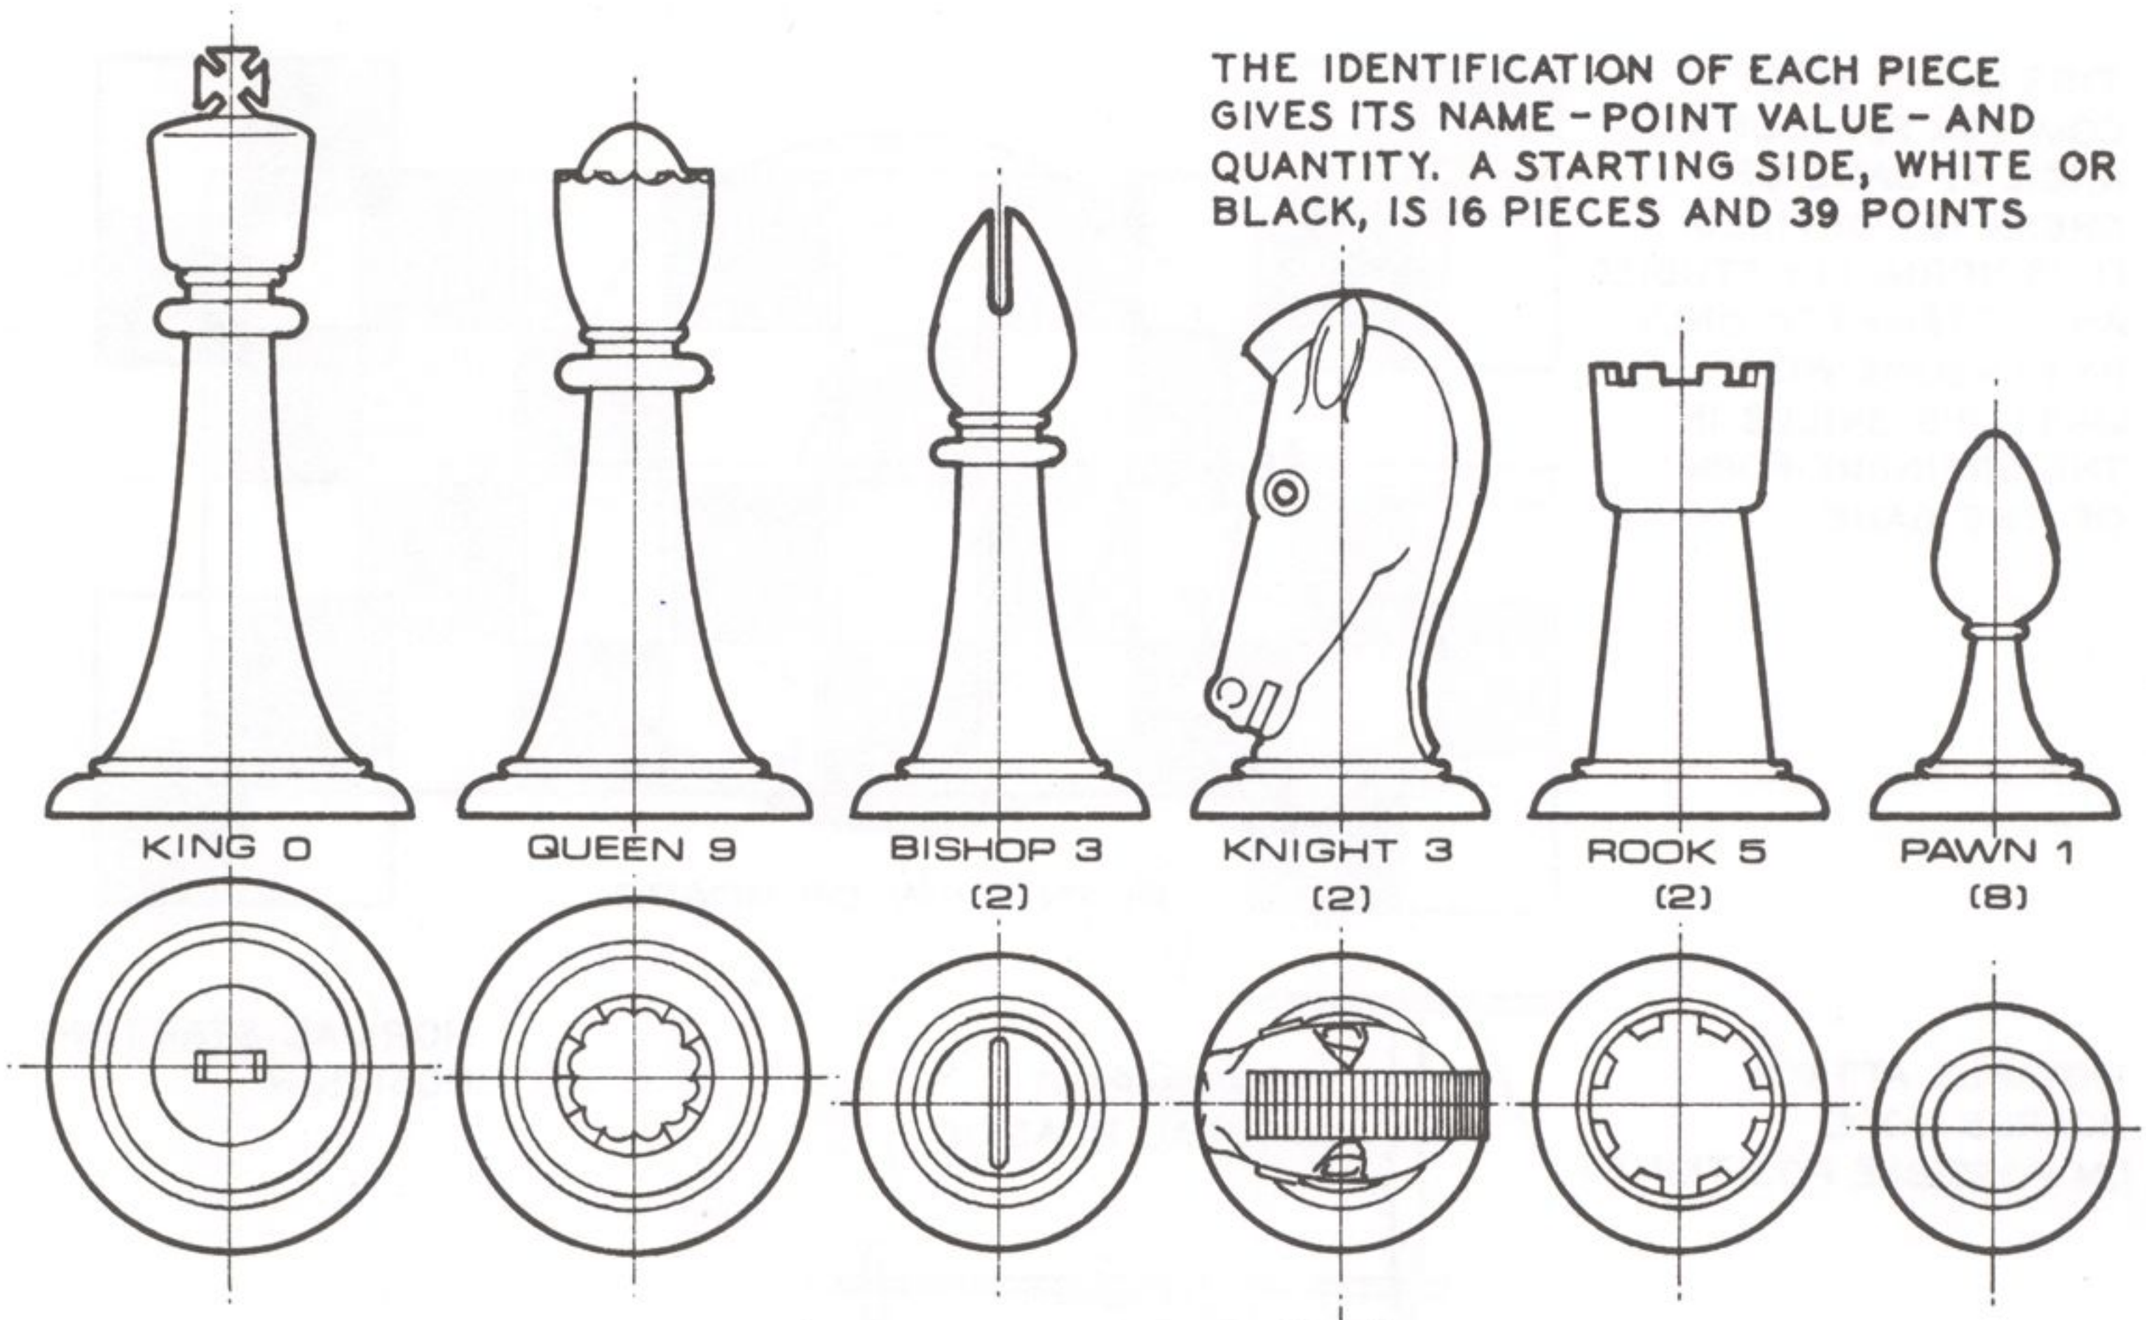
REGULATION TOURNAMENT PLAYING PIECES



THE IDENTIFICATION OF EACH PIECE GIVES ITS NAME - POINT VALUE - AND QUANTITY. A STARTING SIDE, WHITE OR BLACK, IS 16 PIECES AND 39 POINTS

THE BLACK SET OF CHESSMEN IS IDENTICAL TO THE WHITE SET EXCEPT FOR ITS COLOR

THE SIZE, SHAPE, AND VISUAL APPEARANCE OF EACH PIECE IS OF PRIME IMPORTANCE TO MENTAL RECOGNITION OF THE POWER PATTERN ON THE BOARD AT ANY POINT IN THE PLAY

REFER TO THE GENERAL BIBLIOGRAPHY SECTION FOR TEXTS ON THE FUNDAMENTALS OF TRIDIMENSIONAL CHESS

EACH PIECE MOVES EXACTLY THE SAME AS IN CONVENTIONAL CHESS EXCEPT THAT SUCH MOVES HAVE TRIDIMENSIONAL FREEDOM TO THE EXTENT OF AVAILABLE CONSECUTIVE SQUARES

16 OF THE 64 SQUARES ARE MOVABLE IN 4 GROUPS OF 4 SQUARES EACH. THEY MAY BE MOVE TO ONE ADJACENT PIN POSITION AT A TIME PROVIDED THEY ARE EITHER VACANT OR OCCUPIED BY ONLY ONE OF THE PLAYER'S PAWNS, AND SUCH ACTION CONSTITUTES A MOVE IN REGULAR TURN. AN OCCUPIED ATTACK BOARD CANNOT BE MOVED TO AN INVERTED PIN POSITION

1. A printed Terran version of the Star Fleet Technical Manual was approved by the Federation Council for release to the civilians, and civilian auxiliaries on your planet. We have reviewed copies of this version as printed by you, and wish to assure you and the others that these copies are precisely correct and complete as authorized. We believe some of your civilians are confused because they are unfamiliar with the system and arrangement of Technical Orders, therefore, we offer the following by way of clarification.

2. The print-out version of the Star Fleet Technical Manual, as used by the Star Fleet Academy, is a collection of only those Technical Orders necessary to the indoctrination of new cadets until such time as they have become experienced in the use of the data read-out stations of Mastercom/SFHQ. Further, the Terran version contains even fewer Technical Orders because of the prohibition of the Prime Directive. Neither version is a "book" of "pages" as the questioners seem to think — nor do they contain "all" of the technical information stored in the data banks of Mastercom/SFHQ. Your civilians must understand these technical data banks contain all the knowledge presently known within the United Federation of Planets from all of the Member planets. If it were to be published in "book" form, the sum total would amount to more books than you now have stored in your "libraries." Obviously, this cannot be done. It is equally obvious that you cannot have the galactic knowledge of future centuries given to your planet as a "gift"; you must earn it by your own efforts just as the others have done.

3. In the Terran version, the General Index summarizes the subject area groupings by Technical Order number blocks as a part of the total system of classification. It does not give the total classification system, nor does it indicate whether or not such subject matter is available. The Introduction (T.0:00:00:06) for instance, is not included because it has not been authorized for release at this time. Each Section Index lists the Technical Orders currently approved for each section, and shows which are the correct issue by authentication date (and amendment code — if required). Thus a Section Index shows whether or not a particular Manual contains the correct issues. Those which are listed with an asterisk may become available in a future print-out from Mastercom/SFHQ. Other Technical Order numbers which are missing do not appear by reason of the prohibition of the Prime Directive, or they have not been approved for release at this time.

4. In as gentle and as diplomatic manner as we may, we should like to point out that this confusion is just another example of the many primitive attributes of your planet which prevent its acceptance into the United Federation of Planets at this time in your current calendar. But be patient, the day will come in the future when your planet will have finally overcome these obstacles, and will take its place in the intergalactic community of intelligent life forms.

Live long and prosper.
