Military & Police

These shotguns also have access to the following Ammo:

STARFLASH

Type: Delayed Covering Fire Supporter

Weight: 0.08 kg per round

Burst Radius: 6.10 m long

NOTE: Time delay on end of round can be set for a distance of 46, 69 or 92 meters for the detonation distance from the firer. When detonated the round creates a brilliant flash of light which will blind anyone looking at it from 30 seconds to 2 minutes.

THUNDERFLASH

Type: Assault Masking and Stunning

Weight: 0.08 kg per round

NOTE: Same time delays as Starflash round. When detonated the round creates a stunning effect for 5 seconds
