Traveller Consolidated Equipment List (v.7) - Index

NOTES:

- 1) When corresponding with me about a problem with an entry please refer to the sequence number of the item, the version of the list and the date of the list. That way I can find the entry and make changes. Each version of the list will have new sequence numbers, as more stuff will be added continually
- 2) The base lists were scanned from various sources and, as is the habit of such, there are spelling errors as a result. If you find any please report them to me. Thanks!
- 3) The monetary conversion of the GURPS list is necessary as CT was published in 1977 and the IM Cr is based on the US dollar of that time, GURPS was published in about 1990 and uses dollars from that time. The conversion factor is about 2.5. I will be converting the item cost and then rounding to the nearest Credit.
- 4) Remember to check the original source for how the item is used. All through these lists there are apparently identical items that appear in multiple books, (ie - you can have an item that has the same name, weight, cost, and volume) but when you go to the sources you discover that the descriptions and uses of the items are different.
- 5) A grey column is calculated.

Changes:
Version .6
Decided to add weapons and vehicles to the list.
Format changes, very many many
and now uses US legal size paper.
Separated out weapons and vehicles to separate lists.
Changed the book codes so they take up less space.
Added copyrights.
Added stuff from:
TNE: World Tamer' s Handbook, Smash & Grab, Path of Tears.
T4: Game Screen, Psionic Institutes.
BITS: At Close Quarters, Spacedogs.

Version .7
Changed pagination, moved the "type" column over,
Added a weight in pounds column
Merged "Personal Devices" and "Personal Equipment" into "Personal".
Moved "Personal Mobility" to "Sport"
Changed the name of "Sport" to "Sport / Adventure"
Added stuff from:
T20: TA1
CT: Went back and entered weapon and Vehicle data
from B1, B2, B3, B4, S4, and Misc JTAS, Adventures, &
Double Adventures.
