WELCOME

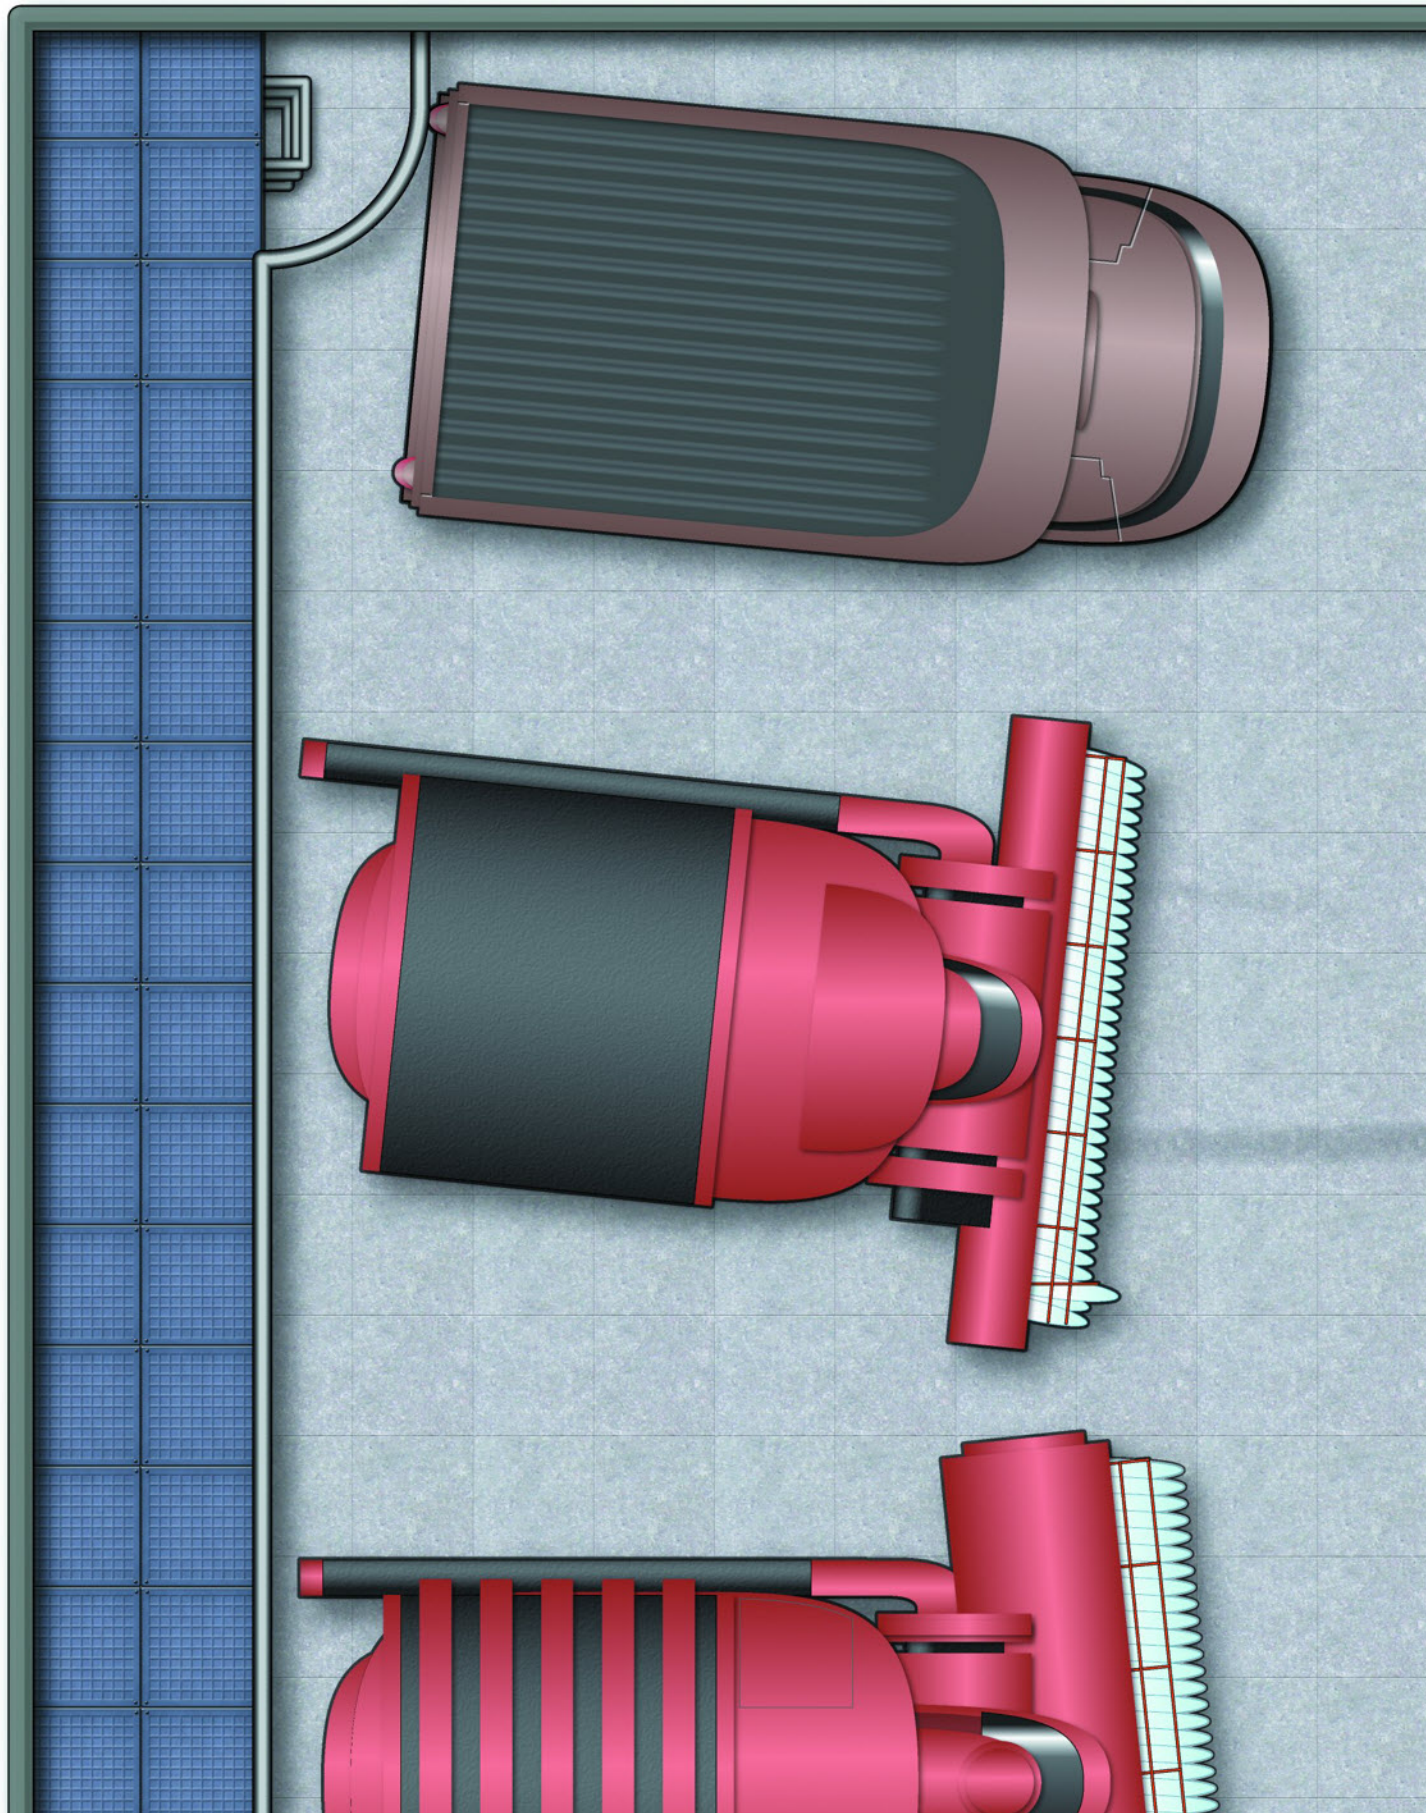

Hello and welcome to the Somnium Mundus Print and Play Tilset pack! The Terra/Sol design team hopes you'll find these maps a useful addition to your game sessions.

HOW TO USE THIS BOOKLET

This booklet contains two maps from the adventure, "Somnium Mundus" by Terra/Sol Games. Each map is divided into eight quadrants. When printed and assembled, this will make two maps of approximately 32" x 22" with approximately 1" squares (depending on your printer's default margins and paper size, these dimensions may change slightly).

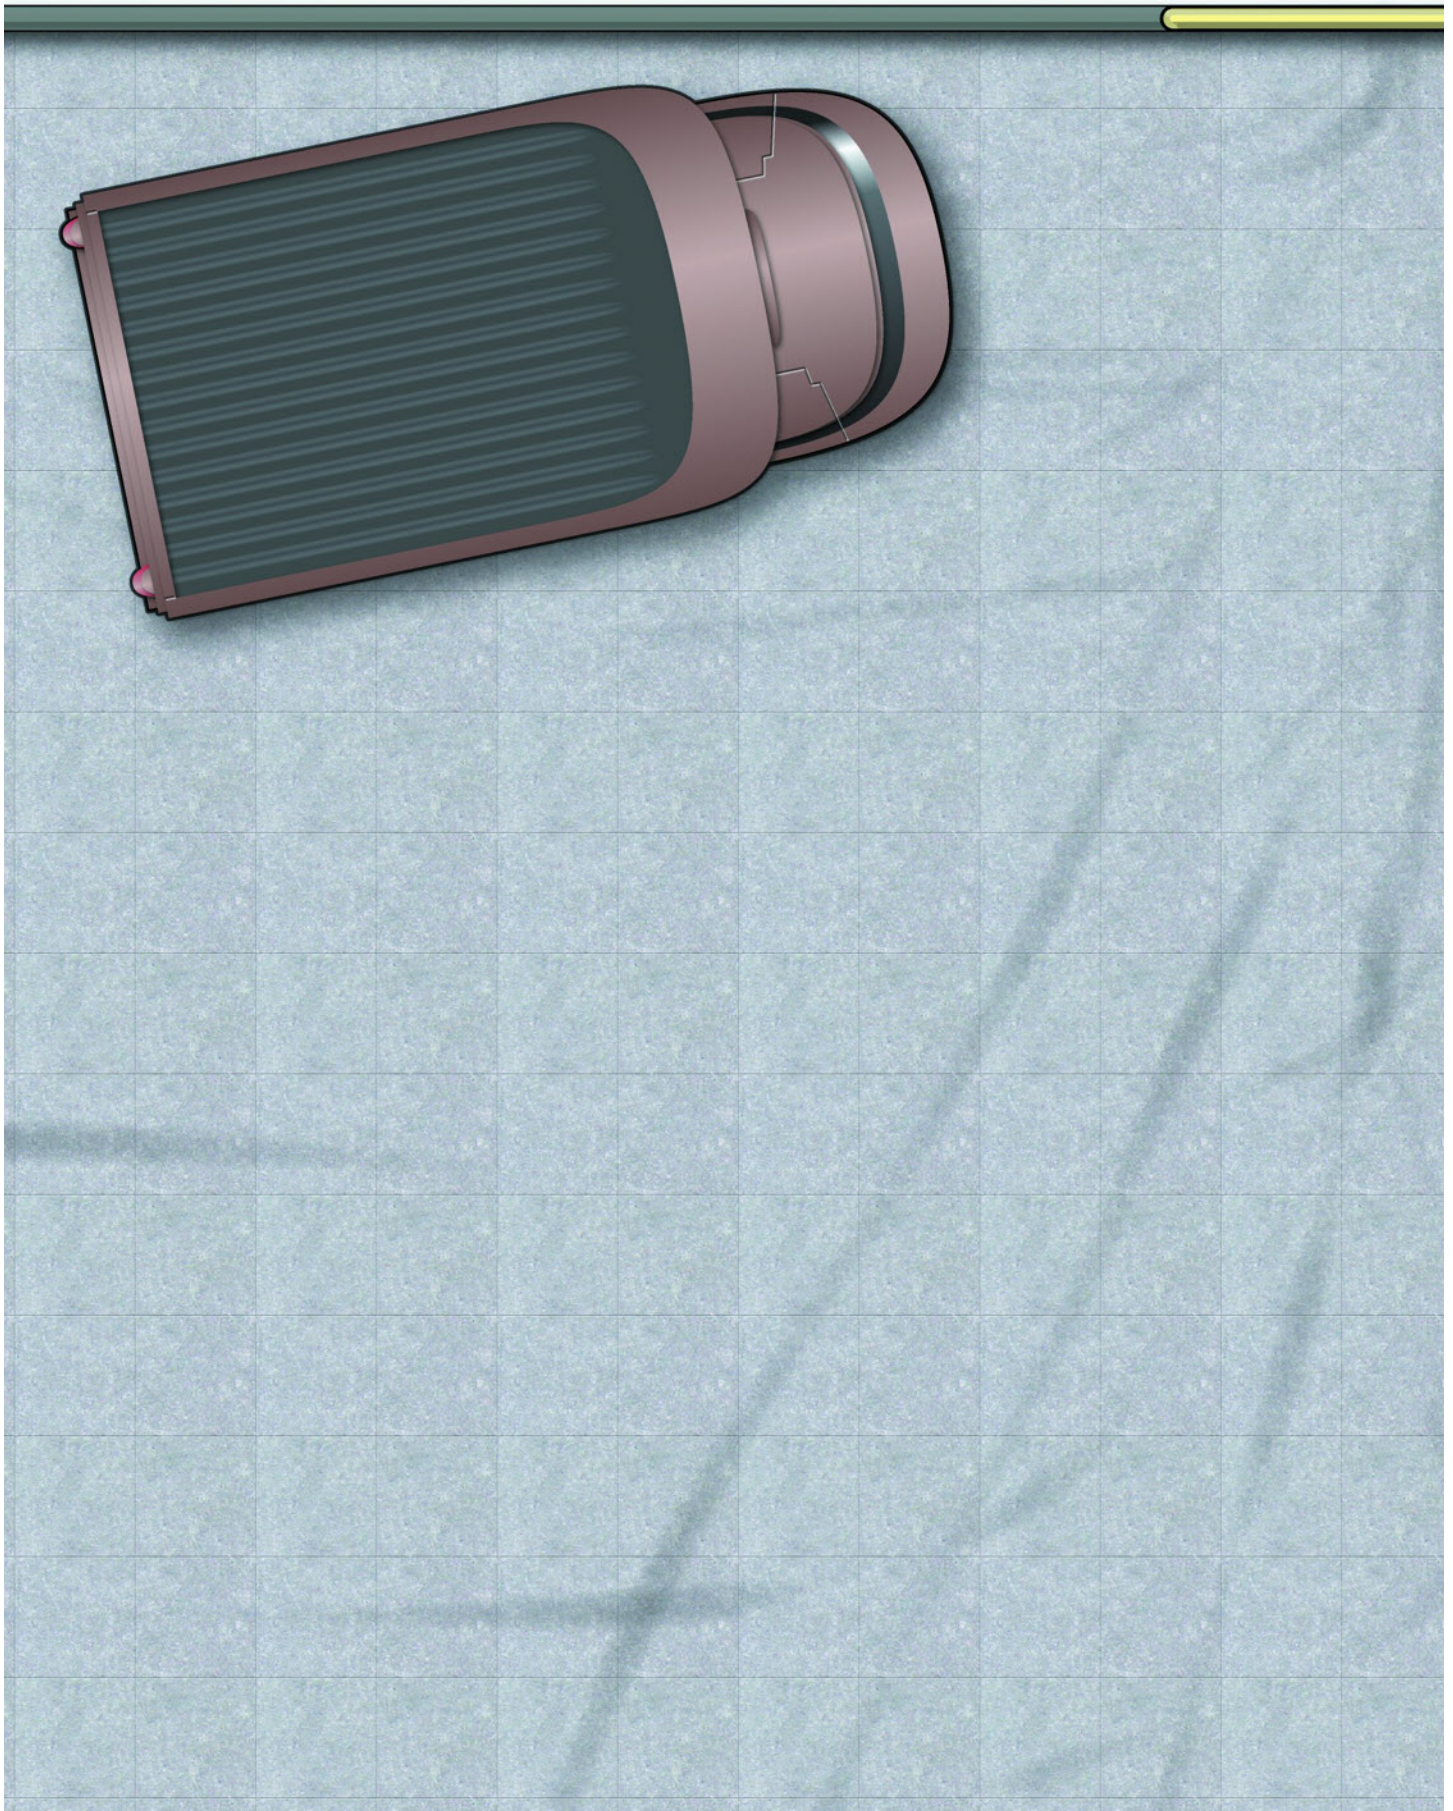

Pages have letters on the sides. Each letter on a given page corresponds to a letter on another page. Match sides with like letters to reassemble the maps after printing (for example, two pages with the letter "A" on one side should have those sides placed adjacent to one another). Page sides with no letters printed on their margins are the edge of the map.

A top-down view of a prison cell. The cell has grey tiled walls and floor. On the left is a barred window. The right wall has a door with vertical bars. Furniture includes a toilet, a sink, a bed with a green blanket, and a small table with two chairs. There are also some small yellow objects on the floor.
