THE FLYING WOMAN

"Did you ever get the feeling that it's really a joke? You think you've got it figured out and then you find that you don't. So you say goodbye to the world and now you're floating in space, you got no sense of nothing not even a time or a place. Then suddenly you hear it, it's the beat of your heart – and for the first time in your life you know your life is about to start."

Hey yah, bring it on!"
