

KILL TEAM CORE MANUAL

Official Errata, August 2019

The following errata correct errors in the *Kill Team Core Manual* and accompanying products. The errata are updated regularly; when changes are made any changes from the previous version will be highlighted in **magenta**. Where the date has a note, e.g. 'Revision 2', this means it has had a local update, only in that language, to clarify a translation issue or other minor correction.

Page 31 – Inflict Damage

Change the last sentence to:

'If a model's wounds are reduced to 0, any attacks still allocated to this model are not resolved, and then the player controlling the attacking model makes an Injury roll for the target model (see overleaf).'

Pages 32 and 208 – Injury Roll

Add the following row to the bottom of the table:

INJURY ROLL MODIFIER IN ANY OTHER CASE	
Each flesh wound on the injured model	+1

Page 33 – Invulnerable Saves

Change the penultimate sentence to:

'If you use a model's invulnerable save, it is never modified (e.g. by a weapon's Armour Penetration characteristic or by the Survivor ability) unless the modifier explicitly applies to invulnerable saves.'

Page 59 – Terror Tactics, Battle Length

Change to:

'At the end of battle round 4, the player with the greatest advantage must roll a D6. On a 3+, the game continues, otherwise the game is over. If the battle doesn't end as described above, at the end of battle round 5, the player with the greatest advantage must roll a D6. This time the game continues on a 4+, otherwise the game is over. The battle automatically ends at the end of battle round 6.'

Page 59 – Terror Tactics, Victory Conditions

Change the first paragraph to:

'Each player scores 2 victory points for each of their models that have broken through enemy lines (see below), and 1 victory point for each enemy model taken out of action by one of their model's attacks or psychic powers. The player with the most victory points is the winner. If there is a tie, whichever of those players had the lower Force (see page 19) is the winner. If there is still a tie, the tied players draw and any other players lose.'
