

BEASTMEN BANNERS

Feel free to print out these banners for use with your models. Beastmen banners are frequently tattered and torn, and quite roughly made. Black works well as a background, or perhaps dark colours such as red for Khorne, blue for Tzeentch, green for Nurgle or purple for Slaanesh, with the central image on the banner painted a strongly contrasting colour.

The larger banners are designed to be used as your army's Battle Standard, or to represent a special magical banner carried by one of your units.
