Shops

This book contains the listing of all Shops and Stores. It includes places where bulk purchases of foods are made. Restaurants/Eateries, Taverns and Inns are covered in Book 3. The listings are arranged alphabetically. Note that no specific location is given. This is so that each Judge may personalize the arrangement of the city to better reflect the tone of the campaign he or she moderates. The location is given in terms of the "Quarter" of the City, such as "Merchant Quarter, Thieves Quarter, Nobles Quarter, etc." These Quarters are deliniated on the map in Book 3. A special space is provided right after the name of each shop to write the location hex code number.

The listing for each shop gives first in boldface type the name of the shop or the type of goods or services sold here. Next is listed the major people at this establishment in order of importance. Minor personages are listed in the text of the shop description where appropriate. Listings for each person are in order: Name, Class, Alignment, Level, Hit Points, Armor Class, Social Level, Strength, Intelligence, Wisdom, Constitution, Dexterity, Charisma, and most favored Weapon. In the text of the description are listed any specific treasure items appropriate to this shop. At the end of the description may also be listed "cache". This refers to the tables in the center of this book, pages 40 and 41. These tables permit a Judge to locate and describe in whatever degree of detail necessary those "stashes" of valuables that persons were wont to make in an era that does not have banks with safe deposit boxes. Lines are provided at the end of each shop for the Judge to record whatever items of interest he or she desires. Two lines are also provided for most shops with those establishments which are of greater import having a greater number of lines.

Persons of note are listed in the Important Persons Index in Book 3. Only those persons of note are listed. This means that only those persons of moderate to high social level or those important in game terms because of special functions or talents would be listed. As a general state of affairs people in the City State of the World Emperor tend to be a level or two higher than those in the City State of the Invincible Overlord owing to the tougher level of competition. Also since more trade flows through Viridistan the level of cash flow and total of treasure are slightly greater. Beware; since the guards and traps are tougher too!

Rauff Sarru-Kaat CL CG 3 12 7 5 16 10 17 15 14 13 Mace Musi Suleim is a very studious type, always reading. He sells books (quite expensive, 35 - 135 GP); non-magical Scrolls, 15 - 30 GP; and Clay Tablets, 3 CP - 2 SP. Treasure maps, 500 - 1000 GP, accuracy or authenticity not guaranteed. A separate room displays art objects — ceramics, stone and metal statues, portraits, etc. Musi excells at spells like Cause Disease, Constant Darkness, Stop Person, Glance of Death, etc. This is helpful in Musi's real work since he is the leader of the Limit Team of the Black Adders. The Limit Team majors in disappearances, new identities, hiding kidnappees, debilitations, bad luck, and other holding actions not requiring much physical exertion. Since Musi (while not exactly fat) is a bit hefty, he prefers armchair dirty work to more active brow-sweat nasty projects. Riffin Zhard wants to be head of the team and Musi has a hard time keeping him in check; Musi prefers the cerebral approach, Zhard prefers action by brawn. Rauff likes to read but doesn't understand much. He does do well with money, however. A ceramic coiled snake behind the desk will spit poison at Musi's will. Some vicious Red Ire Spiders live above the rear door (leads to cellar), and will attack if anyone attempts to go through without talking with them pleasantly, insuring the spiders of his/her good intentions. The stone horse head in the corner is actually gold. Kangmor produces a good product but is known for his messiness; his boots last but are not beautiful. Rhila helps him get supplies and puts what order there is in his life where he needs it. There are 45 GP under a brick in the workshop, 6 GP, 25 SP, 16 CP in a sock under the bed.

Two of Kangmor's children are average ruckamuck kids but the third, Lorin, has special gifts and talents and though he is but a young man, he consorts with powerful types. He has special seeing "states" different from MUs and Mcs and he also enters catatonic comas; the former adds one LVL to him and the latter to his Wisdom or Charisma. He is under training from a high LVL Mc and also three MUs (including one witch). Other kids look on him as sickly but not unusual — they don't know the real Lorin as he hides it. Lorin has gotten a part time job running messages in the palace. There is no doubt that he is a key figure in the political future of the City State. He is now practicing the levitation and platting of objects the size of sceptors. Retrieval comes next. Lorin's pet giant lizard is in the basement.

Fielding makes simple but beautiful cups. His temporoary insanity seizures cause him to become violent to living things so he must be restrained. Once, though, he claims he outstared a Troll until daylight and he turned to stone. A piece of that stone (he says) is in his workshop propping up a bench. He has a pet giant Leech.

Fernlace is the top Herbalist in all the land. There is scarcely a plant he doesn't know and he can work wondrous things using them. He can shrink a very large tree down to its original seed overnight. He can shapechange into a tree and back. He can speed healing, draw up water from underground for drinking or filling moats, surround a castle with thickets. Fernlace is, in fact, a Mycretian Prophet. He has written three Herbalist texts, 29 commentaries (some banned), five Holy Book Declarations and two Prophesies. He lives simply, has few possessions but many friends. He appears ageless; he is an Old One. Fernlace has a long history of involvement with the Holy Cities, the City State and Viridians. He is personally responsible for the survival of the Mycretians several times during Seheitt's reign and for the protection of Cneninadus for as long as he was able (incredibly so) to avoid assassination. Twice before Fernlace had almost brought about Seheitt's demise but the Green Emperor managed to extricate himself. Now Fernlace is masterminding his "Great Magical Item Theft Escapade" with the help of his closest Apostle, Akii Liydala Hu'i and his good "fellow-herbalist" friend, Pakarrion Fah. Executed patiently over twenty years; the careful and precise thefts of the Emperor's many objects of power have angered, confused and worried him. Fernlace now has designs on his Sceptor of Sa'annak via a child with special powers. Encased in special Sye wood the objects are transported to the Holy Cities as conditions permit and new trees grown overnight to replace the missing trees. Fernlace invented the herbalist technique that gives the Sye tree its power to hide magic; only he and Pakarrion Fah know the technique and only a few others know of its existence. Red Oak is a young student herbalist showing great talent and Shagbark is an herbalist specializing in the geographic distribution of plants and is a great help in obtaining plants necessary to the work of advanced herbalists. All three Mycretians live simply and the only things of monetary value present would be certain plants in

Perfume/Soap Swit Snella MU CG 11 15 13 14 15 Dagger Swit Snella is, for all practical purposes in two completely different lines of business. She produces soap which is sold to taverns, housewives, and so forth and she makes perfume which is very expensive (100 GP a bottle and up). The perfume is primarily sold to wives of Nobles and very rich merchants. Swit also produces a special perfume for adventureres to draw out those unpleasant smells which occur in dungeons. This perfume cost 150 GP a bottle. She employs two Assistants: MU, CG, LVL 1, AC 9, HP: 3, 4, Daggers. Soap is 1 SP/ounce, and Customers: NA 2 - 12, Levels 1 - 12. Caches: two cashboxes plus 1100 GP and a potion of Fire Resistance hidden in a vase on a shelf in the back room. Pipes & Bells

Jinglin' Jermi whittles his own pipes and casts his own bells. Depending on size, pipes cost 4 CP - 18 GP; bells, 2 CP - 64 GP. The light bells (2 SP) he has hanging about the shop jingle in the wind with a pleasant tinkle. Hence his name. Denlias, teaches pipe lessons at 2 SP per half hour to the talented only (30% PROB music ability present). Aggleroot Wortstinger is a very fine witch. She controls herself from eating children and limits her battles with Malgethon to only one a year. However, she loves collecting creepy crawlies, gold, gems, magic items and forbidden knowledge. She thinks she will soon know where the Black Cauldron is. No caches — all the loot is just laying about — but watch out. The creepies will get you (2 - 6 HD).
